Teachers Hard at Work Preparing Novel Features

From Greek drama to Indian club drills will be the variety of entertainment afforded in the exhibit program planned for the annual school exhibit to be held at convention hall Wednesday, Thursday and Friday of this week. Teachers are hard at work preparing novel features for the exhibit which promises to be the largest and most diversified of any held hitherto.

The high school band, under the direction of H. H. Ryan, will play an overture the opening, Wednesday night. The first grade of Lincoln school will demonstrate rhythm work, followed by a Greek play "How Athens Was Saved," presented by the third and fourth grades at Pershing. Department grade choruses will sing a group of numbers; River view school pupils will give a drill and a dance. A "Fashion Show" that speaks of hard work skillfully done will be a feature of the Friday night program. Home economics students from Central high school will give a dress exhibit that will include frocks made in class during the school year. A fourth grade chorus will open this program, followed by a chorus from Emerson will do a minuet and Lincoln students will give a polka. A chorus of fifth grade boys will sing a group of songs, and Horace Mann students will build a pyramid. Irving junior high school students will march, and high school girls of advanced music classes will sing.

DEPARTMENT GROWS

Home Economics Classes of High School Too Crowded for Entire Exhibition at One Time

There is one department of the city schools that has outgrown the facilities for the annual exhibition of work done by its pupils. This is the home economics department. It will be impossible for the exhibits from all the schools to be made simultaneously. Miss Clara Kihle, supervisor of the department, stated yesterday that exhibits from the ward schools will be displayed Wednesday, Thursday and Friday morning, and then away to make room for the Central high school home economics exhibition. The high school work will be ready to be unpacked by opening time that afternoon.

Exhibit material from the grade schools is unusually large this year, due in part to the fact that the seventh grade has had machine work for the first time this past winter.

YOUNG MOTHER NOW STRONG Her Mother's Faithin Lydia E. Pinkham's Vegetable Compound led Her to Try it

Kenosha, Wisconsin.—"I cannot say enough in praise of Lydia E. Pinkham's Vegetable Compound. My mother had great faith in it as she had taken so much of it and when I had trouble after my baby was born she gave it to me. It helped me so much more than anything else had done that I advise all women with female trouble to give it a fair trial and I am sure they will feel as I do about it.—Mrs. Fred P. HESSIG, 662 Symmonds St., Kenosha, Wisconsin.

A medicine that has been in use nearly fifty years and that receives the praise and commendation of mothers and grandmothers is worth your consideration. If you are suffering from troubles that sometimes follow childbirth bear in mind that Lydia E. Pinkham's Vegetable Compound is a woman's medicine. It is especially adapted to correct such troubles. The letters we publish ought to convince you; ask some of your women friends or neighbors—they know its value. You will, too, if you give it a fair trial.
