Relics of Sibley's Raid.

Frank Dowd, Steele post office, a farmer living near Horsehead lake, Kidder county, has the axle and two wheels of a gun carriage he found some years ago near the lake. It will be remembered that part of Gen. Sibley's wagon train was raided and burned by the Indians at this point forty-three years ago and it was in this vicinity one of the hardest battles was fought between Sibley's pursuing troops and the Indians after the awful Minnesota massacres. Undoubtedly these wheels are part of Sibley's outfit. They are in an excellent state of preservation as Mr. Dowd uses them on a cart on his farm. They would make an interesting relic for the state historical museum and undoubtedly Mr. Dowd could be persuaded to part with them for this purpose.

Objects to Plans.

Steps are being taken to have a meeting of the Minnesota delegation in congress in the near future relative to the various plans that have been proposed for draining the lands in the northern part of the state. It is understood that while the matter has not been formally placed before him, Indian Commissioner Leupp has indicated that he would not favor the Bernard plan for the draining of the Indian lands. Representative Steenerson's bill provides for the draining of the public and Indian lands from a fund to be created from the proceeds of the sale of lands in the state, and Leupp favors this plan.

After Saloonkeepers.

There is trouble out at Lengby on the Great Northern, according to reports which arrived in the city last evening. A Mrs. Olson living near that village complains that her two youngest sons, William and Henry, who are under age went into Lengby one night last week and in some secret manner well known to the habitué secured liquor of the saloons there. They passed through the usual stage of hilarity and started their team toward home. Meanwhile the after slumber came upon them and they drove up to a school house to go to sleep. They were discovered in the morning in a very serious condition from exposure, after a search that had been instituted by the frantic mother. Inquiry started by the mother showed that Lengby saloonkeepers had sold the minors liquor.

Compliments For Groom.

The following from the Milton Globe will interest the many friends here of Mr. Groom, a former well known resident: "Superintendent Groom spent the greater part of the week in this vicinity inspecting schools. Mr. Groom appears to take to the work devoting on the office with a vim and enthusiasm that is bound to bring results. He devotes practically all his time to the personal inspection of schools under his supervision, spending only Saturdays at his office in Langdon where he employs a stenographer to look after the clerical work."

Stock Will Go Up.

St. Paul News: The rise in Great Northern stock within the last few days is attributed to the speech of James J. Hill at Grand Forks Tuesday.

Mr. Hill said he was willing to pay one-third of the expense of draining and reclaiming millions of acres of western lands.

Such a statement means thousands of new citizens, farms, machinery, wheat fields, grain crops and general prosperity for the country which the Hill lines traverse. It also means millions of tons more freight for those lines.

Entered Plea of Guilty.

Yesterday John Anderson, Ole Berg and Wm. Brainerd entered a plea of guilty at Crookston to selling liquor against the law at Fosston and were assessed a fine of \$5 and costs each.

It was the intention to fight the cases at first and then have several postponements of the hearings for one reason or another. The arrests were all made last month by Deputy Sheriff Daniels and their places of business closed by him and placed in charge of deputies to see that they remained closed.

Ralph Was Stated.

The annual meeting of the Minnesota surveyors and engineers society will be held in St. Paul in the old capital on the 18th of this month and all of the problems relative to city work of engineers will be discussed by the leading engineers and surveyors from all parts of the state. State engineer Geo. E. Ralph of Crookston, is on the program for an address but whether he will attend is quite doubtful. He is now very busy attending work in Clay county.

There are eight local stockholders in the corporation.

Judge Fisk handed down a decision in favor of L. C. Bickford in the Mandamus proceedings in the county superintendent of schools case in Ward county. Bickford asks for a mandamus to compel the count auditor to pay him his salary. Miss Flora L. Frost defeated Bickford for county superintendent in 1902, but was proved to be a non-resident of the county. Bickford filed suit and the term is seeking to collect his salary.

Interest in Politics.

Even at this early date there is considerable interest being taken in the municipal election, which comes off this spring, and business men are exchanging opinions at the dinner table, in the hotel, corner saloons and on the street. There promises to be interesting times, judging from the early interest being shown.

District Attorney E. R. Sinkler of Grafton was a guest at the Antlers last evening, when he was entertained by the city. He will appear in the Kelly divorce case, which is attracting much attention. Attorney Sinkler appears for the plaintiff, Mrs. Kelly, who alleges cruel treatment, and further that her husband has property worth \$40,000 of which she asks a portion. Attorney Sinkler, though a young man, has won an enviable reputation as a lawyer. He took occasion to compliment The Evening Times and states that the paper is winning many friends in the north.

The young people will make their home at Hibbing.

The report which appeared in the morning paper that Richard Fadden of Larimore was suffering from kidney trouble and had gone to Rochester for an operation is wholly erroneous. PRINTERS STRIKE IN NEW YORK LOSING

New York, Jan. 15.—The typothetae last night gave out the following statement: "The most significant development today insofar as the typothetae is concerned, was the return of a number of union men to one of the largest typothetae firms. These men have given up their membership in the union and have accepted the typothetae conditions. This fact, together with the arrival of a number of competent men, has added to the confidence of the employers and in their opinion the prospect tonight is more satisfactory than at any stage since the strike began."

The number of new men now at work in the open shops is sixty per cent of the total number that walked out, a distinct gain over last week.

"An interesting incident of the printers' strike and one that may form an important test for future strikes, has developed in the filing of four suits for \$10,000 each for libel against John H. Delaney, editor of the Unionist, a local labor paper. The plaintiffs are H. Kanegsberg, Edward J. Stewart, Oscar W. Wells and B. Cadrington. They were members of Typographical Union No. 6 in New York and were employed by the I. W. Blanchard company, members of the typothetae. On Dec. 30 they resigned from the union and remained in the employ of the company. On Jan. 6 the Unionist printed their names in what was called a roll of dishonor. The plaintiffs allege in their petition that they have been charged with being guilty of a dishonorable act and thereby ask damages."

HARVARD ABOLISHES THE GAME OF FOOTBALL

Boston, Jan. 16.—Football has been abolished at Harvard pending a reform in the game that will be acceptable to the board of overseers, according to an official announcement today from the university, the discontinuance of the game is the result of a vote taken last week at the meeting of the board of overseers. The overseers accepted unanimously the opinion of a special committee that the game as at present played is essentially bad in every respect, that the method of formation encourages trickery and foul play and that the result is bad for the morals of the players as well as for the body. The committee declared that if changes were to be made no man not a member of the so-called intercollegiate rules committee should have a hand in it, the committee believing that these persons are so far committed to the present system that they could not be so objective as to produce a decent, clean, pleasurable contest, "instead of the present barbarous game."
