

### What Stanchfield Says:

**"OPPORTUNITY BREAKS INTO JAIL"**  
**"THE FACT IS THAT"** This day "opportunity" is knocking at your door. The Northwest is in need of "fellows" who can do things. New just get ready for that knock with a few of "My Togs," say for instance that new dark worsted suiting that I have sold so many of that make. It's that new style. The long 3-Button Sack with those creased side vents. I guess "the fellows" that wear them "look poor." They try to get along. "Well, they have hand made buttonholes, collars and lapels and they are only \$18.00 on the corner.

**"MY TIP IS ALL RIGHT"**  
 Now I can fix it for you so that when opportunity knocks at your door you can be "Johnnie the Gent" ready to "make good." Don't let them turn the "Anvil Chorus" on you. You know opportunity will not smash in your door and wake you up. That's what the "other fellow" thought when he charged you \$25.00 for your last suit not as good as my \$18.00 ones. But the other fellow "don't need a guide now to wake him up and tell him he's a "dead one." He knows it. A rain storm kills many.

**"MISS SIX O'CLOCK EDITION"**  
 Says to "Johnnie the Gent" go and get a pearl gray Roswell Hat, a Blue Madras Shirt with an Alice Blue Tie, a narrow Black Belt, a pair of Patent Vici Kid Shoes, Blucher Style, with a pair of those Fancy Socks. Put on your new suit and I will show you "THAT HAPPINESS IS A HABIT."  
**"Contract It"**

**AT YOUR'S FOR WHATEVER'S RIGHT"**

### Of Interest to East Siders

#### CITY FATHER TAKE UP LEGISLATIVE GRIND

#### Cost of Power for Brick Company Discussed and Other Matters.

The city council met in adjourned session last night with all the members present. The reading of the minutes were dispensed with for the sake of melody—and the council proceeded to business.

There was no report of officers, and none of standing committees.

A communication was read from the Red River Valley Brick company in reference to a continuation of its contract with the city for power for its brick plant on the east side of the river. The matter turned into an informal talk. It seems that the company has formerly paid the city \$75 per month as a flat rate no matter how many days the plant was idle. Superintendent Allard had estimated that according to the power required as indicated to him by the company it would cost at the regular rate at which the city is now selling electricity, about \$211 per month on the basis of a regular service of ten hours every day. He thought it would not be expedient for the city to enter into contract under these conditions, and the council seemed to share this belief. The rate of forty cents per hour was also not satisfactory. It was concluded that the only fair way would be to attach the machinery of the plant to the dynamo, and test the amount used, and see if an agreement on this basis could be reached. In order to carry out this idea the matter was referred to the committee on water and light in conjunction with the superintendent of the electric light plant, and as it was important that the matter be settled as early a date as possible, they were empowered to act in the premises.

The city council was notified to remove its wood from the lots near the electric light plant. Several former

communications have been made on the matter, and the city has tried to lease the grounds for the purpose, but it seems the property has just passed through the probate court, and the matter has not been adjusted. It was referred to the committee on water and light with power to lease the property if possible, and if not to arrange for another place for storing the wood.

A communication from John Hass was read. It seems that in 1902 he made application for a liquor license and put up a \$500 cash bond. The license was not granted, and according to the communication, the money had not been refunded. It was referred to the city attorney for investigation.

The matter of appointing the board of health was brought up, and City Attorney Collins suggested that the council take a recess so that a statement could be prepared. The president declared a recess of twenty minutes, and in about twenty seconds Craig had suggested the names of Alderman Westberg, Bydahl and Borchers. Before the president had time to get out of his chair, the council announced itself ready to proceed. Craig moved their appointment. Sherick seconded the motion, and the most powerful committee of the council was appointed.

By resolution the fire apparatus of the city was placed in the hands of the superintendent of the electric light plant.

The matter of granting liquor licenses was then taken up. Twenty-eight were on file but were laid over because the applicants had not signed the contract for the use of electric lights from the city as required by the ordinance. There seems to be a misunderstanding on this matter. The city requires all applicants for license, before receiving such license, to sign a contract with the city to purchase whatever electric light is used about the saloons, from the municipal plant of the city. The ordinance does not prevent persons having licenses from using other kinds of lights, but only requires that if electricity is used it be purchased from the city. In as much as the city owns the electric light plant, and also the license privilege, the restriction seems to be very unreasonable. Otherwise cases might arise in which the city undertook to regulate the saloons they could procure their light from the west side and practically put the electric light plant out of business. The following applications were approved and

licenses ordered issued upon the payment of the license tax:  
 Thomas Nelson, L. O. Lystad, Frank Tessler, John Vosler, James Jarvis, W. Franklin, Fred Heulein, F. Enning, Hans Gustad, Ole Myren and J. D. Busch.

The council then adjourned to meet April 20, at 8 o'clock p. m.

**Will Extradite Him.**  
 Late yesterday Chief Brown received a telegram from Winnipeg stating that E. Morris who more than a year ago stole \$140 from the Brown Bros. saloon had been caught at Winnipeg. He will be brought back to Polk county for trial, and in case he does not come willingly, will be extradited.

**Shook Up Some Boys.**  
 A crowd of boys ranging in age from 10 to 15 years were arrested last night charged with stealing whiskey. Chief Brown played the part of guardian this morning and gave the boys some fatherly advice mixed with some official warning, that the lads will remember for a long time.

**A Popular Officer.**  
 Deputy Sheriff J. J. Gonyea was in the city this morning having brought over Eva Moran for a hearing in municipal court. He is a genial young officer and is becoming quite popular with east siders who have official business to transact with him.

**Manages Large Business.**  
 Father Chilean of Gently, is spending a short time in the city. In addition to his duties as a religious leader, he is manager of the Gently Dairy association, one of the most successful dairy enterprises in Minnesota.

**Enjoyed Vacation.**  
 Miss Lucy Berry, one of the popular teachers in the public schools, returned this morning from the Twin Cities where she spent a few days of her vacation.

**Attorney Returns.**  
 Attorney Finlayson returned from St. Paul last night where he appeared before the supreme court in the Bell vs. Jarvis case.

**In the Country.**  
 W. W. Jacobs is on a trip to the country today looking after business matters.

**Cut Flowers at Undertaker Sullivan's, East Grand Forks, Minn.** Telephone 777.

**Paints and wall paper at I. Kingman's.**

**For fresh fruit call up 22. F. J. Cummings.**

**If you are looking for Easter novelties call at Kingman's.**

**Stationery and supplies at Cummings.**

**Baseball goods at Kingman's.**

**Morey Long.**  
 We have seen illustrated songs at all times and in all places, but it is seldom that we have such a vocalist as Mr. Long to render the selections. He has been connected with many good companies, among them the "Savage Grand Opera company."

**Notice to Contractors.**  
 The undersigned will receive bids for the erection of five bank buildings, all of which are to be located within a radius of 100 miles from Grand Forks, up to and including April 22. For information, plans and specifications call on or address  
 N. B. Fell  
 Grand Forks

### NORWEGIANS WILL CELEBRATE IN MAY

#### National Independence Day Will Be Fittingly Observed in This City.

The coming May 17th promises to be a day long remembered by the Scandinavians in this city. Visitors from all over the state will be present and a big celebration is planned by the committee having the work in hand. Speeches, banquets, and parades, and a play to be put on at the Metropolitan opera house are some of the features planned. Although there are several other dates, on account of recent events, which can well be recognized by the Scandinavian people, yet this date—May 17—will ever remain in the minds of the people as the real date of Norway's independence.

The day will also mark the formal dedication of the Scandinavian library to be installed at the university and procured by dint of hard work on the part of Professor Tingelstad, who raised over \$5,000 throughout North Dakota from the Scandinavian people. The state added \$2,000 to this sum and the result will be one of the finest Scandinavian libraries in the United States. Professor Tingelstad took a trip to Norway and Denmark a year ago in the interests of the work and too much credit cannot be given him for the success of the undertaking.

The committee, composed of H. J. Anderson, J. E. Anderson, Professor Tingelstad, Miss Hassel and Miss Lund, has selected Anton Sannes of Minneapolis to handle the play. Mr. Sannes is a Scandinavian actor of some note and the one who had charge of the play put on at the Grand Forks celebration at Decorah, Ia. last year.

The play which Mr. Sannes has to work upon is called "Jeppe paa Bjerget" or in English, "Jeppe on the Hillside." It is a play by that famous Norwegian playwright, H. Ibsen, whose works are known throughout the world. It is a comedy in every sense of the word, a comedy of peasant life in Denmark along about the first part of the 18th century, having been played as early as 1722 in Denmark and Scandinavia. The play is truly remarkable for its vivid portrayal of the peasant life at that time and as such has always been a great favorite with the theater-goers.

### EARTHQUAKE VICTIMS

#### Quite a Number of Grand Forks People in San Francisco but Whether Any Were Hurt or Not is Unknown—Advertisers Predicted Calamity.

There are quite a number of anxious people in Grand Forks today as a result of the earthquake which occurred at the San Francisco, the awful details of which were first made public in The Evening Times special edition at noon.

There are quite a number of people who were former residents of this city now making their homes in San Francisco, or the suburbs of that city, among them Mr. and Mrs. E. C. Elwood and family, Theo. Saunders, Burke Corbet and others. Mrs. Elwood is a sister of Mrs. Burrows of this city and the latter made repeated efforts during the day to get into communication but this was impossible and it may be a day or two before word will be received. Theo. Sanders is a brother of Orr Sanders, who has also been anxiously awaiting news as to the former's safety.

Those who have followed the columns of the newspapers during the past few years will recall that about six or seven years ago the Seventh Day Adventists predicted the early downfall of San Francisco by an earthquake. The people of that faith, along with others who were persuaded at once left the city and moved back to their homes in the west where they remained for a number of months before again taking up their residence in the city, which this morning afflicted.

### THE DISTRICT COURT

#### Peculiar Legal Entanglement Engaging the Attention of Judge Fisk—Two Guardians Fighting for Control of Their Wards' Estate.

Judge Fisk's attention was occupied in district court this afternoon with a most peculiar legal entanglement, in which the title was about as far ranging, and the point at issue—which of the two guardians of Jacob Asgier Stephen Lindal and Sophia Christina Gudrum Lindal, whose parents were formerly residents of North Dakota, should have the keeping of the estate of their father, now deceased, left them. The estate consisted of \$2,000 life insurance carried in the Ancient Order of United Workmen.

It seems that after the father died the mother re-married and moved to Oregon. She petitioned for and procured the appointment of E. E. Quick as guardian of her children's estate. The will of her deceased husband also provided for the appointment of a guardian. Here was where trouble began, both guardians seeking to get control of the estate. One thousand dollars of the insurance money is now in the hands of the clerk of the district court of North Dakota, the county, while the other \$1,000 has been paid to Jacob Asgier Stephen Lindal, who recently became of age.

Tracy R. Bangs is appearing for one of the guardians and B. G. Skulason for the other.

**Suit for Commission.**  
 An action entitled Mich. Maloney vs. the Gelsler Manufacturing company, involving the payment of commission to the plaintiff in the sale of a threshing machine, was tried before Judge Fisk Wednesday morning. Judge G. C. H. Corlies appeared for the plaintiff and Turner & Wright of Fargo for the defendant.

**Meeting.**  
 at of the Y. M. C. A. Y. M. C. A. building

### A NEW BANK FOR EAST GRAND FORKS

#### O. M. Hatcher and C. J. Losgren to Be Officials of the Institution.

Arrangements were completed last night for a new banking institution for East Grand Forks. The new bank is chartered under the laws of Minnesota, and has a capital stock of \$25,000. The officers of the corporation are as follows:  
 President—C. J. Losgren, who is president of the First National bank of Ada, Minn., and also of the Cando National bank of Cando, N. D.  
 Vice President—O. M. Hatcher, of the Hatcher Bros. of Grand Forks.  
 Cashier—N. J. Nelson, a prominent traveling man.

A modern bank building will be erected on the corner of DeMers avenue and Second street, which will cost about \$10,000. Work on the building will begin shortly after May 1. A number of prominent East Grand Forks business men are interested in the enterprise.

### BY EPISCOPAL VESTRY

#### Annual Meeting Held Last Evening—Reports From the Various Church Officers Show Finances in Excellent Condition—Talk of Moving Building.

Last evening occurred the annual parish meeting of St. Paul's Episcopal church of this city. The election of a vestry for the coming year resulted in the naming of the following gentlemen: Messrs. A. G. Shulteis, A. H. Runge, W. S. Smith, G. St. John Perrott, G. R. Jacobi, A. J. Fairchild and Dr. W. H. Bates.

After the vestry was named a spirited and interesting discussion took place in regard to the building of a parish house and various ways and means were discussed. Some favor the moving back of the present church to the rear of the lot and building a fine new edifice where the old church now stands. This discussion resulted in the naming of the following committee: Messrs. A. G. Shulteis, Dr. W. H. Bates and G. R. Jacobi, who will look well into the matter and report in the next thirty days.

Then came the reading of the reports of the various organizations of the church, that of Mrs. S. H. Irwin, treasurer of the guild, first. Her report was an excellent one and showed good work done by the guild this year. A little over \$800 has been raised by that organization and there lies now in the treasury nearly \$200 balance after keeping to the expenses of the choir and assisting quite substantially in the payment of the rector's salary. Next came Mrs. H. N. Gibbs' report as secretary of the guild. She reported the average attendance excellent and the interest taken in this organization after keeping to the expenses of the choir and assisting quite substantially in the payment of the rector's salary. Next came Mrs. H. N. Gibbs' report as secretary of the guild. She reported the average attendance excellent and the interest taken in this organization after keeping to the expenses of the choir and assisting quite substantially in the payment of the rector's salary. Next came Mrs. H. N. Gibbs' report as secretary of the guild. She reported the average attendance excellent and the interest taken in this organization after keeping to the expenses of the choir and assisting quite substantially in the payment of the rector's salary.

### THE WEATHER.

North Dakota—Generally fair and cooler tonight and Wednesday.  
 North and South Dakota—Generally fair tonight and Thursday; cooler tonight.  
 Minnesota—Fair and cooler tonight; Thursday fair; fresh to brisk southwest to northwest winds.  
 Montana—Fair tonight and Thursday.

 One door north O. Young's Furniture Store

### BASE BALL PLANS ARE DISCUSSED AT MEETING

#### Local Men Will Finance Team and Aid in Securing a Park.

A final solution of the "athletic park, Sunday baseball, et al" propositions which have been active trouble mongers in athletic circles in Grand Forks the past several days, was reached at a meeting held last evening, the outcome of which was—

1. That a committee backed by the business and educational interests of the city is to take hold of the baseball team as well as athletic park proposition.
2. That said interests will undertake to raise \$2,000 for the backing of a baseball team and will guarantee the finances of the team, in addition to procuring a site for an athletic park and assuming the control of the grounds.
3. That there will be no Sunday ball in Grand Forks this year.
4. That the above agreement was reached as a compromise between the interests which have been for and against the proposition of Sunday ball in Grand Forks and with a view to securing the hearty co-operation of all who are in any way interested.

At a meeting of the Commercial club committee, which consists of E. H. Kent, Prof. M. A. Brannon, James Dinie, Col. W. H. Brown and O. Hatcher, held last evening, Prof. Brannon, on behalf of the educational interests, represented by R. B. Griffith of the Y. M. C. A., President Merrifield of the university, Prof. J. Nelson Kelly and W. C. Stebbins of the high school and A. T. Felland of the Grand Forks college, stated that these gentlemen were willing to take it upon themselves to secure a site and equip an athletic field in which professional baseball might be played and further to undertake the financing of a Grand Forks baseball team, with the explicit understanding, however, that Sunday playing be debarred.

After some discussion this proposition was finally assented to, with the understanding, however, that Mr. Stanchfield is to be, figuratively speaking, manager and director of the team. He is to be guaranteed against financial loss.

It is understood that a soliciting committee will be named at once and will get busy.

The site for the new park will be determined probably today. There is every likelihood that it will be located at a not great distance from the old park.

### MEDICAL AID ON SPECIAL

#### Prominent Thief River Falls Physician Seriously Ill With Pneumonia and Special Train is Run From Crookston With Dr. H. W. Smith Aboard.

A special train was run on the Great Northern road from Crookston to Thief River Falls Monday night to bring medical aid to the bedside of Dr. Tupper, a prominent physician of the Falls, who lies seriously ill with pneumonia and is not expected to live.

Dr. Tupper, who is one of the wealthy physicians of the northwest and has for years been a resident of Thief River Falls, was taken ill very suddenly and his condition became so alarming that Thief River Falls immediately made arrangements for the chartering of the "special" and in record-breaking time had Dr. H. W. Smith of Crookston at the dying man's side. The run was made as fast as possible with the present poor condition of the roadbed. It was reported yesterday that the sick man had a fighting chance for recovery.

### Our Cartoon Service.

The Evening Times is receiving many nice compliments upon its cartoon service and illustrations accompanying feature stories. Our artist, Mr. Walter Stewart, is one of the ablest in his profession and comes from a family of artists. His connection with prominent Eastern journals and years of study have given him the happy faculty of grasping a situation quickly and portraying his ideas. Mr. Stewart hails from Indiana and was a personal friend of George Ade.

### FIRST WOMAN TO BRAVE PERILS OF ALASKA

#### Miss Kelly, Woman of Many Experiences, a Guest in the City.

Miss Emma J. Kelly of Crary, is enjoying a visit in the city. She has the distinction of being the first woman who went into Alaska in the first gold excitement, by way of Chitcot pass. When the first news of the discovery reached the states Miss Kelly left her home in Kansas City and braved every hardship and privation, got into the fields before the best claims were taken. She spent several months in the land of snows and as a result she owns a number of well paying claims which are being worked at a profit at this time. When the Devil Lake reservation was thrown open for settlement she was among those who drew the numbers and secured a splendid claim. She has purchased considerable dead Indian lands nearby and now has a fine farm which she is deriving a good income. With all her novel experiences she is a woman of culture and refinement, and as she talks modestly of her experience all the hardships she endured in reaching the land of golden promise, it is hard to believe that the well modulated voice and graceful form could be associated with such an iron will. Miss Kelly is considerable of a literary woman, and the story of her experience in Alaska was published in a number of the leading magazines of the country.

### INCORPORATE THE U. A.

#### Mass Meeting at University This Afternoon to Take up Question of Incorporating Athletic Association Under State Law.

A mass meeting is being held at the state university this afternoon by the students and members of the faculty for the purpose of considering the proposition of incorporating the University Athletic association under the laws of the state.

This has been agitated more or less of late and there seems to be an impression abroad that to incorporate the construction of a fine running track, the purchasing of apparatus, such as throwing hammers, the discus, etc. Tennis courts have also to be maintained and baseball and other material furnished.

If the association is incorporated, it will mean that in future all athletic events, such as track meets, football, baseball, etc., will be handled and financed by the association, the members of which shall be stockholders. The government would be vested in a set of officers and board of directors. It is expected that a decision will be finally arrived at some time late today.

### THE TIMES IN THE VAN.

Extra Edition With Authentic Account of Earthquake at Frisco Gotten Out.

The Evening Times, always to the front, was on the street today at noon, with an extra edition containing the Associated Press report of the earthquake at San Francisco. The papers sold like hot cakes and extra news boys were kept constantly at work supplying the demand. The Evening Times' report of the disaster was the authentic story from the Associated Press furnished only to evening papers which own the franchise. The Herald, a morning paper, followed with an extra containing a meager report after The Evening Times was on the street. In yesterday's issue our Washington correspondent furnished an exclusive story relative to the great Hill-Harriman fight for control of the western route to the Pacific. This story will probably appear in the eastern papers today and is a complete "scoop" on all competitors. The Evening Times cites these instances as a fair example of what the paper aims to do, namely, print the news for all the people without fear or favor.

Watch us grow.
