**WEATHER REPORT**

North Dakota.—Fair tonight and Sunday. Not much change in temperature.

**What Stanchfield Says**

**"BE PATRIOTIC FELLOWS AND CELEBRATE"**

Your Uncle Sam's birthday in one of my famous \$18.00 suits and you save \$7.00. That's your day's expense July 4th, if you buy 'on the corner.' If you buy at the "other fellows'" there is nothing doing for you in the expense line for the Fourth. My \$18.00 suits have been tried and proven the best ever. They ought to be—I have them cut and made to my own order and they are worn by all the fellows that used to go to the best tailors and have them made.

**"YOU'LL WANT SOMETHING"**

To get you ready for the Fourth and don't forget that's the day we all top up and go some. I think that one of my imported Panamas at \$7.50 will top off and make you one of the Crackers. I have the new Mackinaw Straws from 75c to \$3.00 and they're all right. Don't forget a Fancy Vest the weather is just right now; \$1.25 to \$4.00, and the Broadway Vests at \$2.50 still leading. Get a new narrow belt, a Polka Dot Tie, and a Fancy Hat Band. They are 50c each for the best kind.

**"SHIRT TROUBLES CURED"**

Just take 3 doses for \$5.00 and you are all set for Neglige Shirts for two reasons: You get the best imported Madras here and the patterns are the exclusive kind, not the same that they buy in the general store. Good Head Notes: Roswell Hats \$3.00. Good Foot Notes: Crosette Shoes \$3.50. Don't be late as you may need the time.

**Grand Forks Man Gets Even With Crosby Hotel Keeper.**

Grand Forks traveling men are telling a good story today of an experience which "Jim" Knowles, the popular representative of the Dayton, Ohio, Scale company had with a hotel man at Crosby this week. It is stated that at Crosby this week the clerks at the hotel men in the new towns on the western ranges have designated traveling men as "their meat," and in consequence never lose an opportunity to "soak" them in price charged.

**Housewives Find Their Cash Doesn't Go As Far As It Used To.**

Fresh fruit is not the only article of diet which is higher this year than last and the troubles of the housewife are not over when she has stretched her pocketbook to purchase berries, cherries and plums at top notch prices. There seems to be a general advance in staple groceries as well, particularly canned and dried fruits and vegetables.

**P.O. ROBBERIES**

**Clever Artists Engaged in Raiding North Dakota Stamperies.**

The busiest men in North Dakota at the present writing are the three postoffice inspectors who have North Dakota for their field. Six postoffice robberies within the past few weeks is the cause of the activity on the part of the inspectors and, although there are four men under arrest on suspicion, Uncle Sam's hired men have not been able to secure any positive evidence against any of the suspects.

**OF INSURGENTS ARE BUSY**

Disruptionists Are Conducting Secret and Treacherous Warfare Against Republicans.

**MARKET TIGHT**

Local wholesalers attribute the advance in dried fruits to a shortage in the crop last year and the same reason is said to apply to canned tomatoes and fruits. Canned corn on the other hand is a trifle lower this year than last owing to the fact that a larger quantity than usual was shipped to the canneries last fall. From present indications staple groceries as well as canned fruit and tomatoes to be the same during the coming season as reports from the west indicate that the crops are short this season, but the dealers expect the conditions regarding canned corn and tomatoes to be reversed.

**MARKET TIGHT**

The six robberies were committed by the same men in the opinion of the authorities, but only slight clues have been obtained as to the identity of the robbers. Two men, well dressed but wearing new overalls over their street pants, are being sought all over the state. They are placed and tall the description might fit a thousand men in the state just now and there is little encouragement in working on such a slight clue.

**MARKET TIGHT**

Having been deserted by two-thirds of the voters of this county, "Captain" Spaulding, assisted by his aggression of aide-camps are now engaged in making the last fight against loyal republicans of this state. So desperate has become their disgraceful cause, that it has become necessary, in order to keep alive the flame of treachery, to send emissaries to the different counties of the state who are to operate in the capacity of walking delegates. This army of agitators are expected to go from place to place and tell the people that they have been defrauded and that the primary election was not conducted according to law. They even have gone so far as to question the validity of the primary election in this county which rolled up a magnificent majority for the regular republican ticket. And we will now discuss in a brief way the object that has actuated this newborn insurgent party. It is to destroy the harmony and well earned peace of the republican party at the Jamestown convention. It would be the height of folly for any intelligent voter to assume for one moment that the insurgents will have enough votes in the Jamestown convention to constitute a body guard for the representatives of the regular state ticket. The insurgents know that they are in the hopeless minority and yet this fact does not seem to deter them from an opportunity to lay a foundation for a bolt in the convention. Actuated by selfish motives and irrepressible greed for office, the leaders of the insurgent wing of the party in power have conceived the idea that they will effect a division in the state convention that they will be able, with the assistance of democratic votes, to secure the over throw of the republican party. George B. Winship of the Grand Forks Herald has assumed, according to the latest reports, the attitude of political gorilla. For years he has labored to weaken the party for no other reason than that the party at one time very wisely repudiated his claim for the nomination of governor in the state convention.

**MARKET TIGHT**

The time of the year in which the robberies are being committed is what surprises the postoffice authorities. The open season for postoffice robberies is early in the fall when the post-offices do a landoffice business sending out money orders. Never before has there been an epidemic of postoffice robberies at this time of the year and this fact leads the authorities to suspect that the robbers are recent arrivals in the state.

One cause for the lower price of sugar has been the attempt which the sugar barons have made to ruin the sugar beet industry. Another cause is the increased competition. The sugar industry is no longer controlled by individuals. A remarkably large number of new refineries are turning out quantities of sugar and this naturally operates to keep the prices down.

The old adage that the man who tries to sit on two stools at the same time is liable to fall between, reflects the position of Mr. Winship and his friends. Spaulding will occupy when the votes are counted November next.
