Associated Press Cable to The Evening Times. St. Petersburg, July 6.—The impossibility of a forming coalition of the ministry together with the show of strength developed by the government in the council of the empire, "upper house of parliament" evidently has had the effect of temporarily prolonging the life of Goremykin's ministry and also has resulted in the postponement of the emperor's contemplated cruise in Finnish waters.

In accordance with the decision of peasant workmen congress at Helsinki, emissaries have been dispatched throughout Russia to instruct the peasant and proletarian organizations to continue their preparations for an armed uprising but to await the signal from St. Petersburg.

MRS. THAW AND WHITE

Were Friendly, His Electric Motor Being at Her Disposal.

Associated Press to The Evening Times. New York, July 6.—Mrs. Harry K. Thaw's daily visit to her husband in the Tombs prison was very brief today. She remained scarcely more than ten minutes in the prison and after leaving there went to the offices of her husband's attorneys. That Mrs. Thaw and Stanford White were on friendly terms up to last September is the assertion made in a signed statement given out today by John Burns who was employed by White as chauffeur. Burns says in his statement that on two occasions, once in February and again in September, 1905, the electric cab which he drove was placed at Mrs. Thaw's disposal by White. The first of these occasions was before her marriage, the second was five months after it. In each instance, according to the chauffeur, she was taken from a restaurant to her hotel and in neither case did White accompany her.

He testified yesterday that Host had not filed the report of the monthly receipts of his office as was provided by law and that he had never seen these reports. Today he testified that the latter part of his testimony was true and that he never had seen these reports, but that he had been informed by his filing clerk in his office that the report had been filed each month.

As the cossacks were forcing their way in, a terrific explosion blew the kiln to pieces. Eight cossacks were killed and five were wounded. It is not established whether the explosion was caused by the bomb makers inside or whether the kiln was exploded from a distance.

UNCLE SAM'S MEN BEAT "TOMMY ATKINS"

English Tailor Sent to Fit Our Soldiers Declares They Are Winners.

Associated Press to The Evening Times. Washington, July 6.—The military appearance of American soldiers was a surprise to George V. Winter, who came from London on invitation of the war department to design certain improvements in the uniforms of the service which should bring them in line with the acknowledged superior fit and make up of British uniforms. "The American soldier is the best build and bearing in the world," declared Winter on the eve of his departure for New York. "I thought Tommy Atkins was best in line so I am surprised at what I have seen here. While the American soldier is not so beefy as the Britisher he is 'smarter' and better set up. He is the best looking soldier in the world, superior to the fighting men of Germany, France or England. The only improvement in uniforms is to give him a better fit, giving the full effect to his fine qualities." The pattern submitted by Winter indicates numerous minor changes in the uniforms but no radical departure from the existing styles.

In Interesting Session at Glenwood Springs Today. Associated Press to The Evening Times. CAUSTIC

Arraignment of West Baden and French Lick Springs Hotel Companies by Attorney General Who Brands

CASINO SUITS AS MERE JOKES

Brought to Evade Present Actions at Law—Secrecy of Suits to Annual Leases of Casino Cited.

Associated Press to The Evening Times. Paoli, Ind., July 6.—Charles Miller, attorney general of Indiana, who is here personally conducting the litigation on behalf of the state against the French Lick springs and West Baden hotel companies, today took exception to something in the statement made yesterday by Thomas Taggart of the French Lick Springs hotel company. In that statement, Taggart had stated that the casinos were not a part of the hotel properties, but were under lease to third parties and that suits were pending to cancel these leases because the hotel companies had learned that gambling was being conducted at the casinos. Attorney General Miller said: "There are some peculiar features about these two pending suits to cancel leases. Why were they brought in justice of the peace court at 7 o'clock at night and tried with great secrecy and then as quickly appealed to the circuit court, where they have remained covered up and unknown. They were brought to meet exactly such a contingency as this and to be dragged out and used as a defense when needed. The leases were made March 19, the suits were brought April 11, the hearing was at night, a most unusual procedure, and the appeal from the finding of the local justice to the circuit court was made June 15, and all was so quietly done that few seemed to know that any such action had ever been instituted. "But the state is under obligations to the hotel companies for these official records because in their complaints the hotel companies set up the ownership to the property and base their position on the ground that people operating casinos have been using them for gambling purposes. Here we have the admission of gambling. In all other respects the suits for possession are jokes, as I characterized them in court yesterday."

HARD FIGHT FOR THE RESERVATION OPENING

How Hansbrough Finally Won it—Other Legislation Had Rocky Roads. (By E. C. Snyder.) Washington, July 6.—In the closing hours of congress many mistakes as to the proceedings are made in the press dispatches. Several misleading items of news concerning North Dakota legislation have appeared. A notable instance in this respect was the press report about the Devils Lake public building bill. The bill originally in the senate was for \$150,000 and it passed the senate for that amount. The house cut it down to \$125,000. When the bill came back to the senate the committee restored the original amount and it became a law. In other words, Devils Lake gets \$150,000 for a public building. The total appropriation for Grand Forks some years ago was \$165,000. The original amount for Fargo in 1890, was \$100,000, and this was increased four years ago by \$80,000 for an addition, making a total for public buildings for North Dakota of \$495,000, exclusive of the military post at Bismarck of \$300,000, the Indian school at Wapington of \$100,000, the Bismarck Indian school, of \$50,000, and about \$300,000 for weather bureau buildings—\$1,000,000 all told. The drainage bill passed successfully all the gauntlets—and they were numerous—reaching the house calendar, where it now reposes. Speaker Cannon could not be persuaded to give it consideration. The Fort Rice bill, throwing the reservation out to homestead settlement and relieving those who had not

MOTION IS OVERRULED.

For Verdict of Not Guilty in Rebate Cases by Judge Landis. Associated Press to The Evening Times. Chicago, July 6.—At the opening today of the trial of Chicago and Alton road and two former officers of the company on the charge of rebating, Judge Landis announced that he would overrule the motion of the defense that the jury be instructed to return a verdict of not guilty on eight out of ten of the counts in the indictment. Judge Landis held, however, that the ninth and tenth counts in the indictment were defective, and that no conviction could be had under them. These two counts charged the defendants with rebating because they had refunded passenger fares to employes and of the Schwartzchild and Sulzberger company. The court then declared that the defendants had evidently been guilty of rebating and directed the jury to retire and find a verdict, giving instructions, however, that a verdict of not guilty should be returned as to the two last counts.
