CONVENTION

The City of Jamestown Making Great Preparations to Entertain the Republican Delegates.

LEADERS BEGIN ARRIVING TODAY

Besides the 467 Delegates Hundreds of Visitors Will Attend the Convention.

(By F. T. Lincoln.) Jamestown, July 9.—Every detail seems perfected for the entertainment of the delegates and visitors who will be here to attend the republican state convention on Thursday, July 12.

On hotel accommodations: Otto Bauer, Chester Hodge and Andrew Blewett. On convention hall: John Knauft, Chas. Rathman and R. L. Scott.

Soliciting and finance: A. B. DeNault, A. E. Simmons, and J. W. Sifton. Re-

pleasent the visit of delegates and their friends. The deputies are apportioned according to the representation of the counties. Ward county alone manifesting its intention of sending forty, which, together with the delegation from that county, numbering thirty-four, will give them a large representation at the convention both in the business and the visitors' list.

The convention will be called to order promptly at 11 o'clock on the forenoon of Thursday, July 12, and the opera house will be filled to its capacity seems a foregone conclusion. An

orchestra has been secured and will enliven the convention during intervals, while it is expected that the Fargo band, which is to accompany the delegation from Cass county and the Young Men's Republican club of that city, will also assist in the musical features of the day. The sargeant-at-arms has had word from Chairman Hanna to the effect that the Cass county delegation and the Young Men's Republican club of Fargo are to come in special coaches and that Fargo will make the day quite an event, in fact a holiday, the attendance from there is certain to be large. It is understood that the Ward county delegation, deputies and others will also come in special coaches.

The committees have not overlooked the entertainment of the visitors. On Wednesday a matinee of races has been arranged, at which several of the speedy horses of the western section of the state will be entered. This will afford a pleasing diversion, and a visit to the state asylum has been arranged for, several automobiles and busses having been engaged for the accommodation of the visitors and special arrangements having been made by Dr. D. S. Moore, superintendent of the asylum, to give everyone so desiring an opportunity of visiting one of our prominent state institutions.

There will be ample accommodations for all who attend the convention and entertainment: F. A. Lenz, J. H. Severn and Morris Beck. Decorations: Wm. Hall, H. C. Flint and Geo. Richmond.

Appreciating the fact that this is to be one of, if not the most important state conventions ever held in North Dakota, the several committees have worked unceasingly and the hearty co-operation of the citizens here themselves has insured the very best accommodations and cordial hospitality for those who will attend.

Sargeant-at-arms Sinclair has decided upon the following arrangement for seating the delegations, speakers, newspaper representatives and visitors. The first floor of the opera house where the convention is to be held, will be reserved for the delegates, and it is thought that it will accommodate all with the possibility of one delegation, which, if necessary, will be given a place on the stage proper. The stage itself will be reserved for the speakers, the press and the members of the state central committee. The visitors will be given seats in the galleries and balcony and admission will be in this instance by card, as it is expected that there will be a very large attendance and in this, again,

tion, according to those having in charge the arrangements. A canvass of the homes where lodgings can be secured will be made today and the city is prepared to accommodate at least 1,200 delegates and visitors. Many prominent republicans have engaged quarters at the hotels and they will be filled to their capacity. Harrington hall has been engaged and fitted with comfortable beds and there seems to be no lack of facilities for making everyone comfortable. The ladies of the Episcopal and Congregational church have arranged to serve lunch during the day at convenient places.

Just where the insurgents will secure a spokesman to represent them in the convention is a query. Mr. Spalding, Murphy, Divran and Winship are out of it, neither of these gentlemen being entitled to a representation in the convention and by nature of the laws governing vacancies, none of them will be able to come as a proxy, the law stipulating that such vacancy shall be filled by the delegation itself and outside of Grand Forks county, the delegations are overwhelmingly stalwart in the counties these leaders of the insurgents movement reside. It is thought that Grand Forks county will furnish the spokesman for the insurgents, however.

In discussing the convention itself and the business to come before it, the writer is convinced that there is every determination of making it a cleanly conducted business like assembly of the republican delegates of North Dakota. As a prominent republican put

GETTING READY TO DEPART FOR JAMESTOWN

THE ENGLISHMEN WILL NOT GIVE UP PLANS

Of Their Big Fighting Ship to the United States Naval Officers.

Associated Press to The Evening Times. Washington, July 9.—The construction officers of the navy will not be aided in preparing plans for the monster 20,000 ton battleship by the plans of the English ship Dreadnaught. So far the British admiralty have been absolutely successful in preventing any part of the designs or plans of the largest fighting machine of their navy from falling into the hands of other nations. Such information as the United States navy possesses of the Dreadnaught is of no service in designing the new ship provided in the last naval appropriation act. The fact that the plans of the Dreadnaught are so closely guarded is given as the reason why the plans of the big ship for the United States should not be made public as will be the case when the terms of the act are complied with, as it expressly says that the plans and specifications must be submitted to congress before the contracts for the new ship are made.

MARSHALL FIELD'S STORE CLOSED FOR THREE HOURS

The Building Inspector Refuses to Allow Customers to Enter the Building.

Associated Press to The Evening Times. Chicago, July 9.—The retail dry goods store of Marshall Field & Co. was closed to the public today by Building Commissioner Bartz because the management of the store had not complied with certain regulations to which its attention had been called by the commissioner. For several days the management and the commissioner have been in correspondence regarding the placing of red lights in the store for the purpose of marking the exits and the stairways. This morning when the commissioner became aware that the work had not been done over Sunday, he caused the police officers to be stationed at all the doors of the place, and allowed nobody but the employees to enter. Manager Simmons, as soon as he was aware that all the customers were being held back at the entrances, hastened to the building commissioner, by whom he was informed that he "ought to be in jail." "I have repeatedly called attention to this matter," said the commissioner, "and you are not man enough to protect the lives of your patrons, you ought to be in jail." Simmons then called on the mayor and after the store had been closed for three hours it was allowed to re-open on the promise of the management to make the changes ordered by the building commissioner.

WARD CO. WANTS TWO OF STATE OFFICES

In Addition to Two State Institutions and She Should Get Them.

Special to The Evening Times. Minot, N. D., July 9.—In addition to the delegates elected nearly all of Minot will leave tomorrow for Jamestown. Ward county wants several things. In addition to the candidacy of Blaisdell for the office of lieutenant governor an effort will be made to also place Charley Grow on the state ticket as railroad commissioner. Ward county, owing to its population and big republican majorities, is entitled to at least these two minor offices. The county also wants a normal school and an agricultural experiment station, a branch of the agricultural college at Fargo. The big delegation from Minot will act as boosters. They want leading republicans to know their wants of Ward county, and want their assistance in pushing through the next legislature a measure that will give them the two institutions needed so badly.

THE PEOPLE WANT TO SEE A JAMIESON

WHO WOULD TAKE THIS BUNDLE TO JAMIESON

JAMIESON DEMONSTRATES HER INTENTION TO KEEP GOOD HER REPUTATION FOR HOSPITALITY IN GIVING OUT-OF-TOWN VISITORS PREFERENCE FIRST IN THE VISITORS' GALLERY.

CLOUDBURST IN OHIO DOES DAMAGE TO A CITY

Over Two Hundred Houses Flooded and Streets Filled With Debris.

Associated Press to The Evening Times. Wellsville, O., July 9.—A cloudburst in the country just back of this city yesterday caused a loss of thousands of dollars. Over two hundred homes and business houses were flooded and foundations weakened so that people would not remain in their houses last night. Mayor Pogo called a special meeting of the city council to provide funds for the cleaning of the city. He put men at work taking tons of debris from the mouth of several storm sewers. It was impossible for people to leave their homes, so quickly did the water rise into the lowlands. Wagons and small frame buildings were washed into the city proper from the country district.

FINED \$10 BY A COUNTRY SQUIRE

Oyster Bay, July 9.—J. B. Sloan, Jr., chief of the president's secret service corps, pleaded guilty and was fined \$10 today on a charge of assault in the third degree preferred by Clarence Le Gendre, a New York photographer. Sloan paid the fine. The trouble occurred at the time of the president's arrival in Oyster Bay a week ago. The photographer charged that after he had taken a picture of the president Sloan struck him. The trial was held in a justice court, presided over by Squire Franklin.

SWITCH ENGINE RUNS WILD IN THE CITY OF MEMPHIS

After Colliding With a Passenger Train the Engine Dashes Through the City.

Associated Press to The Evening Times. Memphis, Tenn., July 9.—After colliding with a Southern railroad passenger train at Orleans street today, a Southern railroad switch engine with two cars attached dashed wildly without the crew three-quarters of a mile to the union depot at Calhoun street, where it crashed into two mail cars. Eight men were slightly injured and one seriously. When the switch engine collided with the passenger train, Engineer Williams was thrown heavily against the boiler. He and his fireman then jumped, the engineer sustaining serious injuries. The switch engine, with no guiding hand dashed forward at an increased speed. The locomotive crossed eleven streets before arriving at the depot and the presence of mind of a yardman prevented the engine from dashing into the depot proper. The yardman threw the switch and the "wild" engine collided with two mail cars on the siding. All of the injured, except Williams, will speedily recover.

THE WEATHER. North Dakota. Fair tonight and Tuesday.

I WON'T BE WITH YOU FOR TWO OR THREE DAYS.

THE LATEST FAD IN FOREIGN DUELS

Special to The Evening Times. Berlin, July 9.—Two German editors had been flinging insults at one another for more than a year. One of them driven to extreme measures, at last wrote to the other: "Sir: I need not send my seconds to a scoundrel like you. Consider yourself soundly boxed on the ears and on your right and left cheek. You can be thankful that I have not used my stick to chastise you." The other replied: "Incomparable Enemy: I thank you that you have boxed my ears (on paper) and have decided not to use your stick (in reality). In self-defense I shoot you in the head with six revolver bullets (also on paper). When you receive these lines consider yourself a dead man. I greet your carcass."

VALLEY CITY NORMAL

Summer School Well Under Way—Notes of the Faculty and Scholars.

Valley City, July 9.—Summer school at the normal school is well under way. This year it is a combination of the country training schools of Trull, Nelson and Steele counties with the summer term of the state normal school. Students who do work are credited that much on the course of the normal school, and also receive credit that relieves them of taking examinations for teachers' certificates in the subjects studied. The following faculty is doing the teaching: Joseph Carhart, conductor; Clyde R. Travis, Edith B. Carhart, Jesse Childs, M. J. Abbey, R. G. Patterson, Edith Long, Mrs. Helen H. Porter, Supt. J. F. Hetler, Supt. T. A. Hasselquist, Miss L. K. Allen, Geo. K. Foster. Superintendent Hetler is not conducting his boarding house for students as he has done previous summers. The added dormitory room in the new building makes it unnecessary. Mrs. K. McBride is preceptress of the dormitory.

Miss Watson is holding down her claim near Devils Lake and also expects to give instruction in primary method at the county summer school near that place. Professor and Mrs. Childs are enjoying a visit from Mrs. H. P. Salter of Fargo. Childs entertained about thirty ladies in her honor today. Superintendent Osgard of Nelson county is unable to be with the school this summer.

WOOD ALCOHOL TRADE HURT

Demand Slackens on Account of Legislation, Says Farrell.

Associated Press to The Evening Times. Ishpeming, Mich., July 9.—Northern Michigan manufacturers of wood alcohol already are feeling the effects of the free alcohol legislation. As far as can be ascertained, no agreement has been concluded to limit production, as reported, but of their own volition the chemical plants are curtailing output. Although the so-called free alcohol enactment does not take effect until the first of next year, its adverse effects even now are being felt by the wood alcohol industry," said Austin Farrell, a superintendent of the furnace department of a big company. "These facts are evident for one thing in a slackening of demand." "Consumers are looking forward to the day when free denatured alcohol will be on the market, and they are buying sparingly of wood alcohol until the conditions under the forthcoming new order of things. We are like the consumers, we manufacturers of wood alcohol, and are waiting to see which way the cat will jump. We are unable to force a certain sort of market we will have for our wood alcohol after a few months, and naturally we are selling close to the wind."

CRIMINAL IS INSANE

Rhode Island Authorities Find Themselves in a Peculiar Position.

Associated Press to The Evening Times. Providence, R. I., July 9.—Although he has been pardoned by Governor Utter, officially discharged from the state prison and started on his way to Italy, Pedro Jaswell, convicted murderer is once more behind the prison bars here today and the state prison authorities are in a quandary as to final disposition of the man. When Jaswell was released last Saturday it was intended that he would be shipped to Italy on board the White Star liner, Roman, but upon his arrival in Boston the prisoner refused to go on board the steamer until he was carried bodily to the deck of the steamer by the prison guards assisted by several policemen, fifteen minutes before sailing time. The ship's surgeon interfered and declared that the man could not sail because he was insane. The captain of the steamer supported the surgeon and the prisoner and his guards were put ashore. They returned to Providence and Jaswell was locked up in the prison from which he had been released. The prison warden says he is without authority to hold the man but he does not know what to do with him. Governor Utter having pardoned him with the understanding that he would be sent to Italy and placed in a hospital for criminally insane.

KING TO VISIT NEWCASTLE

Associated Press Cable to The Evening Times. London, July 9.—Arrangements have been made for the departure tomorrow of the king and queen and princess Victoria on a visit to the duke and duchess of Northumberland at Alnwick Castle. The following day they are to go to Newcastle, where King Edward will open the Armstrong college and unveil a statue of Queen Victoria. A dispatch from Newcastle says the city is donning gala attire in anticipation of the royal visit. It will be the first time Newcastle has had a visit from a reigning sovereign since 1850, when Queen Victoria opened the Central railway station.

REVOLUTION

A Great Many Disturbances Occur in Russia Sunday Which Result in Injuries to the Revolutionary Mobs.

LANDLORDS FORCED FROM THEIR ESTATES

And Are Fleeing to the Cities for Protection—Government in Bad Shape.

Associated Press Cable to The Evening Times.

St. Petersburg, July 9.—Political demonstrations, during which the crowds carried red flags and sang revolutionary songs, occurred in many places in St. Petersburg yesterday afternoon and night, necessitating interference of the police and military patrols. Street cars were held up and their occupants were compelled to uncover and salute red flags. The most serious affair happened near the Moscow railroad station where an officer, later identified as Lieutenant Tom, made a revolutionary speech to a crowd of 2,000 people. A detachment of police attempted to disperse the assemblage but the people armed themselves with stones dug up from the streets and beat off the police and a squadron of Cossacks. Eventually the Cossacks were reinforced and fired a blank volley whereupon the rioters fled to the neighboring courts. Only a few persons were slightly injured. Lieutenant Tom was arrested and taken to a fortress. The meeting which was addressed by orators from a window of the constitutional democratic club was dispersed by mounted Gendarmes, during which several persons were wounded with sabres and the performance in the "peoples' palace" was broken up, the audience singing the "Marseillaise" as they dispersed. Guards on the mall are now armed with rifles, owing to the increasing number of attacks made upon these vehicles. Six more newspapers of this city have been confiscated. Landlords in the provinces where the agrarian disorders are occurring, are flocking into Moscow and St. Petersburg, appealing for troops to protect their property, without which they declare it is impossible for them to live on their estates. Some of the papers regard General Treppoff's pronouncement in favor of a ministry composed of constitutional democrats as a sham, a death bed repentance designed to give the emperor and court a breathing spell, while others consider it a confirmation of the report that Treppoff has fallen from favor and is trimming his sails to the prevailing breeze. The holy synod has issued strict instructions forbidding printing establishments of the monarch from publishing political tracts or in any way taking sides in the present struggle.

AFTER SALOONKEEPERS

Governor Folk Says Saloons Must Be Closed on Sunday.

Associated Press to The Evening Times. Jefferson City, Mo., July 9.—Governor Folk today issued instructions to the St. Joseph (Missouri) police commissioners to arrest all saloonkeepers of St. Joseph who keep open next Sunday, and if, after the third arrest, they refuse to close up, to take charge of all their stock and place it in a safe place for evidence against them. The governor declares that the state law must be enforced and the police cannot do it they must give place to others who can. There is an intimation that he will send the state militia. DESETER ARRESTED. Bismarck, N. D., July 9.—While hunting Oscar Faulk yesterday Chief McDonald accidentally discovered a deserter from Fort Lincoln, named Dougherty, in one of the saloons. Dougherty made his getaway from the post about three months ago and is said to have been in hiding about the city since that time. On the way to the jail he tried to make his escape when the chief knuckled him down with a club after which he acknowledged his identity and informed the officer that while he might get a couple of years in the army jail, he would come back and finish the career of McDonald.

WANTS SMALL CHANGE

Secretary Shaw Requests National Banks to Issue Small Bills.

Associated Press to The Evening Times. Washington, July 9.—Secretary Shaw has issued an appeal to the national banks to assist the government in supplying the pressing demand for notes of small denominations. He has sent to all national banks a letter requesting them to issue as much as possible of the aggregate of their circulating notes in five dollar bills, indicating that there is more profit in the issuance of such notes than in putting out notes of larger denominations.

BODY CUT TO PIECES

A Youth Abducted by a Tramp is Cruelly Murdered.

Associated Press to The Evening Times. Francis, I. T., July 9.—The mutilated body of eight-year-old Harry Pricester, of West Tulsa, was found in a St. Louis and San Francisco wheat car Sunday night. The boy had been abducted by a tramp last Thursday from his home and is supposed to have been murdered and his body placed in a car to hide the crime. The body was literally cut to pieces. There is no clue to the murder.
