

HORRIBLE CRIME JUST REVEALED

Syrians Outrage a Woman and Then They Cut Out Her Tongue

Hankinson, N. D., May 31.—Trainmen running between here and Bismarck tell of a frightful occurrence near an inland settlement between Wehsk and Lehr last Friday. Four Syrians waylaid a young lady school teacher at a lonely spot, assaulted and outraged her, after which they cut her tongue out. The young woman died of her injuries.

GOT COLLEGE

Eureka Landed the Lutheran Educational Institution.
Eureka, N. D., May 31.—Eureka was successful in her contest before the Lutheran synod meeting to secure the location of the fine new college which that denomination will build. The vote on the location was had last Friday at which time fifty-nine delegates voted for Eureka and eighteen for Parkton; several delegates were excused from voting. The decisive vote for Eureka is certainly very gratifying to all our people as at different times during the past year many other places of larger population, and consequently more wealth, were ardent candidates for the college and backed their claims with very liberal offers but the best judgment of the delegates was largely the majority to locate the college in a central part of the synod district where it would be of easy access to all the people of the district rather than to accept the liberal offers made by other aspirants.

The generous offer of Emil Dierenfeld to donate four blocks of ground free of charge for a building site from his thirty-seven acre tract of land east of the railroad was accepted and the buildings will be located almost directly east of the depot. While the details have not yet been fully decided upon the college building proper will be about 80x120 feet in size. It will be constructed of brick and will cost, exclusive of heating and plumbing, \$20,000. In addition several residences will later be erected to be occupied by the instructors, and probably some dormitories for the convenience of the pupils. The work of raising the funds for the college building will be actively prosecuted and it is expected construction work will be commenced in the late summer and the college ready for occupancy next spring. It would hardly be fitting to conclude mention of the securing of this fine new institution for Eureka without giving credit where credit is due. Eureka people naturally feel very kindly toward the fifty-nine delegates that voted to locate the college here, but they also know that but for the work and influence of Rev. H. Reinhardt their efforts would have been in vain. He is the one man who made it possible to secure the college. Years ago he conceived the idea that the time would come when a college for Eureka would be possible and he has worked incessantly with that end in view. The successful termination of his desire and ambition is exceedingly gratifying to him and is a personal victory that few men would be able to accomplish.

Valley City, N. D., May 31.—A distressing and probably fatal accident occurred at the home of President G. A. McFarland of the state normal school. Mr. McFarland's little 6-year-old daughter, Pauline, came in contact with the wires, which set her clothing on fire, and before the flames were extinguished her clothing was burned from her body and her body burned from her throat to her limbs, so that the skin and flesh sloughed off. HOME CURE FOR ECZEMA.

Oil of Wintergreen, Thymol, Glycerine, etc. Used as a Simple Wash. It really seems strange that so many people suffer year in and year out with eczema, when it is now no longer a secret that oil of wintergreen mixed with thymol, glycerine, etc., makes a wash that is bound to cure.

Old, obstinate cases, it is true, cannot be cured in a few days, but there is absolutely no sufferer from eczema who ever used this simple wash and did not find immediately that wonderful soothing, calm, cool sensation that comes when the itch is taken away. Instantly upon applying a few drops of the wash the remedy takes effect, the itch is allayed. There is no need of experiment—the patient knows at once.

Instead of trying to compound the oil of wintergreen, thymol, glycerine, etc., in the right proportions ourselves we are using a prescription which is universally found the most effective. It is known as the D. D. D. Prescription, or Oil of Wintergreen Compound. It is made by the D. D. D. Co. of Chicago, and our long experience with this remedy has given us great confidence in its merits. Sold by Schlaberg & Griffin.

Pure grains, malt and nuts give Health Coffee its exquisite taste and flavor. No twenty to thirty minutes tedious boiling. "Made in a minute." Try it from your grocer and get a pleasant surprise, 1 1/2 lb. package 25c. Geo. H. Wilder.

If your stomach, heart or kidneys are weak, try at least, a few doses only of Dr. Shoop's Restorative. In five or ten days only, the result will surprise you. A few cents will cover the cost. And here is why help comes so quickly. Dr. Shoop doesn't drug the stomach, nor stimulate the heart or kidneys. Dr. Shoop's Restorative goes directly to the weak and failing nerves. Each organ has its own controlling nerve. When these nerves fail, the depending organs must of necessity failer. This plain, yet vital truth, clearly tells why Dr. Shoop's Restorative is so universally successful. Its success is leading druggists everywhere to give it universal preference. A test will surely tell. Sold by Schlaberg & Griffin.

CROUP

THERE IS NOTHING that strikes terror to the hearts of parents more than to be awakened in the night by the ringing cough which accompanies an attack of croup. The child may retire with nothing but a slight cold and a few hours later the family be aroused by the ominous symptoms. Every home where there are small children should be prepared for these sudden attacks, as prompt treatment is necessary. Do not experiment with remedies of doubtful value, but get

CHAMBERLAIN'S COUGH REMEDY

that has been in use for nearly forty years and never known to fail.

Mr. Homer Krohn, of Lisbon, Iowa, in a letter to the manufacturers of Chamberlain's Cough Remedy praises this medicine for what it has done for his children. He says: "It has not only saved them once but many a time. Only two weeks ago my boy had the croup so bad in the night that had it not been for having a bottle of Chamberlain's Cough Remedy in the house he would have choked before a doctor could have gotten to the house. It is a medicine that no one should be without at any time." It is pleasant to take and many children like it.

"We guarantee every bottle of Chamberlain's Cough Remedy," says W. M. Parish, Palmerston, Ontario. "Out of the many bottles sold last winter not one was returned. We recommend it especially for children with croup." Chamberlain's Cough Remedy is famous for its prompt cures of coughs, colds and croup. When given as soon as the child becomes hoarse an attack of croup may be averted. This medicine is entirely free from narcotics or injurious substances of any kind and may be given to the little ones with absolute safety.

Attacks of croup are most likely to occur during the early winter months, and every family with young children should be prepared for it. Keep a bottle of CHAMBERLAIN'S COUGH REMEDY in your home. It only costs a quarter, large size 50 cents. Your druggist sells it.

People Are Saying

That the city has purchased the park sites too near the center of town; that it is only a short time until the city will grow out beyond them and then more parks further out will be necessary.

We are pleased to note that a few other people besides ourselves, see and believe that Grand Forks is growing westward. That being the case you will readily agree that it is a good investment to buy vacant lots in the pathway of a growing city. At present, you can purchase lots on easy terms that a little later on you will have to pay a higher price for with practically no terms. Take a walk out that way and look over the situation yourself—then you'll be convinced much easier.
