A Million Minds

Have pondered in admiring appreciation over these words of Destin inscribed three hundred years ago by the great philosopher-poet, who wrote:

"There is a tide in the affairs of men  
Which, taken at flood, leads on to fortune;  
Neglected, all the voyage of their lives  
Is bound in shallows and in misery."

Nowadays, however, it generally holds true that one needs some ready cash if he would take advantage of these opportunities. They come like a glow in the night sky, as unexpected as radiant.

Are you ready to grasp YOUR opportunity when it presents itself?

Or have you faith to believe that it will wait around patiently until you have had time to skimp and borrow and save the necessary dollars?

Better plan ahead a little and begin NOW by starting a Savings Account. There is nothing like being READY to better your position when the chance is offered.

We allow Four Per Cent. Money deposited can be withdrawn at any time. You can start with any amount. Interest allowed for each calendar month the money remains with us. Money deposited on or before Oct. 1st, will be entitled to interest from that date.
