Lacking in Interest.—Now that Professor George A. Reiner of the Semitic museum at Harvard has discovered the pool of Samaria, unearthed the palace of Ahab and brought to light more than 5,000 ancient household utensils, which incidentally prove that Jezabel, who persecuted the prophets and priests of Jehovah, ran a kitchen of which any modern woman might well be proud, the item lacks interest, for nothing has been found to indicate what Jezabel wore when she fell out of the window.

They are playing great ball down east. A few days ago Chicago and Detroit played a 17-inning game which resulted in a victory for Chicago of 5 to 6. Works who pitched for Chicago went through the whole seventeen innings and for thirteen innings there was not a score. Over at Worcester Pitcher Keating pitched a no-hit, no-run game, winning for his team (Lawrence) by a score of 1 to 0. That's some ball.

Easy.—Because her husband called her a cold potato and told her to return alone to Cincinnati from New York, where they were then stopping, Mrs. Annie W. Mithoefer has been granted a divorce by Judge Swing. She is a member of one of Kentucky's blue-blooded families. Mrs. Mithoefer testified that he had refused her overtures for affection, had thrown a piece of bread and struck her. Poor girl.

A wealthy iron manufacturer of New York and his wife have gone to Europe on a hurry-up trip in hopes that they may head off their only son, a young man of 20 years, who, it is claimed, skipped with an actress. Very foolish people. He'll come back when she gets tired of him.

Ladies—A Tip.—The new novelty parasol called the "dome" or the "barrel" is rapidly gaining favor in the east, hence if you hear your neighbor say she is going to have a "dome" or is going to buy a "barrel," you will know what is meant.

The Spiritwood Bugle is the latest appendix to the Courtenay Gazette, and will chronicle the events of the day at the famous resort, Spiritwood.

Where is the Patriotism of the Nation?—It is pathetic to note that the Department of the Potomac, Grand Army of the Republic, makes an urgent appeal to the patriotic citizens of Washington for contributions to help defray the expense of decorating the 50,000 or more graves of soldiers and sailors of the civil war and Spanish-American war, whose remains are interred in the Arlington national and other cemeteries in the District of Columbia, on Memorial day, May 30. Heretofore the department has depended almost entirely upon the contributions of its own members, those of other patriotic organizations, the officials of the general and of the municipal governments to carry out properly this sacred and important work, but as the receipts from these sources for the past three years have decreased largely, it has become necessary to appeal to the citizens generally, especially in view of the fact that the number of graves has increased greatly each year, to help the department with contributions so that proper honor may be shown to the men who freely gave their services and their lives to preserve the union. Doesn't it seem, inasmuch as Arlington is a national cemetery, that this great, wealthy, extravagant nation could not afford a few flowers for its honored dead? We can't understand why the members of congress, ever anxious to make a hit, have so long overlooked this opportunity to pay respect to the country's noble sons. To the national treasury ten or twenty thousand dollars would not be felt as ten or twenty cents would be the average individual. Then why not have the flowers?

In Old Peru.—The presidential election in Peru must have been quite a long drawn-out affair, as it commenced last Saturday morning and lasted till last night, that is, they voted all Saturday, Sunday, Monday and Tuesday. Police regulations had to be very strict. Saloons were closed at noon, and not more than five people were allowed to congregate in one crowd. What a business our candidates would do if they were allowed to hold a four days' election!

Would Show Judge.—She was taken from her house at night by several men and stuck into a barrel of tar, and all because some "old kossip" had been talking about her. She claimed the tar stuck to her in places and offered to show the judge. Had this happened any place but in Ocean City, Maryland, the judge would have undoubtedly told her to introduce her evidence.

A Job for Burbank.—The invention of a banana peel to hold a skirt.

COLONIAL Drapery Fabrics
GOOD TASTE WITH ECONOMY

Every home should have hangings and furnishings which distinguish it from every other home and bespeak the taste and education of the family. No two individuals are the same—no two families have the same tastes and characteristics.

In the past, this has been partly due to lack of artistic feeling, knowledge of color and design, to a failure to realize that daily surroundings have a proper educational value; but in a greater degree to a lack of inexpensive materials wide enough in color range, tints and patterns to express aright the individual self.

COLONIAL DRAPERY FABRICS enable every home-maker to express personal taste and bestow upon every room the distinction of its occupants, making it more suitable and beautiful for daily living.

An inspection of our displays will reveal many ways and places in which **COLONIAL DRAPERY FABRICS** may be used in giving an artistic, comfortable atmosphere to the home.

COLONIAL DRAPERY FABRICS are being featured in extensive special displays this month.

Council Will Meet.
Next Monday evening the Grand Forks city council will meet in regular session. While the schedule of business to be taken up is not yet completed, it is believed that reports will be received from the board of health in regard to the incinerator proposition; and from the special committee to which was referred Mayor Murphy's suggestion concerning the organization of a state municipal league. The park board and the board of education will hold meetings next Tuesday.

An Unfortunate Specimen.
"Will you promise me, if I let you go, to come back here with \$5 to pay your fine with. If you will you can go home and take care of your family," was the way Judge Church passed sentence on one who had imbibed to excess last evening. The man paid it this afternoon. Judge Church stated that he knew the man, and that what he got from his wife when he got home, was more punishment for him than a sentence in jail.

Will Leave Earlier.
Owing to the fact that the first business session of the state Elks will be held at 11 o'clock on Tuesday morning, the departure of the special train to Fargo from Grand Forks, will be made at an earlier hour.

University Park Concert.
The Grand Forks Military band will probably give another of its excellent concerts at University park Sunday afternoon. The band goes to Fargo for two days next week to attend the Elks' state convention.

Safe and Sane Fourth.
The Women's Civic league will meet on Monday and at that time the plan to have a safe and sane Fourth of July for the members of the Junior league will be discussed. This will be the regular June meeting of the league.

For soreness of the muscles whether induced by violent exercise or injury, Chamberlain's Liniment is excellent. This liniment is also highly esteemed for the relief it affords in cases of rheumatism. Sold by all dealers.

Trees Trimmed.
Apparently realizing the fact that Grand Forks trees are so numerous that in many places they are crowding the sidewalks, the city planting department, a number of property owners have had their trees trimmed within the week.

Iowans Jubilant.
E. F. Bacon, father of Jerry Bacon, writes from his home in Iowa, that conditions are flourishing in his section of the state. The corn planting has been completed and the farmers are looking forward to an exceptionally good year.

Funeral Services Today.
Funeral services over the remains of the late Mrs. F. J. Anderson, who died at the local hospital yesterday morning, were held from the Methodist church at 2:30 o'clock, following short services at the home. Rev. F. M. McCoy officiated. All of the members of the family were present, a brother, James Hewitson, having arrived from Kevin, Mont., last evening.

Sick headache results from a disordered condition of the stomach, and can be cured by the use of Chamberlain's Stomach and Liver Tablets. Try it. For sale by all dealers.

After Fifteen Years.
Rev. George S. Parker of Denver, Colo., is spending a few days in the city visiting with his mother, Mrs. W. C. Parker. This is the first visit Rev. Parker has made to his old home in fifteen years, and he expresses himself as being very much satisfied with the growth of this city in that time. He is on the way home from Minneapolis, where he has been in attendance at the Methodist conference.

Now is the time to get rid of your rheumatism. You will find Chamberlain's Liniment wonderfully effective. One application will convince you of its merits. Try it. For sale by all dealers.

Among the passengers sailing on the steamship Kaiser Wilhelm II of the North German line yesterday from New York for London, Paris and Bremen was Dr. J. G. Arneberg of Grand Forks.

Had Fine Rehearsal.
A good number were in attendance at the rehearsal of the Grand Forks Oratorio society chorus held last evening in the auditorium of the public library building. That the music festival will be a success as far as the singing of the chorus is concerned, is now an assured fact.

Organization Plans.
There will be a preliminary meeting of the Order of Owls at the Empire hall this evening at 8:30 o'clock. Every prospective member, or man interested in the order, is invited to be in attendance. Plans for the formal institution of the Grand Forks Owls will be formulated. It is expected that the organization will be perfected the first week in June.

Elders in Conference.
John L. Herrick, president of the western states mission of the church of Jesus Christ of Latter-day Saints will conduct a meeting at the G. A. R. hall in Grafton, Sunday night. On that day the president Herrick will hold a conference with the six Mormon missionaries now working in this state. The conference will also be held in Grafton. President Herrick makes his headquarters in Denver.

Rector Enjoyed the Game.
An interested spectator at the baseball game at Dacotah park last night was Rev. A. Edwin Clattenburg, rector of the Episcopal church at Devils Lake. Rev. Clattenburg is a royal fan. He believes that state league would be a good thing in this state as many of the Flickertail cities are this year supporting mighty good teams.

Banquet a Feature.
A feature of the state federation of labor meeting in Fargo, June 8 and 9, will be the banquet on the night of the second day, in honor of the visiting delegates from Minot, Devils Lake, Grand Forks and Bismarck and other points, when the hosts will be members of gate city unions. It is expected that about seventy-five delegates from about the state will attend. Considerable interest is being taken in the meeting among the labor organizations of Grand Forks.

WILL MAYOR O'LEARY VETO PATROL LIMITS ORDINANCE?—IS QUESTION

Council Passed Third Reading a Special Meeting Held Monday Night—With One Exception is the Same as Former Statute.

The question that is uppermost in the minds of the local business men and citizens, who are interested in civic affairs, is "Will Mayor O'Leary veto again the revised patrol limits ordinance?"

At a special meeting of the city council held on Monday night, which but a few were cognizant of, the city council passed the third and last reading of the new patrol limits ordinance, which with the exception of the John Vossler saloon on Minnesota point, is identical with the ordinance passed by that body last winter.

John Vossler has been granted a license for his saloon on the point about three weeks ago, but is the only one of the many excluded by the former ordinance who has been granted a license.

Under the new ordinance, the five saloons at the bridge, formerly operated by R. E. Hatch, Harm & Oschegar, Russell & Heinlein, Frank Longtine and Chas. Reid, are still under the ban. Licenses cannot be granted for those places, and they will remain empty unless restaurateurs are started, or collar button factories or other manufacturing concerns secure them.

Mayor O'Leary in vetoing the former ordinance passed last winter, stated as his belief, that it was a confiscation of property to create and put into effect such a city statute. His emphatic veto at that time, is looked upon as a criterion of his action on the present instrument. It is believed by a good majority of the citizens that his veto will be forthcoming when the ordinance is submitted to him for approval.

In case of Mayor O'Leary's veto of the new ordinance, the city council will have to have at least five votes to overcome it, in case they attempt to go over the head of the city's chief executive.

To Visit With Son.
Mrs. T. J. McAdam has gone to Owatonna, Minn., where she will spend a short time visiting with her son Earl.

Gone to St. Paul.
Agent Bert White of the Great Northern office in this city has gone to St. Paul on business matters. He will return the latter part of the week.

POLK COUNTY SETS RECORD FOR STATE

Elected Walter Quigley of this City as Presiding Officer of Convention.

Walter Quigley, aged 22 years, presided at the Polk county democratic convention held in Crookston today, and by his acting as presiding officer, a record for Polk county and Minnesota was set, in that he was the youngest presiding officer in the history of the state.

At the Polk county convention held today, seventeen delegates to the state convention were named, and instructed to vote for Woodrow Wilson.

A hot fight was carried on for a time by some of the delegates, who wanted the state delegates sent to the convention instructed, but after a red hot address by Presiding Officer Walter Quigley for Wilson, and the Wilson support furthered by argument introduced by Attorney Martin O'Brien, the delegates were instructed for Wilson.

Preparations have practically been completed for the annual Junior-Senior banquet, which will be given in the domestic science quarters of the Central school building tomorrow night. The Juniors have made elaborate preparations for the affair, and they will have as their guests of honor the seven members of the graduating class and the high school faculty.

Frank Mayer, a member of the Junior class, will officiate as toastmaster, and the following program of toasts will be given:

- "The Seniors"—Ole Halvorson.
- "The Second Half"—Clarence Lukason.
- "The Toboggan Slide"—H. A. Johnson.
- "After School Hours"—J. T. Johnson.
- "My Teacher"—Anne Kaufmann.
- "The Evening Before Commencement"—Everett Capes.
- "Eighth Graders to Banquet."

Tonight the members of the eighth grade class, who will next year make up the high school freshmen class, will have their final entertainment of the year. The class will first meet in one of the grade rooms, where the following program will be given:

- Chorus—"Hall O' Hall to Minnesota."
- Local Duet—Bertine Johnson and Katherine Enright.
- Recitation—Miss Lela Ingraham.
- Recitation—Edna Thompson.
- Vocal Duet—Edna Capes and Valerie Sherlock.
- Piano Duet—Ruby Erickson and Irene Snyder.
- Recitation—Genevieve Olson.
- Chorus—"Now Good Night!"—The eighth grade chorus.

Following this, the students will adjourn to the domestic science room, where a buffet luncheon will be served. The eighth grade class this year is the largest that has ever finished that part of the school work, there being nearly twice as many as in former years. The students will be given their certificates of promotion at the commencement exercises Friday night.

DYNAMITE USED IN EXPERIMENTS AT CROOKSTON

Two Acres of Soil Loosened by Strange Method for Seeding Grain.

E. R. Angst of Minneapolis, representative of the Dupont Powder company, has just completed an experimental job on the northwestern experiment station at Crookston, under the joint supervision of a number of the faculty of the Crookston school of agriculture, in which C. G. Selvig of the farm and school is very much interested, and which will be watched with a great deal of interest by the farmers.

Two acres of land have been dynamited and will be seeded to flax, side by side with a field of flax which will be seeded after ordinary plowing.

The theory is that by dynamiting a very amount of plant food will be made available, and that the roots of grain, flax or anything else planted will draw from a depth heretofore impossible because of practically impervious strata.

Charges of dynamite are placed in holes three feet deep, at intervals of one foot each way, and touched off with fuses in the ordinary way, certain sections at a time. While there is but an area of only three feet in diameter of dirt thrown up directly over charge, the explosion cracks and loosens all the dirt and breaks it up. The manufacturers of explosives wanted the government to experiment, but there were no funds available and the powder companies made a proposition that the explosives would be furnished free for experiments and tests, and the department of agriculture turned the matter over to the state department of agriculture, with the result of a series of experiments such as have been started here.

While the initial expense is now estimated at about \$15 per acre, this may be reduced, and it will take experiment to discover just how often dynamiting would be necessary, and could be profitably done. Mr. Angst believes the experiments will open up an immense field for the usefulness of this class of explosive and if but twenty-five per cent of the farmers used but a small amount, the entire output of all the big companies of the country could not supply the demand.

Rehearsal on Thursday.
Owing to conflicting entertainments, the choir of the Presbyterian church will not rehearse on Friday night, but on Thursday night.

It must be a great trial to town children to move to the county ward, they can't run to the neighbors' every five minutes.
