Frank Lemmer and Chas. St. Clair gave their many friends and acquaintances a pleasant hop in their new home last week Friday. The house was crowded to its utmost and all enjoyed themselves hugely. Card playing was also indulged in and at midnight a dainty luncheon was served. The affair will go down in history as one of the greatest social events of the season.

Thos. A. Edison, the electrician has invented an apparatus with which to photograph the human brain. It will come in handy to discern the views of politicians who refuse to commit themselves on questions of public importance. Already we can see rifts in the clouds and the new invention bids fair to be the beginning of the end of treachery in politics.

The "Bachelor's Home," on the corner of Fifth Avenue and Race St., has been duly opened to the public. Attorney General Haskell has issued a circular letter informing the assessors of the different counties in the state that they will be required to take up a list of all citizens subject to military duty when making their annual assessment rounds, this spring. There was nothing going on in our city Wednesday to indicate that on this day was ushered into the world one of the grandest men of the nineteenth century—Abraham Lincoln. The school teacher whose duty it is to instill into the hearts of the rising generation a reverence for the defenders of the nation scarcely dwelled on the subject. Not even "Old Glory" was flung to the breeze from the school house mast in honor of the great emancipator. This does not tally with the oft-repeated assertion that this is an age of civilization and education.

Scab has made its appearance among the sheep of Fergus and Choteau counties and it is feared that it will spread. The state veterinarian has been notified and in turn has quarantined all sheep in the immediate vicinity where the disease was discovered. The sheepmen of the Marias range have organized and appointed an inspector and will take all possible steps towards preventing its spread. It would be well for the sheepmen of Valley County to carefully inspect their stock and avert a possible epidemic. It is thought the disease was ported from Wyoming by a herd of bucks brought into Fergus county.

THE BANNER CROP STATE

Washington, Feb. 6th.—Iowa has wrested from Texas the title of banner crop state, the thirteen principle crops grown there last year being valued at \$351,450,000, according to the Agricultural Outlook, issued today. Illinois crops were worth \$319,656,000, while Texas comes third, with \$28,335,000. Decrease in the value of cotton was the cause of the smaller value of Texas crops.
