

Marx Made

Trouser Week

May 29TH to June 5TH

The Greatest Event of the Season for Men

On the above dates we will present the greatest exposition of Men's Trousers ever held in this city.

All the new weaves, new patterns and new models for the Spring and Summer of 1915 are here awaiting your inspection.

Truly the showing is, beyond any doubt, the finest we have ever presented for your consideration.

We want you to see this exhibit of men's high-grade Trousers—see our window display and then come in and look over the wonderful variety of patterns and fabrics. You won't regret it.

MARX MADE TROUSERS are the only Trousers made with the "Wunder Waist-Band" (patented Dec. 10, 1912.) This device is the greatest single innovation ever introduced in trouser construction. No more torn belt loops; no slipping of the belt; no unsightly bulges over the hip. These are some of the things that are eliminated by the "Wunder Waist-Band."

And What Is Just as Pleasing **THEY COST NO MORE**

The fact that every pair is **Marx Made** is sufficient guarantee of the best there is in workmanship and fashion.

The makers of **Marx Made clothes** enjoy an international reputation as one of the highest "Class Clothing" concerns.

Every single garment is carefully inspected before it leaves this factory and is sent to you backed by a double guarantee—ours and the makers'.

More Than a Million Men Wear **MARX MADE CLOTHES**

State Topics

Two new postoffices were established in Valley county, last week, one known as Thony with Jacob M. Thony as postmaster and the other Harb with John Hunter, postmaster.

The train bearing the famous old Liberty Bell, which will be transported next month from Philadelphia to the exposition at San Francisco, will stop in the following seven Montana cities: Glendive, Billings, Miles City, Livingston, Helena, Missoula and Butte.

The census bureau reports that Montana ranks sixth among the states in the matter of the highest per capita figure for wealth in the hands of individuals and commercial organizations, exclusive of the non-taxable property owned by governmental, educational, charitable and religious institutions. The figure for Montana is \$2,743.

Stockmen of Montana are up in arms over a proposal of the railroads to boost the charges for disinfecting stock cars, and stock pens in yards throughout the state, a work which has increased in volume since the

breaking out of the foot and mouth disease last fall. It is pointed out by stockmen that this will greatly increase their freight rates, and decrease their profits on shipments, not only within the state but to eastern markets. Protests have reached the office of the state railroad commission, with the result that that tribunal has held up the proposed increase in tariffs on intrastate shipments.

Valley county has complained to the railroad commission against the Great Northern for refusing to construct three grade crossings in the county. Notice was served on the defendant in accordance with the provisions of chapter 65, laws of 1913, and if it fails to act within 20 days the commission has summary power to do so.

Miss Marguerite Koch of Helena, was voted by the Helena Independent readers to be the most beautiful girl in Montana, and will be sent to California and the Universal city, along with the representatives from other states, on a special train. The judges selected six photographs of the girls from 281 that were submitted and the voting was upon these six.

From April 1 to May 5 of this year the postoffice department has established five rural delivery mail routes

in Montana, as follows: Glasgow, serving 73 families and 365 persons at a cost of \$672; Chester serving 90 families and 450 persons at cost of \$720; Manhattan serving 105 families and 526 persons at cost of \$840; Willsall serving 96 families and 480 persons at cost of \$720; Valier serving 75 families and 375 persons at cost of \$672.

According to advices from Havre, there is a renewal of the controversy over the site of the proposed court house for Hill county, a restraining order having been secured from the district court by citizens who are opposed to the third site selected by the county commissioners. Similar action was taken against the former selection of a site in another part of the town.

A new departure in the method of constructing county bridges is announced by the state highway commission, which is given authority to prepare plans and specifications for such structures. Any bridge that costs more than \$200 will be subject to the new regulations, and county commissioners cannot pay for the construction of bridges until the structures have been accepted by the commission.

The last of the series of state land sales in Chouteau county took place last week, the sale being conducted by Register Sidney Miller and Jos. Oker, deputy register. A number of tracts were sold, amounting to about 4,000 acres, the prices ranging for the most part from \$12.00 to \$16.50 per acre. One of the tracts was purchased by G. W. Morrow, of Geraldine, at \$23 per acre, this being the high price of the day.

Sheriff A. F. Klugman of Mineral county was instantly killed late last Friday, by the accidental discharge of his own revolver. The sheriff had been called from his room in Charette Hotel at Superior, to quiet a party of drunken miners. As he was dressing his gun fell from its holster to the floor and was discharged, the bullet passing through the sheriff's stomach and death immediately resulted.

Something of the enormous amount of produce actually taken from Montana soil or originating in Montana, is indicated in the commodity report of the Great Northern railroad for the month of April, which was tabulated in the office of the state railroad com-

mission. Exactly 4,237 cars of produce including miscellaneous shipments were sent over the lines of the Great Northern railroad during last month. No estimate of the value of this produce is kept by the state railroad commission, but the fact that much of it is ore and grain, the latter being as good as money now, indicates that the worth will mount up in the millions.

Ginger Snaps

American neutrality is in danger of being torpedoed.

See America on your vacation this year—it's worth seeing.

Early swimmers are doing a poor job of warming up the lake.

Do not criticize the weather. Give Still Bill a chance to improve it.

There is also the pneumatic radish. If it could be grown round it would make a fine golf ball.

No neutral nation intentionally wears a placard inscribed with the words "Please Kick Me."

There was the piling of Ossa Upon Pelion, and then there is adding a sail or a motor to a deadly canoe.

As a subject of national concern the question of Harry Thaw's place of abode has become almost entirely submerged.

Already it is apparent that the Democratic administration made a mistake in not protecting the Bull Moose from extinction.

Finger prints now being taken of monkeys may serve to link up light fingered gentry significantly with the Darwinian theory.

Japan has picked not only the psychological moment, but also the psychological country for the realization of her designs.

Mayor Mitchell of New York is hunting bear in Wyoming, having qualified for the sport by his successful hunting of the variety of tiger that infests his home town.

Fighting with disease germs having been added, the super-civilized nations should put in competitive bids for "Typhoid Mary."

It is suggested by the "F. H. C." that Booker Washington be made Governor of Hayti. We are willing, but how about Booker and Hayti

The report that England proposes to abolish whisky by taxing it is now being told as the latest joke in every mountain cabin in Kentucky.

A citizen who knows off hand all the different kinds of taxes he pays is something of an expert on Government as well as a mathematician.

While political dispute rages in New York, Tammany devotes itself to the contemplation of a removal to hand-somer and more commodious quarters.

The Liberty Bell is in such demand that we might adopt a European plan and provide duplicates. How many places contain the bones of Columbus?

Many Democrats are much readier to speak kindly of Justice Hughes now than under no conditions can he ever consent to be a candidate for the presidency.

The conspiracy to abuse Chautauquas has at last become complete. Now the ultra-innocent "Chautauqua salute" is denounced as filling the air with germs.

Japan, it is said, will finance a revolution in China by Dr. Sun Yat Sen and his followers. This brings up the old question. What and when is a patriot

"China is sick and Japan is the doctor," explains one of the Japanese statesmen. But in a civilized world a patient is presumed to have the right to choose his own physician.

Prof. Taft urges that the United States should adopt the budget system of spending money, thus introducing a little business efficiency. This is a good idea if it is not new.

Booth Tarkington is dropping into poetry thus proving again that the freedom and personal liberty which are the proud boasts of our best spellbinders are no iridescent dream.

ADVERTISED LETTERS

CAR OVERTURNS

Richard Towne, a prominent rancher of Malta, had a shoulder dislocated and one arm broken in an automobile accident at Malta Sunday afternoon. Mr. Towne, his wife and children and Mrs. George Hewett were crossing a wagon bridge when Towne, who was driving the car, had his attention distracted and ran the car off a forty foot embankment. The car was on top of the occupants when found by people in a car following. Mrs. Towne and Mrs. Hewett were badly bruised. Mr. Towne was taken to the hospital at Glasgow where he is rapidly recovering from his injuries.

Why it is a chicken will walk all over ground meat, corn, oats, tender grass and table scraps in order to fly over two fences, dodge six automobiles and walk a half block to scratch up a neighbor's lawn?
