

GLASGOW WINS FROM NASHUA

Locals Get Revenge for Defeat Early in Season.

TWO HOME RUNS FEATURED

Fischl Pitched Steady Game Against Spaulding, Herstrom and Bardill Star With Stick.

Glasgow evened up scores with Nashua in base ball, Sunday afternoon, by defeating them by a score of 7 to 4.

Early in the season, Nashua won a game from the local boys and Sunday matters were evened up again, each team having won a game.

The day was far from being an ideal one for a game, as a heavy wind was blowing from the west which made it difficult for the pitchers and fielders.

The game was fast, despite numerous errors on both sides and it fell to the pitchers to bear the brunt of the battle.

Nashua had secured the services of John Spaulding, the crack Hingham pitcher for Sunday's game and before the fracas several Nashuites made the mistake of betting some of the long green on their home team, which now reposes in the pockets of numerous Glasgowitzes.

Fischl started on the mound for Glasgow and for five innings he held the Nashua team without a run, allowing only two hits during that time. In the sixth inning Nashua got their first run when Spaulding hit one over the fielders' heads for a home run.

In the eighth inning Nashua got two more runs and Benson was put in to finish the game. In the ninth they annexed one more score, the game ending with the score standing 7 to 4 in favor of Glasgow.

In the fourth inning Glasgow started bombarding Spaulding. Movold, the first man up in this frame, biffed one for four sacks, his second hit of the game. Herstrom hit safely, but was caught at third on Chouinard's hit, Chouinard reaching first. Chouinard stole second and scored on Bardill's single to right. On Grace's hit to right, Bardill brought in the third run.

In the eighth inning, Glasgow scored two more runs. McCoy started the fireworks by singling, Movold couldn't get out of the way of one of Spaulding's fast ones and walked to first. With two on, Herstrom connected with one that looked good for a home run, but was held at third when Movold overstepped the bag and went back to touch it. Herstrom scored on Bardill's double to right field.

Two more scores were added in the ninth when Grace reached first on an error, Fischl fied out to right, Hurly was safe on an error and Grace and Hurly scored on McCoy's two bagger.

Both Spaulding and Fischl were in good form, Fischl striking out ten men in seven innings and holding them down with four hits. He pitched himself out of several holes when there were men on bases and it was largely due to his steady pitching that Nashua was held down. Spaulding struck out eleven men. The batting of Herstrom and Bardill also featured, Herstrom getting a three bagger and a single in five trips to the plate. Bardill got a two bagger and two (Continued on page 7.)

CONGRESSMEN COMING

Members of Appropriation Committee Will Visit Glasgow.

The Committee on Appropriations of the United States House of Representatives will visit the Milk River Valley July 12th and 13th. The purpose of their visit is for the inspection of the irrigable lands of the valley and the irrigation works completed and contemplated by the Reclamation Service. The committee is going to obtain first hand knowledge of the requirements of the valley upon which upon which to base future recommendations for appropriations to carry the irrigation project to completion. The tour is strictly a business proposition and is not to be a speech making event, for the program has been arranged to occupy every available moment while in the valley in a careful and thorough study of the needs of the country and how they may be best provided for. However, the Congressman desire to obtain a knowledge of the views and sentiments of the people and at Malta on the evening of the 12th and Glasgow on the 13th informal gatherings will be held at which matters of interest to the valley will be discussed with water users and business men.

The Congressmen who compose the committee are: John J. Fitzgerald of Brooklyn, N. Y.; Wm. P. Borland, Kansas City, Mo.; Joseph W. Byrns, Nashville, Tenn.; Chas. R. Davis, St. Peter, Minn.; Frederick H. Gillett, Springfield, Mass.; Jas. W. Good, Cedar Rapids, Ia.; Frank W. Mondell, New Castle, Wyo.; James McAndrews, Chicago, Ill.; George W. Ranch, Marion, Ind.; Swagar Sherley, Louisville, Ky. The committee will be accompanied by officials of the Reclamation Service, who will keep them informed regarding the features of the work under construction, and representatives of the water users will be with the party throughout the tour.

The committee will arrive at Chinook on the morning of July 12th. They will travel from Chinook by automobile inspecting irrigable lands and proposed dam site and canal location between Chinook and Coburg, and the Dodson dam and headworks. Stop for luncheon will be made at Dodson and in the afternoon they will travel along the Dodson South Canal to Malta, inspecting the work that has been constructed. On the morning of July 13th the committee will inspect the lower portion of Dodson South Canal, Nelson Reservoir and Beaver Creek Valley, stopping at Saco for lunch. In the afternoon the party will inspect Vandalia Dam and Vandalia South Canal arriving at Glasgow in the evening.

MORE FAIR PREMIUMS

Where the ladies show their exhibits at the Valley County Fair, September 6-7-8, there will be found a big gathering of the men all wishing to act as judges, so they might have an opportunity to eat all the good things displayed.

To add to the competition and encourage every woman in the county to show her handiwork in putting up fruit and canned goods, the firm of Van Slyke, McConville Co., of St. Paul, has hung up a handsome pair of woolen blankets, valued at ten dollars. These blankets will be awarded for the best exhibit of preserves, jellies, and canned goods shown and will be presented to the winner by Chas. E. Peterson & Co., the local representatives of the above firm.

Another beautiful premium for the ladies will consist of a roomy, comfortable solid golden oak arm rocker, valued at ten dollars offered by the Crocker Chair Co., of Minneapolis. This rocker will go to the woman exhibiting a patchwork quilt showing the best hand work and will also be presented by Chas. E. Peterson & Co. to the winner immediately at the close of the Fair.

These are but two of the many prizes hung up for the ladies, there are many others all worth trying for. The premium list is now being sent out and if you have not received one, write Secretary S. C. Moore, Glasgow, and it will be forwarded at once.

METHODIST CHURCH

Services on Sunday as follows: Sunday school at 10 a. m. Preaching by the pastor at 11 a. m. and 8 p. m. Morning subject: "Americanization Day." Evening theme: "Echoes from the Epworth League Convention." Good music and a most cordial welcome.—B. F. Meredith, pastor.

NEW BAPTIST CHURCH DEDICATED SUNDAY

Impressive Services Mark Dedication of Handsome Structure. Large Crowd Attended.

OVER \$6,000 RAISED BY SUBSCRIPTION

Large Amounts Donated to Pay off Debt. Building Cost \$10,000. Noted Speakers Here.

With appropriate ceremonies, the new Glasgow Baptist church was dedicated Sunday.

Crowds, that taxed the seating capacity of the new edifice, were present at the three services that were held during the day, and worshipped for the first time in the splendid structure.

The congregations of other churches in the city also assisted in the services and distinguished Baptist clergymen from other states and other parts of Montana were present to take part in the ceremonies. Rev. Dr. Myron W. Haines, of McMinville, Oregon, Rev. G. Clifford Cress of Lewistown, Mont., state superintendent of Baptist Missions and Rev. F. R. Brown, Baptist Colporteur assisted in all three services and the pastors of the other Glasgow churches were also present and took part, with the exception of Rev. B. F. Meredith who was attending a convention of the Epworth League at Helena, and was unable to be present.

Rev. Myron W. Haines conducted the forenoon services, and preached one of the most eloquent and forceful sermons heard in the city for many a day. Subscriptions to assist in paying the debt on the building were then received and before the service closed, over \$4,000 had been subscribed.

In his sermon Rev. Haines made a forceful appeal to the citizens of Glas-

work of organizing was begun. Rev. Hupp then left and the work here was supplied by Mr. Parks. In January Rev. Hupp took the pastorate here and continued the work which he had begun so arduously in the summer.

The latter part of March the excavation for the basement of the new church was commenced and on Easter Sunday the cornerstone was laid. Since that time, the people of Glasgow know with what vim and vigor the work on the church was rushed until its final completion Sunday.

The lots on which the building is situated are 60 feet by 130 feet, on the corner of Fourth Avenue South and Seventh Street.

The building proper, is 40 by 58 feet in dimension with an auditorium measuring 39 feet square. The church is of Gothic design with four gables, the distance from the ground to the gables being forty feet.

Upon entering the church one is at once struck with the thoroughness in the construction of the building. Even the minor details have been carefully worked out and due credit must be given the skilled workers whose task has been done so well.

The auditorium is strikingly beautiful. The walls and ceiling are finished in colors that harmonize perfectly, restful to the eye and with a soft, pleasing appearance that could not be

Glasgow's New Baptist Church

gow to assist the congregation in successfully finishing the enormous task which they had undertaken, and the manner in which those present responded speaks well for the progressiveness and spirit of civic pride in the hearts of the citizens of Glasgow.

The auditorium was beautifully decorated for the services. Music for the services was furnished by Darst's orchestra and Miss Florence Crawford sang "The Holy City" in a most pleasing manner.

Rev. Cress delivered the afternoon sermon and Rev. J. F. Wilkinson, pastor of the Christian Church, had charge of the devotional services.

In the evening Rev. Haines conducted the services and Rev. A. U. Baer, pastor of the Congregational Church, had charge of the devotional services. Rev. Cress delivered the prayer of dedication.

At the three services, in all \$6,300 was subscribed to meet the obligations on the building.

The history of the building of this splendid structure is indeed remarkable. Although the newest and youngest church in the city they have one of the finest places of worship in the state. It is a monument to the progressive spirit of the small congregation, who under great handicaps, surmounted all obstacles and triumphant have left this superb edifice to mark the results of their labors.

In August 1914, Rev. J. Maurice Hupp came to Glasgow as evangelist for the Baptist State Board of Montana. He was here through the month of August and services were then held in a tent. During the month of August the church was recognized at the home of Thomas Pierce and the

improved upon. From the floor of the auditorium to the ceiling the distance is twenty three feet. The ceiling is finished in beam effect, with four large panels finished in a cream tint and eight panels of straw color. Lilac is the predominating color in the ceiling effect and the three colors, blending perfectly together give an altogether beautiful appearance. Hand painted borders around the panels of vine and ribbon drapery add strikingly to the beauty.

The entire base of the auditorium is finished with dado and stencil border and the tints on the walls blend together perfectly with the ceiling effects.

The seats in the auditorium are arranged in a semi circle, the floor sloping towards the pulpit so that the speaker may be seen from any seat in the church even under the most crowded conditions. On the east and west sides of the auditorium are large art glass windows through which during the day, the sunlight comes, dulced and softened adding an effect that is very beautiful. In the center of the platform at the rear of the auditorium is the pulpit desk and around it are arranged places for the choir. Directly back of the pulpit is the baptistry with robing rooms on either side.

The church is lighted with the latest kind of indirect lighting, which give a mellow, even glow and harmonizes with the other effects.

Directly off the auditorium is a lecture room, in size 12 by 26 feet. The doors leading from this to the auditorium have been so arranged that they may be swung open so that the

INSTITUTE A SUCCESS

Farming Experts Deliver Interesting Talks to Enthusiastic Meeting.

While not one of the largest attended, the farmers' institute held at the Gibson Opera House Tuesday afternoon was one of the most enthusiastic and interesting of any that have ever been held here.

About one hundred farmers took advantage of the opportunity to hear men who have been making it their work to study the problems that confront the dry land farmers and those who were fortunate enough to attend expressed their appreciation of hearing the splendid talks that were made.

The meeting was called to order by Secretary Moore of the Commercial Club who first introduced Mr. W. R. Wood. Mr. Wood is himself a farmer of experience and is now acting as county agent in Sheridan county for the Extension Service of the Montana State College.

His talk centered on flax raising, giving the history of the flax industry in this country and the best methods to raise it. He urged the farmers to be especially careful to select pure seed and to take pains with the preparation of the ground on which flax was to be sown, stating that a firm seed bed would eliminate many of the different kinds of flax. He named the different kinds of flax that would best withstand drouth and frost and told of the experiences of Professor Bolley in finding the different kinds of flax that would do this. Mr. Wood had made several trips through the farming country tributary to the city and was agreeably surprised at the excellent condition of the crops.

He stated that with the soil we have here the farmers should be able to raise any seed crop without much difficulty and that he believed that the northeastern part of the state could produce a high quality of grain in sufficient quantities to make it profitable to the farmers.

Prof. J. M. Davis followed Mr. Wood with a very interesting and instructive talk. He stated that he was well pleased with the development of the country, and that he would like to own a quarter section of land in Valley County. He urged the farmers to be careful in seed selection and to beware of weeds that would injure crops. He told of the trouble the flax-weed was causing in other parts of the state and explained how it might gain a foothold in a new agricultural community.

Mr. Davis also complimented the people of Glasgow on their fine high school building, stating that there are very few in the state that excel it in any manner.

Both men were well pleased with the results of the institute and realized that this was a busy time for the farmers, and while the attendance was not as large as was hoped, yet it was an enthusiastic and interested crowd of farmers. After the speaking came a general discussion of farm methods, which showed the interest of the men present of the work in hand.

SONG RECITAL AT ORPHEUM

Miss Marie McCormick, the popular St. Paul Soprano, will appear in one of her delightful song recitals at the Orpheum, Wednesday, July 7th. Under the auspices of the Altar Society. This will be Miss McCormick's second appearance before a Glasgow audience having given a recital here last year. No doubt all those that had the pleasure of hearing her before will afford themselves the opportunity of doing so again as she was very enthusiastically received on her last appearance. The papers of St. Paul, Minneapolis and Fargo where Miss McCormick has given recitals the past year are lavish in their praise of her ability as a singer, and all pronounce her as one of America's greatest Sopranos. Reserve seats have been placed on sale at The Glasgow Drug Company to assure your self a good seat secure tickets at once.

PATRIOTIC SERVICE

A patriotic service will be held in the Congregational Church on Sunday, July 4th, at 11 a. m., Company G. of the Montana National Guard will attend in a body. The music will be of a patriotic character with a solo by Miss Emily Leonard and an anthem by the choir. The topic of the sermon will be, "The Creed of our Republic." You are cordially invited to attend this service.—A. U. Baer, pastor.

NEW LAUNDRY NOW RUNNING

Machinery Put in Motion for First Time Yesterday.

EQUIPMENT IS COMPLETE

Building and Equipment Modern in Every Respect. Many New Labor Saving Devices.

Glasgow's newest industry, the steam laundry, commenced active operations yesterday. Despite various setbacks and the delay in the arrival of the machinery, everything was in readiness on the day set by the proprietors for the opening.

While the work on the building and interior was rushed with all possible speed, yet everything was done in a thorough manner, and Glasgow can now rightfully boast of one of the finest and most completely equipped laundries in the state even though it may not be the largest.

The building, lots and machinery represent an investment of approximately \$15,000. Built of reinforced concrete, especially for the purpose for which it is being used, the building is a credit both to the contractors and to the men who own it. With plenty of light, on all sides, and the best ventilation it is a model laundry building. Nothing has been overlooked to make it as fireproof as possible and it is a model of sanitary perfection.

The machinery and other equipment represents an outlay to the proprietors of about \$7,000. Everything is new and of the very latest model and design in laundry machinery construction. There is a mangle that would be a credit to a laundry many times the size of this one. It embodies all the latest ideas in the construction of this kind of machine and has on it safety contrivances that protect those working on it.

All the machinery is set and arranged in such a manner that they save steps and time for those operating them. There is a large specially constructed drying room, three power washing machines, and numerous other machines to handle every kind of work that may come in.

All the machinery is run by electric power and there are several of the smaller machines for special kinds of work that are heated and operated by electricity. An electric collar shaper of the latest design and other electrical contrivances are a part of the equipment.

Not a single detail has been overlooked to make the building as near a model of perfection as possible. Even in the boiler room, special care was taken to have everything done to facilitate the operation of the plant.

Messrs. Hawley and Woody, deserve a great deal of credit for their enterprise and progressiveness in going ahead with the work as they have done. Both are experienced in this line of business and from the very outset they will give their customers the very best of service. Their aim is to satisfy and with their force of experienced help and the use of the best laundry materials obtainable, they will certainly be able to do so.

A new laundry wagon is part of the equipment and daily trips will be made over the city collecting and delivering laundry.
