One half of the world wonders how the fellow next door ever raised the price of an automobile.

A woman who is too fat gets a lot of comfort out of worrying over how awful it would be if she were too thin.

If a girl says you can have a kiss if you can catch her, you can bet that she is not going to break any speed records.

The District benedict who claims he wed in a daze has nothing on most married men who have officiated in a similar capacity.

A big, well fed beggar asked a lady for a nickel. "I'm afraid that you are not fond of work," the lady said. "No ma'am, I ain't" replied the beggar. "How could you expect me to be Work's what killed my wife."

The other day when an auto horn tooted, a quiet looking man jumped and looked about in a startled manner. When asked what troubled him, he replied that a few weeks ago a fellow eloped with his wife in an automobile and every time he heard a horn toot he was afraid the man was bringing her back.

## OHIO RIVERS ARE RECEDING SLOWLY

Cleveland, July 18.—The floods in Ohio are subsiding. The toll of the terrific three days' wind and rain storm is five deaths and an estimated property loss of between \$500,000 and \$1,000,000.

Thousands are homeless, but each city is handling its own relief work.

At Lima, where the Ottawa river exceeded the 1913 flood crest, James C. Logue, railway official; Arthur Jackson and Mrs. Laura Bereaw lost their lives as a result of the flood.

Ethel Snyder, aged eight, was drowned in an inundated field at Vanwert.

Near Lancaster Howard Henry, aged thirty-five, was struck dead by lightning.

Columbus, Lima, Findlay, Zanesville and Dayton all were hit by floods.

All rivers are receding slowly.

## TRIES TO PREVENT STRIKE

Washington, July 20.—Samuel Gompers, president of the American Federation of Labor, announced that he called a conference of officers of the International Association of Machinists to meet with him in Washington to consider the strike ordered at the Remington Arms and Ammunition company's plant at Bridgeport, Conn.

In calling the conference Mr. Gompers said it was his purpose to use every resource at his command to prevent a general strike.

Officials of the department of labor declare they believe an agreement will be reached in time to avert a general strike.

## Five Bathers Drowned

Chicago, July 20.—Five persons were drowned while bathing in Lake Michigan when an undertow swept them into a deep hole. The dead are Miss Marie Dwyer, aged twenty-one; Miss Nora May, twenty; F. J. Kelly, G. H. Vetter and Stanley Kotost.

## Safety First

The young man hesitated to believe the statement of her little brother that the young lady was not at home. He repeated the question, at the same time displaying a quarter. The boy eyed it longingly and again replied in the negative.

"But didn't she leave a message for me?" asked the disappointed swain.

"Yes, sir," said the lad—and nothing more.

As one who sees a great light the young man tossed him the coin.

"Now," he said, "out with the message."
