LEARN A LITTLE EVERY DAY

The largest library in the world is the Bibliotheque National in Paris, which contains 1,400,000 volumes. Lemuel F. Fredemeyer is credited with having trundled a wheelbarrow from San Francisco to New York in seven months and sixteen days. This occurred in 1879.

There are 2,754 languages. The sun is 92,500,000 miles from the earth. The earth receives only one two-billionth of the solar heat. Sewing machines were patented by Elias Howe in 1846. The cost of coal burned by an ocean steamer on a trip across and back will average \$13,000.

STATE TEACHERS TO MEET

The State Teachers' Association will hold a meeting at Great Falls on November 2nd to 24th and from all indications there will be a record-breaking attendance.

A number of speakers of great note have been secured to address the teachers and the meeting should prove one of the most successful ever held. Among these are Dr. Edward Allsworth Ross, of the University of Wisconsin; Dr. C. E. Rugh, of the University of California, and Charlotte Perkins Gilman, the celebrated writer and lecturer.

Railroad rates of one and one-third fare for the round trip have been secured. The Rainbow Hotel will be the official headquarters.

COULD TELL LATER

Two farmers met in a certain town a day or two after a cyclone had visited that particular neighborhood. "She shook up things pretty bad out at my place," said one, stroking his whiskers meditatively. "By the way, Hi," he added, "that new barn o' yours get hurt any?" "Waal," drawled the other, "I dunno. I haven't found it yet."—Omaha Bee.
