It's Much Easier

To iron when you use the electric iron. Its advantages are many. Here are a few important ones. First, it has an even temperature at all times. Second, it saves time and labor by not having to run to the stove every few minutes. Lastly, it does away with that roaring hot fire that is necessary with the old way. Consult us now about the cost of using electricity.

NOMINATION OFFERED

Teddy Says He Might Have Had Support of Chicago Convention if Desired.

The nomination of a pronounced progressive at Baltimore will make no change in the plans of Colonel Roosevelt's new party, formed Saturday night. This positive statement came from him after there had been some discussion of the possibility that a progressive might receive the democratic presidential nomination.

Some of the visitors to headquarters seemed to think if a recognized progressive was nominated it might hamper the independent party.

"Will your position be influenced by any act of the Baltimore convention?" Roosevelt was asked.

"It will not," he replied. "I will not depart from what I said Saturday night, and I will accept the progressive nomination on the progressive platform, and will fight the battle to the end."

The republican nomination for president, Roosevelt said, was his for the asking on the day Taft was nominated. He declined to accept it, he said, on the terms under which the offer was made.

Roosevelt said he was visited early Saturday morning by a group of delegates who promised him a sufficient block of Taft delegates to swing the nomination for Roosevelt to avert a rupture of the party. The number of delegates sufficient to nominate Roosevelt or any candidate he might name. It was stipulated, however, he must accept the nomination from the convention as then composed, not to insist upon the removal of the 78 delegates he contended fraudulent. Roosevelt said he informed the delegation he would not accept the nomination under these conditions.

GOMPERS GETS A YEAR.
 Sentenced to Jail for Contempt-- Morrison Given Six Months.

Washington, D. C.--Samuel Gompers, president of the American Federation of Labor, was sentenced to one year in jail for contempt of court by Justice Wright of the District of Columbia supreme court, Monday.

Frank Morrison, secretary of the federation, was sentenced to six months in jail for the same offense. Both gave notice of appeal and were released on \$5,000 bail.

John Mitchell, also found guilty of contempt, in the proceedings growing out of the publication in the American Federationist of the name of the Buck Stove & Range Company of St. Louis, in an "unfair list," was not present in court and his case was deferred.

"Because these respondents have shown themselves ready to repeat the seditions of the past, the penalties in these cases ought to be in proportion to the gravity of the offenses," declared Justice Wright in his decision.

Wright declared that Eugene V. Debs' sentence of six months for contempt of court was not sufficient, and "the offense of the least of these men (Morrison) was more malicious than that of Debs."

Three of Wright's colleagues sat on the bench with him while he read his decision, which was very long. Although the justice skipped many pages, his reading consumed nearly two hours.

As the decision of guilty was rendered, Gompers and Morrison were ordered to stand and face the court. They did so, very pale, and then Wright sentenced them.

This was the second time Justice Wright had imposed sentence upon Gompers and Morrison for the same offense. The first decision was set aside by the supreme court and remanded back for a new trial.

MEETS DEATH STRANGELY.

Baby Struck on Head By Flying Missile and Killed.

John Dennison Walker, the year and a half old son of Chester A. Walker and wife, of Coburg, met death in a most remarkable manner at the family home at 11 o'clock Sunday afternoon.

The family home is located near the McKenzie river, and the child was playing on the rear step, his mother standing in the doorway watching him. A crew of Booth-Kelly loggers were at work on the river bank blasting out some driftwood. They placed a top blast on a pile of drift and set it off, little thinking that there would be any danger to any one, in fact, knowing that a top blast seldom ever causes any damage to anything except the object upon which the explosive is placed.

The charge was set off, and a piece of driftwood, probably a foot and a half long and quite thick, containing a big knot, flew directly toward the Walker house, 450 feet away. Before the loggers or any one realized what had happened, the chunk of wood struck the little boy on the head, killing him almost instantly. The loggers ran to the house to render all assistance possible, but nothing could be done to save the child's life. The mother was almost distracted on account of the suddenness of the babe's death, and her grief was pitiful indeed to behold.

LIGHTS EXTINGUISHED.

Salem is Visited by Severe Thunder Storm.

Salem.--This year seems to be an abnormal one in Oregon in some respects, among which is the number of electrical storms that have visited several portions of the state during the present summer.

A week ago seven people were killed by lightning in Klamath county, and from other portions of the state reports have been received telling of the havoc wrought by the thunder and lightning. In a number of instances the disturbances have been accompanied by high winds that did severe damage to the immature crops. This city has been comparatively immune until Wednesday night, although several slight thunderstorms have visited Salem.

On that night, however, Cherry City residents were treated to the nearest approach to a genuine old New England thunderstorm that has occurred here in a number of years. Fortunately no serious damage was done, though for a time the electric lights in different parts of the city were extinguished. The lights at the armory were dimmed among others but came on again in time to allow of the carrying out of the program.

MEXICANS SENTENCED.

Los Angeles.--A riot occurred at the federal building Tuesday when sentences of 11 months in prison were imposed upon Ricardo Flores Magon, Enrique Mafzon, Anselmo Figueroa and Librado Rivera, Mexican revolutionary leaders, convicted last week of having violated the American neutrality laws.

One hundred sympathizers attacked police and other officers who had been assembled at the federal building in anticipation of trouble. Several women were injured in a fierce fight which followed in the street. A large number of arrests were made.

WANTS INTERVENTION.

Santiago de Cuba.--General Pedro Ivonet, the rebel leader, according to a report, has declared that he will not surrender until after intervention by the United States, which he desires, as he is convinced that the Cuban government will never repeal the Mora law prohibiting political parties on racial lines.

WANTS INTERVENTION.

The spots on the sun are two weeks late. Otherwise there would have been lucid explanation for action at Chicago.

WANTS INTERVENTION.

TAFT MUCH ELATED.

Cannot Estimate Importance of Great Victory.

Washington, D. C.--President Taft in a statement issued Saturday declared the issue before the republican convention was whether it would abandon its principles of standing for constitutional guarantees of life, liberty and property. He said the campaign to seize the republican party and "make it an instrument of reckless ambition" was so sudden a time was not given to properly show to the people what dangers confronted them. "The importance of the great victory which has been achieved cannot be estimated." He said it was not necessary now to speak of the result in November. "It is enough now to say that what will happen in November is a great victory for the republican party and the United States."
