## In the Social Realm

### Birthday Party.

### Ashland Girl Weds.

The bride left here with her parents four years ago. She graduated from the Ashland high school. The groom is ticket agent for the Santa Fe at San Diego. Many important arrangements must be made in connection with the May Day dance and there are many matters in regard to the club home to be considered. A large attendance is most urgently requested.

### Informal Dance.

About fifteen couples from the high school set enjoyed a jolly informal dance at Memorial hall Friday evening. A five-piece orchestra furnished music. The knights outnumbered the damsels by several and tag dances were an often repeated feature. All who were present voted it the best time yet and hope for an early repetition.

### Monster Cast in "Everywoman."

The cast of the production of the dramatic spectacle, "Everywoman," which Henry W. Savage will disclose at the Vining Theatre Wednesday, April 25, contains thirty-seven speaking characters. There is also a singing chorus and musicians and a host of supernumeraries to appear in the big ensemble. Altogether over one hundred and fifty people are employed in the representation. The organization travels from city to city by special train and it is unquestionably the largest organization of the kind ever sent on tour. This is not a "road" production or a "number two" company. It is the only production of "Everywoman" played in America. Mr. Savage considers "Everywoman" his greatest achievement as a producer. The production represents an expenditure of upward of sixty thousand dollars.

### DEPOT DOINGS.

George Wild, superintendent of motive power on the Portland division, was in town the last of the week.

The Southern Pacific Company has installed a new 65,000 gallon water tank on their premises at Grants Pass and have erected service standpipes above and below the depot. Thus two stops of each passenger train are avoided as the trains will take water while the transfer of passengers, baggage and express is taking place. This will save from ten to fifteen minutes' time for the trains.

The Grants Pass authorities have passed an ordinance governing the peddlers of fruit and the like at the S. P. depot in that city. Such a ruling has been in effect here for a number of years. In former times most of the boys of the city could be found at train time peddling their wares alongside the train. They are now relegated to a stated position near the exhibit building and must have permits.

### SAN DIEGO FAIR

#### ON PAYING BASIS

San Diego, Cal., April 19.—The San Diego exposition has advanced well into the fourth month with an extraordinary record of steady increases in attendance. For the first time in exposition history the San Diego fair went on a paying basis in February, nearly doubled net profits in March, and now promises a much heavier April profit.

Current business shows a dominance of travel from the eastern seaboard. Information from railways, steamship lines and tourist agencies points to the influx of heavy business late in May. June starts a heavy flood from the middle west, and from then through the vacation season will come probably the biggest tourist business of the year.

It is in that season, too, that there comes the normal summer business of San Diego, to whose cool coast climate each summer travel thousands of people from the hot interior. The summer's special events are started with the engagement of Creator's band, beginning April 24.

Some twenty-five members of the new Ashland Business Men's Association go to Medford tonight as guests at the monthly meeting and banquet of the Medford Merchants' Association. Cars leave the Plaza at 6 o'clock and all members of the Ashland Business Men's Association are invited.

## May Have to Muzzle Dogs

In view of the spreading plague of rabies in the eastern Oregon counties, the state sanitary board has taken action in regard to dog muzzling. No local notice has been received concerning muzzling of dogs, although Jackson county is named in the following clipping:

"Salem, April 12.—To prevent the spreading of rabies the state livestock and sanitary board, at a meeting held here today, issued an order placing eleven counties under quarantine. It was announced that the disease had been communicated by coyotes to horses, dogs, cats and other animals in eight counties in the eastern part of the state. The counties included in the quarantine are: Lake, Harney, Crook, Baker, Umatilla, Malheur, Wheeler and Union, where rabies prevails, and Multnomah, Clackamas and Jackson, to which it is feared the disease may spread. The order requires that all dogs, unless used in herding livestock, be muzzled."

Scores of cars visited the springs and motored up toward the Siskiyou highway Sunday. Everybody with a car, a horse, a pony, a bicycle or a pair of feet was out enjoying the beautiful day. Numerous picnic parties from down the valley held forth at the springs.

A big plant for the screening and washing of sand and gravel will be installed at Roseburg in the near future. Several thousand dollars will be invested in machinery and buildings and sidetracks connecting the works with the Southern Pacific railway will also be put in. Contracts have already been entered into for disposing of a large part of the output.

Captain Malone and Lieutenant Blake of the local first company, C. A. C., paid an official visit to Seventh company of Medford on Wednesday evening, and inspected the workings of another session of the delinquency court, a tribunal which is bringing recalcitrant coast artillerymen to a realization of the duties which they obligated themselves to perform.
