A gentleman who was going a short distance up the road last evening made inquiry of a friend as to the price of the ticket to his destination. He was informed that it was 75 cents, so, wisely determining to save a quarter, he paid 50 cents for a ticket to Portland, only to discover after he had paid for the ticket that his informant was wrong and that it would have cost him just 40 cents to go where he desired.

A party of gentlemen engaged in the logging business on Gray's river were discussing the present-day market at the Parker house last night. They claimed that there is a great improvement over former years. The class of logs that a couple of years ago brought \$4 and \$5 now easily bring \$4. The increase is far from being all profit, however. All hardware supplies used in logging have advanced. Groceries, too, are higher, and the price of labor is materially greater. Labor, in fact, gets the cream of the improved prices.

Pretty weather, such as that of yesterday, is conducive to contentment, but in Oregon it is bad for business—and news. Oregonians growl at rain and all the while show by their actions that they love it. When the sun shines people grow languid and apparently endeavor to refrain from doing anything of interest. When the cloud tears fall the women with women, with umbrellas andmackintoshes, go shopping in crowds, men get down to business and do things that other people like to hear about. Things happen in Oregon when it rains.

The traveling public will be pleased to learn that under the new management announced for the Occident hotel on its reopening shortly, the obliging and gentlemanly clerk of that popular hostelry for the past eight years, Mr. Arthur J. Tee, will be retained in his old position. Mr. Tee is one of the best qualified hotel clerks on the Pacific coast, and in the many years of his connection with the Occident he has most favorably impressed all with whom he has been brought in contact. The high reputation sustained throughout the country by Astoria's chief house of public entertainment has been not a little due to Mr. Tee's uniform politeness and painstaking efforts to make the visits of its guests pleasant and comfortable.

As has already been stated, the five men who in the general confusion missed the transport at Portland caught their vessel at this port, but it is probably not generally known that their self-constituted guardian was decidedly left. A young citizen of Portland intended to go as a passenger on the Sikh and had arranged to board his vessel at this place. Upon discovering the presence of the too-much-gay soldiers he became very anxious for their welfare, and decided that at all hazards they should be gotten safely aboard. With this kind purpose in view, he was searching for his wards at the last minute, and a little later than the last minute, which accounts for the fact that he is now the only man who missed the transports to Manila. However, he is consoled by the fact that his outfit will no doubt get safely there.

There was a rumor in circulation yesterday that the cannerymen raised the price of fall salmon and were paying 2 1/2 cents a pound, or a half cent a pound more than what was paid at the opening of the season. F. M. Warren, the Cathlamet and Cascades canneryman, is said to have made the advance. Fishermen who were in Astoria during the day said there was nothing in the advance, as the Warren buyers had paid the advanced prices only where they desired to get the fish of outside boats, and that the price was not generally paid to the men fishing for the Warren canneries. The run of salmon has considerably increased within the past few days. Trappers, setners and gillnetters are making good catches and there is every prospect that the run will continue for a week or more. Steelheads are selling at 5 cents a pound but very few are being taken.

FREE CURE TO ALL. If you have eczema or ringworm, we will pay you to write or call at J. A. Clemenson's drug store, 227 Yamhill street, Portland, Or. for a sample of Cyslead, the wonderful eczema and ringworm cure. This remedy has been known for over ten years, but we have never had sufficient proof of its curative power until the last year or two to warrant putting it before the public. Now we have seen it cure so many that we are willing to spend a little money putting it before the public, knowing that it needs only an introduction to prove a success.

THE YELLOW FEVER SCARE. The recent yellow fever fright raised widespread interest in its treatment. It is treated in the simplest way possible although it is a terrible disease. Perfect sanitary arrangements are insisted upon, the supply of water must be pure, simple medicines are administered and the bowels kept regular. If this last measure was observed by everyone, we would be a magnificent race. There is nothing better than Hostetter's Stomach Bitters for cleansing the system. A dose three times a day will bring new life and happiness. It will positively cure constipation and dyspepsia and for weak liver or kidneys there is nothing to equal it. Every druggist keeps it and a private Revenue Stamp covers the neck of the bottle.
