576 Commercial St. Shannan Building

S. Terry McKean passed through the city yesterday on the steamer Elder. He is en route to San Jose from Seattle. At the latter city he was a member of a stock company that did a big business, and at San Jose will join another combination. He was in Astoria for several hours and called on his friends here.

The report appearing in an afternoon paper that the Packers would on Friday commence operations at Blagie Cliff cannery is erroneous. The up-river interests of the Packers require the attention of the entire crew at Rooster Rock, where fish are very plentiful, and the employees could not conveniently be sent to Eureka.

The surveyors yesterday finished the work of running the lines for George W. Hume's saw mill site, and their report was submitted to the attorneys, who are now preparing deeds of conveyance. Arrangements are now being made for the necessary piling, and plans for the messhouse are being drawn. Mr. Hume will lose no time in commencing the work of construction.

Jan. J. Montague, who has been dramatic critic and who has written the "Note and Comment" column in the Oregonian, has accepted a position on the New York Journal. He leaves to assume his new duties on August 1. Mr. Montague has won the reputation of being the brightest man in his line of work on the coast and it is in recognition of merit that he has now been called to a place on a metropolitan newspaper like the New York Journal.

M. P. Callender came over from Knappa yesterday afternoon and left on the Oatzer last night for Portland on a short business trip.

Mr. Callender states that the Columbia mill is rushed with orders and that its output is from 20,000 to 100,000 feet daily. The mill employs 60 men. Yesterday the barkentine Churchill was cleared from the mill, with 80,000 feet of lumber. She goes to Melbourne, Australia.

The barkentine Gleamer is now loading. She will take 60,000 feet of lumber for San Francisco. The Knappa mill has cleared more lumber cargoes of late than any other mill of its capacity on the coast, and it is an institution that distributes a large sum monthly along the lower river.

Superintendent Coolidge, of the Astoria Electric Company, said yesterday that the work of installing the new machinery at the West Astoria power house would be finished within 10 days. The new plant is a fine one in every respect, and when it is in operation cars will be run to the extreme western end of the city at all hours. The company is now engaged in repairing the Astor street track.

This track will be used to give the company access to its new power-house. Should Astor street be extended through to West Astoria, cars will also be operated over that street as well as over Bond. A new car barn is being arranged for at the power house, and in many other ways the property of the company is being put in good shape. When the new plant is in operation, Astoria will have better street car service than any other city of its size in the West.

The greatest number of cases of salmon ever packed in a Columbia river cannery in a single day was put up yesterday at Elmore's cannery. The day's pack was in excess of 2000 cases. When an Astorian reporter visited the packing house almost 1900 cases had been packed and operations had not then ceased. The receipts of fish at the cannery were very heavy and there was a scramble by the employers for help. Every available Chinaman in town was engaged, even to porters and janitors, and a scene of activity was presented at the cannery that is seldom equaled. It is extremely gratifying to note the large number of white boys and girls employed at the packing houses. They receive very good wages and during the vacation season earn enough to pay for their education. It was learned late last evening that the exact number of cases packed at the Elmore cannery yesterday was 2020.

The regatta finance committee, C. R. Morse and H. W. Dean, have been busy the past two days interviewing business men and others. They will submit their report at a meeting of the committee, which will be held on Thursday or Friday. The committee has not been any too successful thus far, and the old disposition on the part of some people to make soliciting a begging expedition has again manifested itself this year. The committee waste no time with the business men, but made notes called on for forms of the persons called on for submission to the general committee. After the canvass has been completed the committee will figure just what sort of entertainment can be provided for the money subscribed and if there is any prospect of a "frost" the regatta will be called off. Even if the amount subscribed is great enough to pull off a regatta that would be in keeping with those held in former years, the question of time will have to be considered.

The army officers at Fort Stevens are very reticent regarding the attempted destruction of the post, and it is impossible to learn anything of the progress of the search for the miscreants. The services of detectives have been engaged and it is believed the men who started the fire Saturday night will be found out and punished. Their offense is officially known as treason. An old army officer believe the guilty persons will be found within the fortifications, and expresses the opinion that the fire were started by men who have been disappointed with the life of a soldier, who despise the regulations and who abhor the officers under whom they serve. It is related by the officer in question that much trouble is given my men of this class, who frequently destroy army property in a spirit of revenge against the officers. The number of guards at the post has been increased and a recurrence of the attempt to burn the post is highly improbable.

Of the salmon situation the San Francisco Trade Journal says: "So far as can be learned the market for Columbia river 1902 is very slow, barely enough doing to say anything is passing. In Alaska 1902 the cream of the early demand appears to have been met and no large orders are looked for until more definite information regarding Puget Sound prices are made known. Orders have been booked for sockeyes subject to the opening prices of the Alaska Packers' Association. The opinion prevails with large eastern handlers that the consumption of salmon this season will continue heavy provided prices are kept within reach of the masses. At the opening prices on Alaska it is conceded that the entire pack will go into the consumption channel even if it should be larger than in 1901. With favoring prices for Puget Sound and also for British Columbia these packs will also go into consumption channel, for it is generally admitted that the sockeye pack of British Columbia and Puget Sound will be from 20 to 25 per cent less than in 1901. Even if it should prove to be this yet the high prices for meat and favoring prices for salmon will cause all that will be packed to be wanted to meet requirements."

The seiners are having a streak of hard luck just at present, and Will Tallant alone seem to be making anything like the hauls that should be made. This applies to all the seiners of the lower river, the catches at Sand Island being very much below what might reasonably be expected. At Will Tallant's place, the T. K. Johnson grounds, very good hauls are made, but operations are seriously interfered with on account of snags. Inyard & Cook, at the Jim Crow sands, are bothered with a sand spit, which has formed a deep hole and rendered seining very difficult. D. H. Welch, Nick Curich and Charles Davis have prepared to operate the grounds abreast of the Tongue and extending towards Harrington Point. The horses for this ground were brought over from Clatsop yesterday and it is expected operations will be commenced tomorrow. Andrew Olsen, of Hammond, has commenced driving a trap for July fish at a point east of George Kaboth's grounds. It appears that the fish frequent the middle channel as far east as the Tongue and the water along the north shore as far down as Sand Island. The seiners are hopeful of a better run setting in. The fish now being caught are quite large and of excellent quality for canning purposes, and the supply is good. The gillnetters are reaping a harvest.

PERSONAL MENTION.

Miss Mabel Gos, of Portland, is visiting Miss Lila Sutherland.

Mrs. Frank Souarville, of Portland, is the guest of Miss Tallant for a few days.

Miss Charlotte Gilmore and Miss Marie Burkholder leave today for a brief up-river trip.

Miss Madge Fjok and Miss Fay Rice, of Clatskanie, are in the city, visiting with Miss Clara Simpson.

W. F. Snodgrass, formerly a resident of this city, but now located at Oregon City, is visiting in Astoria.

Dr. T. F. Laurin left last evening for Green River Hot Springs, Wash., where he will remain for about two weeks.

Rev. J. Johansen and C. J. O. Nielsen, who have been visiting in Astoria for several days past, were passengers on the Elder for San Francisco yesterday morning.

Miss McCormack, who has been visiting friends in Portland and Astoria for several weeks, will leave this morning on the steamer Alliance for her home in Marshfield.

REDUCED RATES TO NORTH BEACH.

The O. R. & N. Co. will sell excursion tickets to all North Beach joints Iwaco to Nahcotta, inclusive, every Sunday during the season at the very low rate of \$1 for the round trip. Tickets will be good returning either by steamer Nahcotta or T. J. Potter, but only on date of sale.

CHILDREN FOR ADOPTION.

The Oregon Home Society desires to find homes for three boys babes, very desirable ones, and one girl babe; also a girl of 15 years and boy of 10 years. Mr. I. P. Tobey, superintendent of the home, is now in Astoria and any communication for him may be left at this office. The children may be taken on a three months' trial.

GREAT OPPORTUNITY FOR ASTORIA

EILER'S PIANO HOUSE SENDS DOWN A NEW AND VARIED STOCK OF PIANOS AND ORGANS.

An Unparalleled Opportunity to Make a Wise Selection—How to Get a Fine Instrument and at the Same Time Save From \$50 to \$200—No One Who Needs a Piano Can Afford to Miss This.

Things are going to move in the organ and piano line in Astoria this week. From now on you will hear more and better music in Astoria than you have ever heard before.

Eiler's Piano House, the progressive and up-to-date dealers of Portland, have come on the ground, and that means a good deal for music lovers here. Mr. H. J. Sillard, the representative of the company, has brought to Astoria a new and varied line of great Kimball pianos and organs—positively the finest and best instruments that human agencies can construct. The marvelously beautiful art cases of the Kimball pianos and the pure, rich sympathetic tone make an addition to a home that cannot be surpassed in money value.

Besides these great instruments, Eiler's Piano House will also exhibit a line of fine high-grade Horbart M. Cable pianos, the Shorwood and the Hinx pianos. These instruments are shown in the newest and most charming casing effects, with strikingly beautiful woods. You will be surprised when you know that you can get one of these fine pianos for as little as \$184. Think of it! It means a saving of at least \$100. No other dealer on the coast could sell an instrument like one of these for less than \$300 and they would represent, too, that you were one in Sacramento.

We sell for less than other houses do because our facilities are immeasurably superior to those that other piano houses on this coast possess. Instead of ordering for ONE store, we order for four big, busy, fine establishments—one in Portland, one in Spokane, one in San Francisco and one in Sacramento.

This is your opportunity if you want a piano or an organ. We will let you pay as little as \$10 down and \$6 a month, if you wish. Could anything be more liberal than that?

Remember the place. The stock is shown at the store of A. R. CYRUS, 424 Commercial Street, who is our local agent.

EILER'S PIANO HOUSE, Buy, Progressive Piano and Organ Dealers.

PROPOSALS WANTED.

Proposals will be received by the undersigned for driving and capping one thousand (more or less) piles. The undersigned reserves the right to reject any or all bids.

All bids must be in at the Occident Hotel at noon of July 28th, 1902. G. W. HUME.

FOR RENT.

Rooms, 5, 7, 8 and 9, Pythian building over, Cooper's store.

DR. JAY TUTTLE, Secretary.

HATS TRIMMED FREE.

Mrs. R. Ingleton has just opened a nice line of ladies' hats, skirts, shirt-waists, and all kinds of ladies' and children's furnishing goods, including hair switches and pompadours. A chance for the \$500 piano given free with every 50c purchase. Commercial street, opposite Budget office.

NOTICE!

All persons having bills against the reception committee of the National Pure Food & Dairy Association are requested to present them to Will Madison before next Friday evening. COMMITTEE.

SUITS OUR CLIMATE.

The rapidly increasing use of shingles as covering for the walls of buildings, both to keep out the weather and for ornamental purposes, makes a great demand for a shingle stain which preserves the wood, prevents moss, and retains a fresh, handsome appearance. Particularly is such the case in damp climates. The need is well met in a perfect article made right here in Astoria. Cutbirt's Creosote Shingle Stains are penetrative, preservative, handsome and durable. They are put up in eight colors and every package guaranteed.
