## FRANK SARGENT IS NEW FEATURE

Claimed That He Will Meet Mitchell Under President's Advice.

### SAW ROOSEVELT YESTERDAY

Possible That Mitchell Will Be the Man to Become the Nation's Friend by Settling Coal Strike.

WASHINGTON, D. C., Oct. 6.—There was only one development of importance in the coal strike situation today. Frank P. Sargent, Commissioner of Immigration, and for many years chief of the brotherhood of Locomotive Firemen had a long talk with President Roosevelt today and left Washington very soon afterwards. It is said that Sargent is to meet Mitchell in Philadelphia and deliver a message from the president urging the miners to end the strike in the interests of the public.

While many propositions have been under discussion, it is almost certain that the administration is taking up the only one at the time. The present plan contemplates an end of the strike by action of President Mitchell and his associates and full investigation of the mining conditions later.

No hope is entertained that anything can be accomplished through the coal operators.

### MORMON CONFERENCE.

Remarkable Growth of Church of Latter Day Saints.

SALT LAKE, Utah, Oct. 6.—The annual conference of the Church of Jesus Christ of the Latter Day Saints with one exception the largest ever held, closed this afternoon. The Mormon church has missions in every civilized country in the world, and in nearly all of them were represented at the conference just closed, while Utah, Idaho, Colorado, Arizona, New Mexico, Canada and Mexico, where the church flourishes were represented by thousands. It is estimated that over 40,000 people have attended the conference meetings.

The growth of the church has been remarkable in the past year. It is no longer the policy of the Mormon church to encourage emigration to the home of the church in Utah, but rather to establish communities in the states where the converts are made. The growth of the church is stated to have been especially great in the southern and the northwestern states.

President Smith in addressing the conference today, declared that the Mormons when ill, should be nursed by the people of their own faith and that the doctors of their own faith should attend them.

### WHITE HOUSE CARVERS STRIKE.

NEW YORK, Oct. 6.—Whether the new carvings of the White House in Washington shall be made by hand or machinery has led to a strike. A firm in this city received the contract for much of the woodwork to be used in the remodeling of the White House now in progress. In carving both men and machines are used all the time, the men for the better grades of the work.

Members of the wood carvers and modelers union, say the firm prepared to turn out the bulk of the White House carving by machinery. The hand carvers protested.

Finally they carried their grievance to the union and a strike ensued. A delegate has been sent to Washington with a view of laying the matter before the president.

SAN FRANCISCO, Oct. 6.—The training ship Adams with 175 naval apprentices on board is preparing to sail on an extended cruise. The first stop will be made at San Diego, the Adams sailing thence for Honolulu.

While in mid ocean the vessel will pay a visit to Wake Island to observe the conditions there. This island is nearly two-thirds of the way from Honolulu to Guam, and though owned by the United States, has never been thoroughly explored. Wake Island may be made a station for the cable that is to be laid from here to Manila. It is an almost barren rock, east of the 18th meridian.

Governor Stone Calls Out Full Force of State Militia to Be in Action Today if Necessary.

HARRISBURG, Pa., Oct. 6.—Governor Stone late tonight ordered out the entire division of National guard of Pennsylvania to duty in the anthracite coal region. The soldiers will be in the field tomorrow. The order calling out the guard says:

"In certain portions of the counties of Luzerne, Schuylkill, Carbon, Lackawanna, Susquehanna, Northumberland and Cumberland tumults and riots frequently occur. The men who desire to work have been beaten and driven away and their families threatened. The railroad trains have been threatened and stoned and the tracks torn up. The civil authorities are unable to maintain order and have called upon the governor and the commander-in-chief of the national guards for troops. The situation grows more serious each day. The public peace and good order will be preserved upon all occasions throughout the several counties and no interference whatever will be permitted with the officers and the men in their discharge of duty under this order. The dignity and authority of this state must be maintained and her power to suppress all lawlessness within her borders will be asserted."

### HASSALO IS CRIPPLED.

Crashes Into Ship's Bowsprit During Dense Fog.

The steamer Undine on its way down the Columbia early Sunday morning met, near Kalama, the O.R. & N. steamer Hassalo returning to Portland in a sadly crippled condition, and the vessel is now undergoing repairs at a boneyard.

A dense fog prevailed Saturday night and the Hassalo kept her fog whistle blowing continually as she proceeded on her way. No incident occurred to mar the evenness of the trip until at a point near Coffin Rock below Kalama was reached, when the hull of a great ship suddenly loomed ghost-like in the gloom and vapor ahead, and so close that it was impossible to slow up before a collision occurred and the steamer was all but wrecked.

The ship turned out to be the Cybromene and at the time of the accident was lying at anchor near Coffin Rock. The tow boat was at a landing taking on wood. The ship's gibboom came in contact with first the hogpost, which was torn away; next the pantry was demolished and then the dining saloon and state rooms were taken in their order and smashed generally. The rooms were occupied and it is a wonder that lives were not lost. As it was the occupants were pitched about in a lively manner.

Aside from a broken bowsprit the ship escaped any very serious injury, but the damages sustained by the Hassalo will amount to over \$5,000.

## GRAND ARMY OF THE REPUBLIC

Opening of Encampment at Camp Roosevelt—Hay Principal Orator.

### WELCOME TO OLD VETERANS

Regatta, Parades, and Other Ceremonies Incident to Occasion Gone Through.

WASHINGTON, D. C., Oct. 6.—Ceremonies incident to the beginning of the thirty-sixth encampment of the Grand Army of the Republic, which commenced here today, were varied in character and mostly only semi-official.

The only formal proceeding of the day was the dedication of the Camp Roosevelt, a tent city of the White House grounds which will be the headquarters of the several corps of the organization during the week. The ceremonies there consisted of a number of addresses by many of national reputation, chief speech being delivered by Secretary Hay, Commissioner McFarland also delivered an address. The rest of the old soldiers busied themselves largely in renewing acquaintances of forty years ago and in manifesting their appreciation of the welcome extended to them by the capital city. Of this welcome they found a generous evidence on every hand. The events of the day outside of the dedication ceremonies at Camp Roosevelt included a regatta on the Potomac, an automobile parade, a procession by the Red Men of this city and neighboring cities and camp fires in the evening.

Commander-in-Chief Torrance and his staff kept an open house all day at Ebbitt house and received many hundreds of callers. There are five places mentioned for the next encampment of the Grand Army—Atlantic City, Saratoga Springs, Los Angeles, San Francisco, and Pittsburg. The candidates for Commander-in-Chief most frequently mentioned are General John S. Black, of Chicago; John McElroy, of this city; General Daniel E. Sickles, of New York; and Thomas J. Stewart, of Norriston, Pa.
