GREAT FIRE IN PORTLAND

Dekum Block, Corner Third and Washington Streets, Going Up in Smoke.

DEPARTMENT STORE MAY GO

Fire Started on Upper Floor—Loss Is Confined Principally to Offices Occupied by Medical Men.

Portland, Mar. 3.—At 12:45 this morning fire broke out in the top floor of the Dekum block, corner Third and Washington streets, and at this hour it looks as though the entire building will be destroyed. The building is of brick and is one of the finest in the city. The first two floors are occupied by Lipman, Wolfe & Co., one of the largest department stores in Portland. The six upper stories are occupied mostly by doctors. The building cost in the neighborhood of \$400,000, and Lipman, Wolfe & Co. carry a stock valued close to \$500,000. The loss on offices will make the total close to \$1,000,000.

LATER—(1:45 a. m.)—The fire was confined to the upper floors and at this hour the total loss is estimated at only \$250,000.

Lipman, Wolfe & Co.'s stock is badly damaged by smoke and water. The fire started in the cupola in the office of E. W. Moore, photographer, presumably from spontaneous combustion. Most of the occupants of the building carried ample insurance.

IRISH RACE DETERMINED TO ESTABLISH REPUBLIC

Increasing Difficulties That Beset the British Empire Give Ireland Opportunity.

New York, March 2.—James Roddy, secretary of the New York committee of the Clan-Na-Gael, made public today a declaration of principles which will be officially promulgated at the meetings of the organization to be held in all the principal cities of the country in commemoration of the birth of Robert Emmet, the 125th anniversary of which is on March 4.

After reiterating the belief that Ireland is destined to be an independent nation and to gain this end, she is justified in recourse to the sword, the declaration continues:

"Not even a scant measure of legislative freedom can be won by pleading to the parliament of England, as no installment of justice has been granted Ireland except through physical force."

"We assert that the settlement of the land question promised by the British government will be attempted only because England fears in her coming troubles the hostility of the race in and out of Ireland, and hopes to secure peace and loyalty by buying a class at the expense of the entire people. We further assert that nothing of this kind can or will prevent the race from keeping up the fight for the establishment of an Irish republic."

"Constitutional agitation tends to denationalize the Irish people and has led people to believe that Ireland was content to remain a part of the British empire, whereas her people would be satisfied with nothing less than an Irish republic. There is evidence of a revival of the militant spirit in Ireland, and this spirit has been aroused in the Irish race in America to a greater extent than ever. The Irish race in America, too, is aroused to the necessity of combining with true Americans and citizens of other origins to frustrate the attempts of England to commit the United States to policies calculated to serve purely British purposes and to embroil this republic with nations which were friendly when America needed friends and England was hostile. England's mask of friendship is put on to enable her to filch American territory and destroy the Monroe doctrine while pretending to uphold it."

"We firmly believe that the British empire has entered on the downward path leading to a final dismemberment and that a wise and resolute use of its ever increasing difficulties will give Ireland her final opportunity. We counsel no rash or premature action, but we insist that Ireland's true interests demand that the whole world be told that she will not barter her inalienable right for any half measure, or for any tardy redress of grievances. We ask the race at home and abroad to steadily prepare for the opportunity (and to make it if they can) to

strike the final blow that will make Ireland a nation among nations."

GHIPPE IS CONTAGIOUS.

New York Physician Explains How the Ailment Spreads.

New York, March 2.—Dr. Cyrus Edson, in discussing the epidemic of grippé in this city, is quoted today as saying: "Grippé is contagious, and if the public were fully aware of that fact many unnecessary infections would be avoided. The grippé germ, a spirillum, or bacillus, locates itself in the mucous membranes of the respiratory tract, and it is an air-borne disease, one acquires by breathing in the germs. Ample evidence of its contagiousness has been found by its passage through a family, a city or section of the country, traveling along the ordinary lines of travel. It is in this way that it was brought to this country some 15 years ago, coming in steamers from Europe. "A great mistake is made by the man who returns to his work too soon after an attack of the grippé. "To avoid catching the grippé, keep out of the way of people who have it, keep warm and keep your feet dry. If your baby has the grippé, don't kiss it. If your stenographer has the grippé, send her home until she gets well. If your friend has the grippé, send him flowers and regrets, but don't call on him until he is well. Don't get tired, and above all, keep warm and dry. When you do get the grippé, take a dose of thysic, go to bed and send for a doctor."

A LEADER IN FINANCE.

Former President of Stock Exchange Dies at Advanced Age.

New York, March 2.—George Hamilton Broadhead, at one time President of the New York Stock exchange, is dead at his residence here in the 83rd year of his age. He had been ill three weeks and his death was due to heart disease.

Mr. Broadhead was at one time active in the financial world, but for many years he had lived a retired life. His father was the Rev. Dr. John Broadhead, who after traveling through several states as a circuit rider, settled in South New Market, N. H., where he became the founder of Methodism in New England and Canada.

George Hamilton Broadhead was born at South New Market in 1815. He was sent in 1827 to Phillips Exeter academy. His talents for a commercial life led him into banking and when he was a young man he became cashier of a bank at Pontiac, Mich. He came to New York in 1841 and joined the New York Stock exchange. He was secretary of the exchange from 1850 to 1865, vice-president from 1866 to 1874, and in 1874 he was elected president.

MORGAN ENJOYED HIMSELF.

Great Financier Threw Conetti and in Other Ways Acted Gay.

New York, March 2.—J. Pierpont Morgan was an active participant in the carnival festivities this (Sunday) afternoon, cables the Tribune's Havana representative. From the balcony of his host's home he threw confetti and serpentinas at the masqueraders with real boyish delight. He was plainly in good humor. Early in the day he attended a Jai Alai, or Spanish basket ball game.

The arrival of the financier has caused quite a commotion in Havana where he visits for the first time. He is the topic of the day and many guesses are made as to his mission here.

BARTENDER SHOTS ROBBERS.

Holdup Men Asked for Cash and Were Given Lead.

Chicago, March 2.—In an attempt to hold up a Chicago avenue saloon early today Otto Benson was fatally and Joseph Driscoll seriously wounded. The men entered the place and commanded the bartender, James Johnson, to go to the rear of the place and leave the cash register open.

Instead, Johnson opened fire on the supposed bandits and in the fusillade of bullets that followed both men were shot.

NEW PARTY FORMED.

Winston Churchill and Others Follow Independent Lines.

New York, March 2.—The unionist members of parliament who voted against the government on the army debate last week, made no secret of their determination to pursue a vigorous policy upon independent lines of military, financial and social questions, according to a cable to the Tribune from London. Winston Churchill is virtually the leader of this new fourth party, the correspondent adds.

SENATE WILL RECONVENE

President Issues Proclamation Calling Extra Session to Be Held March 5.

HE CARRIES OUT PROGRAM

Important Treaties Must Be Ratified and From Present Indications It Seems That They Will Be.

Washington, Mar. 2.—The president today issued the following proclamation:

By the President of the United States of America—A proclamation:

"Whereas, Public interests require that the senate should convene in extraordinary session, therefore, I, Theodore Roosevelt, president of the United States of America, do hereby proclaim and declare that an extraordinary occasion requires the senate of the United States to convene at the capital in the city of Washington, D. C., on the fifth day of March next, at 12 o'clock, noon, of which all persons who shall at that time be entitled to act as members of that body are hereby required to take notice.

Given under my hand and the seal of the United States at Washington, the 2nd day of March, in the year of our Lord one thousand nine hundred and three, and of the independence of the United States the one hundred and twenty-seventh.

"THEODORE ROOSEVELT.
By the President:
John Hay, Secretary of State."

SEAMEN OPPOSE BILL.

Union Will Fight Revival of Crimping and Other Practices.

New York, March 2.—The organized seamen of the Pacific and Atlantic coasts are up in arms against a bill introduced in congress which is designed to restore the allotment system and pave the way, they say, for the "crimping" system and other practices, which have been abolished.

The Central Federated union has received a telegram from Washington from W. H. Frazier of the National Seamen's union stating that efforts were being made to have the allotment bill passed, and asking the body to send a protest against it without delay. It was further decided that a letter should be sent to follow the telegram.

THIS MINISTER HANDED UPPER TEN WITHOUT GLOVES.

Vice in Velvet as Depraved as Vice in Shoddy—Time Worn Subject Rehearsed in Louisville.

Louisville, March 2.—In line with the campaign against vice recently inaugurated in this city by the Louisville Ministerial association, the Rev. J. Kinsey Smith preached last night at the Fourth Avenue Presbyterian church here on "Sin of Respectability," or "The Upper Side of the Social Problem."

He declared that the upper side of the social world was as vicious and base as the lower side and that the only difference was that one was "vice in velvet" and the other "vice in shoddy." He said the gamblers of the parlor were as bad as the gamblers of the down town resorts, and that the slums of the upper circles were as depraved as the dens of the "Red Light" districts. He said that while the painted women of the streets were being criticised, persons should stop to consider the number of snarled women who were sinning in secret.

Dr. Smith said that society was a refuge of lies, and he deplored the coarseness and masculine audacity and behavior of young women conspicuous in society.

NO STRIKING EMPLOYEES.

Given the Hour to Return to Work and If They Do Not Will Be Barred.

Denver, March 2.—General Manager Herbert of the Colorado & Southern railroad says that so far as the railroad is concerned the strike at the machine shops of the company in several cities is at an end. No consideration will be given in the future to the requests of the strikers or their representatives. He has issued orders that the instructions contained in his recent circular, giving the men until noon yesterday to report for work or else be barred, shall be obeyed in every particular. M. Herbert says that the company has all the men that can be used consistently.

According to Mr. Herbert all the men who were out at Como, about 40 in number, applied for reinstatement within the time limit mentioned in his ultimatum and were taken back. About half a dozen union men asked for and were given their old positions in the Denver shops. In addition to those 15

MILLIONS FOR IRRIGATION

Senator Contends That Treasury Surplus Should Be Used for Developing Arid Regions.

Washington, Mar. 2.—The senate today passed the general deficiency bill after four hours of consideration, after it had been amended in several particulars. An amendment of Rawlins' calling for an appropriation of \$50,000,000 to further the work of irrigation furnish material for considerable discussion. Rawlins contended that the surplus in the treasury could be better used in this manner than by turning it into national banks. The amendment was referred on a point of order.

When the Aldrich bill was finally taken up Teller continued his remarks begun Saturday. He was followed by Carmack who replied to some criticism of a recent speech by him on the subject of murders in the Philippines.

During the course of the day a conference report on the fortification appropriation and omnibus public building bills were sent to conference. After a brief executive session the senate at six o'clock took recess until 8 o'clock.

CARRIE NATION—POLICE!

San Francisco, March 2.—At an early hour this morning Carrie Nation, who was arrested last night on a charge of malicious mischief for breaking a bottle of whisky in a saloon, was released on bail furnished by her manager.
