EVERY piece of cloth we use in our good-clothes-making is shrunk before it's cut up until it won't shrink any more; an important factor for you to know; one of the things that make our clothes fit, wear and keep shape well.

If you've worn ordinary ready-made "cheap" custom-make, you know by contrast what right shrinking means.

Lynch Is Guarded

Another Charge to Be Preferred Against the Man Who Kidnaped Young Charles Gardner.

ACCOMPLICE IN THE TOILS

On the Fifth of This Month Victim Was Enticed On Ship and Forced to Sea.

The dark doings of the shanghaier continue to come to the light of day. The good start made in arresting the leader bids fair to result in the complete smothering of their nefarious business and the preventing of further crimes. Sheriff Liville is working like a beaver on the cases and yesterday arrested Joseph Agnew, commonly known as "Scotty," charged with the crime of kidnaping. Agnew has made a full confession to the sheriff and others, not only admitting his own guilt, but again incriminating the arch fiend, Paddy Lynch, who, Agnew says, procured his assistance in shanghaiing a man under the name of A. Anderson on the ship Mueselberg on March 5. Agnew was requested to go to the office of British Vice-Consul Cherry and sign the name John Scott to the shipping articles, and furnished him with a sailor's allotment or advance note signed with that name by Lynch himself. This Agnew refused to do, but he did go and sign the name A. Anderson being furnished with another advance note bearing that name by Lynch. He says Lynch gave as a reason for this procedure that he had an old man at his boarding house whom he wanted to ship, and he was afraid the captain might object to him on account of his age. Who the man was, who was by this villainous means placed on board the ship, whether he was drugged, clubbed or merely intoxicated, and how he fared on ship board may never be known here.

Agnew is in jail awaiting a hearing, which he will have tomorrow.

Lynch's Bail Raised.

The indignation which was so freely expressed when Paddy Lynch was permitted to go at large on his own recognizance again found expression yesterday, with the result that Justice Goodman decided to raise the bail to \$5000.

Sheriff Liville was directed to produce him in court for that purpose, but Lynch was found to be confined to his home on Bond street with a severe abscess in his left ear. Upon receiving a written certificate from Doctor Henderson to the effect that Lynch was not in a condition to be moved, the sheriff left him in charge of Deputy Fred Blinn. He will remain in custody until new bonds are executed to the satisfaction of the court. A new charge will probably be entered against him on account of the Agnew affair.

The state of feeling in the city against Lynch is indicated by an action taken yesterday evening at a meeting of many of the leading ladies of the city, representing the Woman's club and the Reading club. The ladies resolved that the ball under which Lynch was permitted to go at large was insufficient, and declared in favor of prosecuting him and other offenders to the full extent of the law. On being informed by the sheriff of the action of Justice Goodman in raising the amount of the bail the ladies complimented his discretion.

With one of his victims and two of his henchmen now in the sheriff's charge, one of the latter making a clean breast of the crime in which he participated, and other direct evidence against him, it begins to look as though the crimes which have been perpetrated by Lynch and his gang will receive a degree of vengeance.

In some states the penalty for kidnaping is death. In Oregon it is from one to 10 years in the penitentiary.

SEN. NEWLAND'S FIRST SPEECH.

in the senate today appeared as an open advocate of the annexation of Cuba to the United States. He offered an amendment to the treaty, inviting Cuba to become one of the states of the union.

First Time In History

Four Judges Sit Together in the Famous Merger Suit Now Begun.

St. Louis, March 18.—For the first time in the history of the United States and by authority of a special act of congress passed last February, four United States circuit judges are sitting together to hear arguments in a case, the cause being the fight of the government against the Northern Securities company of New Jersey in the celebrated merger suit.

Under this special act the United States circuit court for the district of Minnesota is holding its session in St. Louis in the appellate court room, and by this arrangement the case can go immediately from this court to the supreme court of the United States, wherein, as a general court procedure it would necessarily go through the court of appeals and a delay of from two to three years would probably ensue.

Most of today's session was taken up with a presentation of the arguments for the government by Assistant Attorney General Beck. After he had concluded late in the afternoon, the argument for the Northern Securities company was begun by George B. Young. Before Young finished the court adjourned until tomorrow, when he will continue his argument.

Burned Ship Is Located

Vessel Carried Treasure Cargo Which Will Be Saved by Those Who Found It.

San Francisco, March 18.—Among the passengers on the steamer Newport which arrived from South and Central American ports today, was Captain E. W. Johnston and a party of treasure hunters, which left here last November in the hope of locating the wreck of the side-wheeler Golden Gate, which was burned to the water's edge off the Mexican coast in 1862. The Golden Gate carried much treasure.

Captain Johnston reports that the vessel, submerged in eight feet of water, was located and some of the treasure found. He returns to this city for appliances for recovering the remainder of the gold.

ARRESTED AT HONOLULU

Honolulu, March 18.—(By Pacific cable.)—Captain J. T. Smith, master of the new Pacific Mail steamship Siberia, which vessel is now on her maiden trip from San Francisco to oriental ports, was arrested yesterday by the federal authorities on a warrant charging that last January, when she was captain of the City of Peking, he refused to take back three Japanese that had been ordered deported.

Bonds were immediately given and Captain Smith was not detained. Late last night the Siberia proceeded on her way to the orient.

MEMPHIS IS FLOODED

All Tracks Leading From the West Into the City Cut Off By the Flood.

TWO TRAINS ARE SURROUNDED

Passengers Compelled to Stay On Board Cars and Their Immediate Relief Is Very Doubtful.

Memphis, March 18.—The flood situation tonight shows a number of new and serious developments, and there is scarcely a ray of hope for improved conditions except in the fact that the tributaries of the Mississippi to the north of Memphis are reported to be falling.

One of the most serious developments of the last 24 hours is the washing out of all lines of railroads entering the city from the west and a complete tying up of railroad tracks through the Memphis gateway to that section.

So suddenly did the rise come in the section of Arkansas across the river from Memphis after the St. Francis levee broke at Trices Landing that two passenger trains were caught between the washed out points and are now surrounded by water. On each train are about 75 passengers and crews, and tonight over 100 of these will remain on the trains with no prospect of being taken off until tomorrow or later. By taking risks several handcars succeeded in reaching the water bound trains today and about 50 passengers were brought to this city. The remainder refused to attempt to return.

Claims He Is Innocent

Charged With Poisoning, Colored Doctor Protests From His Cell.

Philadelphia, March 18.—From his cell in the central police station George Hossey, who is accused of conspiring to poison Will Dana, has given out a declaration of innocence. He says:

"What has come out about my killing or poisoning people is untrue in every respect, and I want to contradict it. I understand they are trying to get evidence against me, but they cannot do it, because I did not do it."

Eleve druggists have been examined in the district attorney's office. The declaration by Frederick Shoyer, assistant district attorney, that detectives have found where Mr. and Mrs. Williams obtained arsenic is thought to have some relation to the Hossey case. It is now known that the search for evidence in the Williams child murder case unearthed Hossey.

Some of the authorities apparently see some significance in the connection of a couple of spiritualists with both Mr. and Mrs. Williams and Mrs. Dana.

RUGBY TRIUMPHANT.

Black Belt President

Mississippi Senator Directs Hot Shot At Roosevelt In Speech On the Negro Question.

CUBAN TREATY WILL BE VOTED

Every Effort Will Be Made Today to Save Measure Which Is Threatened.

Washington, March 18.—Before adjourning at 7 o'clock tonight the senate entered into an unanimous agreement to vote on the Cuban reciprocity treaty at 8 o'clock tomorrow. The executive session covered six hours and blew to the growth of the beet sugar claims of the treaty.

McEnery, of Louisiana, said that the admission of Cuban sugar at reduced rates would prove as severe a blow to the growth of the beet sugar industry as it would to the cane sugar production of Louisiana and Texas. He said practically the entire population of Louisiana would be affected by an approval of the treaty.

The race question was again discussed in the senate today. Money, of Mississippi, spoke for two hours, his remarks having a direct reference to the action of the president in closing the Indiana postoffice.

He delivered himself of some severe strictures on the president, stating in the course of his remarks that Mr.

Roosevelt was not president of America, but president of the black belt. At times he was closely interrogated by Foraker and Spooner.

He declared that of all the appointments ever made in Mississippi, none had ever given such general disgust as those made by this administration. There had been raised the question of the social equality of the negro, but there never could possibly be any social equality between the two races. "There is race prejudice in the south," he said, "and thank God there is."

"Would you disfranchise the negro as to voting," asked Foraker, "and if so, should that not be taken into account in fixing representation in congress?"

"That is another question," said Money. "It is the feeling in the south that no colored man, no matter what his qualifications may be, shall hold a federal office."

It is said at the state department that the sharpest kind of work will be required to save the treaty from total failure, if it is ratified by the senate with amendments as proposed. The slightest amendments will require the convention again to be ratified by the Cuban congress and the time allowed for an exchange of ratifications expires on the 31st inst. If there is any failure on this point a new treaty will have to be drawn.
