KILLED BY AUTOMOBILE

Chaffeur Narrowly Escaped Death at the Hands of Mob of Angry Witnesses.

WOMAN WALKED BEFORE CAR

Police Used Clubs to Rescue the Unconscious Driver From Countrymen Intent on Revenge.

New York, Nov. 11.—The timely arrival of a squad of police has probably saved the life of William Vanderheyden, a chaffeur whose electric brougham had run down and killed an unknown Italian woman in Seventh avenue at the Twenty Ninth street crossing. The chaffeur was attacked by a big crowd who witnessed the accident. He was beaten down, the clothes were torn from his body, and when the police arrived he was unconscious. Vanderheyden was carrying a couple, said to have been a wealthy Philadelphia lawyer and his wife to a down town hotel. The brougham was running at good speed and the woman walked directly before it. She was hurled some distance and the heavy machine, its speed unchecked, ran over her body.

The chaffeur had expected that the woman would stop but she apparently did not realize her danger until the machine was only a few feet away. Its wheels were quickly reversed but the pavement was wet and they failed to hold and Vanderheyden made an attempt to catch the woman by leaning over the front of the car but to no purpose. He was quickly attacked by hundreds of men and boys and beaten to the ground. The police soon arrived but had to use their clubs freely to disperse the angry crowd, while the excitement was at its height the couple in the brougham disappeared.

Prominent Dead.
New London, Conn., Nov. 11.—Ex-Congressman Augustus Brandegone.

ex-mayor and one of the leading citizens of New London, is dead at the age of 76. His son is now a member of congress.

ON FRIENDLY ISLAND.

Shipwrecked Sailors Have Robinson Crusoe Experience.

Sydney, Nov. 11.—After having been given up for lost, the eight missing men of the British steamer Aigburth, which was wrecked last July on an uncharted rock midway between New Guinea and New Britain, arrived at Brisbane recently safe and sound on board the German steamship Prints Sigismund.

The men who landed had experiences such as seldom fall to the lot of shipwrecked mariners. After a tempestuous voyage they ran their boat ashore at Aramit island, and to their surprise were received with the greatest hospitality by the natives, who provided them with the best food and shelter they could afford.

So amicable became the relations between the castaways and the islanders that the latter entreated their friends to stay with them for good.

Eventually a passing sloop anchored off the island and offered to take the whites on board, but, according to the captain, several of the Aigburth's crew required much persuasion before they would consent to leave, and the natives only allowed them to depart with the greatest reluctance.

Some of the other castaways fared less agreeably. The chief officer's boat sighted an island, and the men went ashore to fill their water casks, only to be confronted by a mob of savages in full war paint, armed with spears and clubs.

One of the crew flourished an empty revolver, and eventually the party got away unharmed.

GOLDEN EAGLE STRIKE IS RICH.

Prospecting on Flint Creek Receives Stimulus.

Anaconda, Nov. 11.—John A. Wegener and Herman Moen, owners of the Golden Eagle mines on Flint creek, have about 10 tons of rich ore sacked and ready for shipment. There is a great deal more in sight, which will be hurried out of the camp at once.

The strike at the Golden Eagle is stupendous. Some of the ore goes \$50,000 to the ton. In fact, it was so rich that it could not be sampled. The greater portion of the ore in the tunnel goes from \$350 to \$500 a ton, and it is said that there is apparently no end to this.

As a bonanza mine the Golden Eagle takes the lead over anything ever discovered in that portion of the state.

The discovery at the Golden Eagle has stimulated prospecting and development work mightily. Many men have gone to Flint creek to look at the strike and have come away amazed at the richness of the ore.

A number of Anacondans are interested in mining property adjoining the Golden Eagle, or close to it.

COLORADO MOSTLY REPUBLICAN.

Democrats Elect Governor and Will Control Senate.

Denver, Nov. 11.—The News (democratic) today says:

While the returns on the vote for state officers apart from governor are far from complete, the News has compiled tables that seem to show the election of the entire republican state ticket, except Peabody, and of the three republican congressmen. A considerable number of counties are estimated on the best possible advice and there is a chance that Mrs. Grenfell, democratic candidate for superintendent of public instruction, may pull through on the scratch vote in her favor.

The state senate is democratic, by a good majority, but the complexion of the house is in doubt.

WANT EIGHT HOUR DAY.

Chicago Anarchists Meeting Not Very Enthusiastic.

New York, Nov. 11.—About 500 persons calling themselves anarchists have assembled in an east side hall to commemorate the death of the Haymarket rioters in Chicago. Policemen were present and the chairman was told that if any incendiary speeches were made the meeting would be closed. The chairman declared this to be proof that liberty is dead in America. Several other speeches were made including one by a well known woman agitator who bewailed the lack of interest and the falling off in attendance at the anarchist meeting.

International Six Day Race.

New York, Nov. 11.—Nearly a dozen countries will be represented this year in the annual six day bicycle race at Madison square garden. The race will begin at 12:30 A. M. December 5 and end on the night of December 10.

SEES A ROSY VISION.

Member of Hague Tribunal Looks for End of Wars in Near Future.

New York Nov. 11.—Ex-Minister to Turkey Oscar S. Strauss, a member of The Hague tribunal, expresses the belief that a sudden termination of hostilities in the far east is possible in the near future.

"I have long had the impression," he said, "that we will wake up some morning and find that through the good offices of Great Britain, with the tacit consent of the signatory powers to the treaty of Berlin, an arrangement has been agreed upon by which the far eastern questions have been settled by one stroke. That is to say, Russia will have come to an agreement with Great Britain, and secondarily with the signatory powers, for having free access to the sea through the Dardanelle in return for which a permanent adjustment of the Afghan boundary and Great Britain's domination of the Persian gulf will be granted, and that in the far east Japan's sphere of influence will be recognized in Corea, while Manchuria, with certain rights to Japan secured, will revert to China. This done, the peace of the world will be insured certainly for our generation, and by the end of that time, the nations will have become so accustomed to availing themselves of The Hague tribunal that wars will be largely eliminated."

LINERS ARE FLOATING HOTELS.

Newest German Ships Have Conveniences of a Palace.

New York, Nov. 11.—Floating hotels on the European plan, with Turkish bath and elevator attachments, are about what the new monster ships of the Hamburg-American line, the Kaiserin Augusta Victoria and the America, are to be. Both vessels are now in course of construction, the former at Stettin and the latter at Belfast.

Each of the ships is to have a grill room of the proportions of a modern restaurant. Passengers may dine when they please and order luncheons or dinners for friends who may visit them on board.

Passenger elevators will run through all five "stories," as the decks might properly be called. Each ship will have a large Turkish bath and a gymnasium. The time of the ships between this port and Plymouth or Cherbourg is expected to be about seven and one-half days.

The Kaiserin will be 705 feet long, 77 feet beam and 53 feet deep. She will have a cargo capacity of 16,000 tons, will carry 609 first cabin passengers, 300 second cabin, 250 third-class and 2139 steerage. The America will be slightly smaller.

MONASTERY IN IDAHO.

Institution is to Be Under the Supervision of Bishop Glorieux.

Boise, Idaho, Nov. 11.—Two fathers of the Benedictine Brotherhood of the Catholic church are expected to arrive here soon from Missouri for the purpose of establishing a monastery in this state. The institution, which is to be under the supervision of Bishop Glorieux, will be operated upon a small scale at first, growing gradually as the opportunities for its usefulness increase. It is to be located near the town of Cottonwood, in Idaho county.

The site of the proposed monastery in the central part of the state is declared to be an ideal one. The buildings will be surrounded by waving fields of grain cultivated by the fathers, by means of which they will sustain themselves while doing the work of the church to which they have taken vows. The country is new at this time, but is growing rapidly and the value of the monastery property is expected to steadily increase as the years go by.

Severe Earthquake in Chile.

New York, Nov. 11.—Severe earthquakes have been felt in the northern provinces, says a Herald dispatch from Valparaiso de Chile. Many houses were damaged in Tacna and Arica. In Negeritis several houses were thrown down. Four men were injured by falling walls.

DISCRIMINATING LADIES.

Enjoy Using Herpicide on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpicide speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpicide effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpicide stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
