### Investigating Board Wants Attorney Hamilton.

### M'CALL TO STAND GOOD

### President of New York Life Offers to Pay Lawyers Shortage.

### HYDE MAY SPRING SENSATION

### Statements of an Entirely New and Interesting Character Looked for When Equitable Official Gets on the Stand Before the Investigation Commission.

New York, Nov. 13.—President McCall, of the New York Life, was called before the Armstrong Board of Investigation today, and peremptorily required by the committee to order the return from Europe, of Lawyer Andrew Hamilton, who had charge of the Legislative matters of the New York Life. McCall was further ordered to demand an accounting from Hamilton, for the money expended by him and the balance he owes the company.

McCall denied it was the policy of the company to have Hamilton remain abroad until the investigation had been concluded and said, on the other hand, he would like very much to have Hamilton return.

McCall to Make Good. In replying to Hughes, McCall gave Hughes a copy of the statement to the trustees of the company in which McCall promised to pay the company \$235,000 by December 15th, if Hamilton did not.

Another interesting line of examination, which was interrupted by the adjournment for the day, was that of John McGuinness, an employee of the Equitable. He produced memoranda containing instructions from Thomas D. Jordan, to A. C. Fields, relative to the killing or assisting in the passage of every bill introduced in the Legislature affecting the interest of the insurance company or any of its officers. President Hegeman was re-called today to testify regarding the routine business of the Metropolitan Company. It was also brought out by several witnesses that Hegeman had received loans under the market, because of the volume of business transactions by him.

### SENSATION ANTICIPATED.

### Statements of Interesting Character from James Hazen Hyde.

New York, Nov. 13.—Statements of an entirely new and interesting character are looked for, says the Tribune, when James Hazen Hyde takes the witness stand before the Legislative Insurance Committee this week. Despite the nature of the Hendricks and Frick reports and the many disclosures that

### STOOD ON HEAD TO LIVE

The Equitable witnesses will include likewise Senator Chauncey M. Depew, General Louis Fitzgerald, Edward H. Harriman, Gage E. Tarbell, and George T. Wilson. Apparently the committee is still unable to discover the whereabouts of Al Fields, and Thomas D. Jordan, the ex-controller of the Equitable. Mr. Fields by last accounts was in California.

## CHINA IS WARNED

### Must Cease Violent Agitation Against the Boycott.

### ADMINISTRATION CONCERNED

### Rear Admiral Train Proceeds With Men-of-War to Scene of Recent Massacre to Impress the Natives—Strong Force Being Collected in Vicinity of Canton.

Chicago, Nov. 13.—A dispatch from Washington says that more concern is felt by the administration regarding the general situation of affairs in China than is understood by the American people.

In spite of the assurance of Sir Chan-ting Liang-Cheng, the Chinese Minister, gave in his speech at Chicago Saturday night, that his Government and its subjects were "naturally most friendly inclined" toward Americans and their interests, Secretary Root has deemed it advisable to warn the authorities at Peking against further propaganda, such as that which was observed during the boycott agitation.

To impress the natives of the Southern provinces of Kwantung, where five American missionaries were murdered some days ago, Rear Admiral Train, commander-in-chief of the Asiatic fleet, is collecting a strong force in the vicinity of Canton.

He called the State Department Saturday that he had left Shanghai with the battleship Ohio and the transport General Alva, which has marines aboard.

A general uprising against foreigners such as occurred during the Boxer outbreak, is not apprehended. But the boycott movement, initiated last summer, has gained a new impetus, and it has been found impossible to check it.

### ESCAPE FROM ILLAMOOK BEACH.

Tillamook, Nov. 13.—An opportune wind was blowing from the north on this morning, the vessel being able to get out to sea safely after having been forced to fly signals of distress that brought no aid because of the roughness of the bar. While the vessel, which appeared to be a four-masted schooner, did not come sufficiently close to shore to enable her name to be described, she is supposed to have been one of the numerous boats plying between Portland and San Francisco.

## POLES HAVE SYMPATHY OF RUSSIAN PEOPLE

### DECLARATION OF MARTIAL LAW IS DENOUNCED

### League of Leagues Adopts Resolution Condemning Proclamation as Illegal Measure Against Polish Emancipation Movement.

### COERCIVE MEASURES OF SUPPRESSION USUALLY FAVORED

### But in the Present State of Public Opinion It Will Likely Create a Bad Impression, and Is Regarded as an Indication of Bad Faith—If Manifesto Can Be Suspended in Poland It Can Also Be Suspended in Russia, Declare the Angry Russians—Deprivations of the "Black Hundred" Still Feared.

St. Petersburg, Nov. 14.—The League of Leagues has adopted a resolution condemning the proclamation of martial law in Poland, as an illegal measure directed against the Polish emancipation movement.

The Ruskoye Slovo prints a dispatch from Warsaw, describing the conversation which Governor Scallon had with a deputation of prominent Poles, during which the Governor distinctly announced he would not allow the organization of the Municipal Militia. Moreover, he added, he would neither remove the troops from the city nor streets and warned the deputation that he was prepared to deal with the situation, should the agitation he communicated to the masses.

Russians Not Apt to Sympathize. Under ordinary circumstances, in view of past experiences with Poland, the Russian people would be apt to sympathize with the coercive measures for the suppression of the nationalist movement in Poland, but in the present state of public opinion, the coercion is more likely to create a bad impression, especially, as many liberals have immediately greeted the proclamation, declaring martial law with charges of bad faith.

They assert that if the Government can suspend reform manifestos in Poland, for an indefinite term by the imperial ukase, the aristocracy can likewise suspend it through the whole of Russia.

### Suppression Forced by Bayonet.

On the other hand, according to Government officials, if the Government allows the Poles to continue the present agitation, they will inevitably force the Government to suppress the movement with bayonets, which the Government desires to avoid. If Poland's demands for autonomy is yielded to, the same demand would cause the surrender of the Baltic provinces and perhaps, Caucasus, and later all the alien races, which so de-centralize the power of the Empire, and its disintegration would then be inevitable.

Private and reliable reports from Warsaw say that all parties are joining the Nationalist movement, following the tactics as of Finland, for complete strike so long as the attitude of passive re-

sistance continues, the issue will be one of long endurance.

### Poles May Provoke Civil War.

There is danger that the Poles will provoke active measures, which will mean nothing short of civil war. It would be extremely difficult under the present circumstances to attempt to withdraw the troops from European Russia. The number of troops in Poland, however, is sufficient to cope with the situation.

Disquieting reports of the progress of agrarian disorders were received today. The military authorities are rushing troops and machine guns into the affected areas. The inhabitants of Karsk and Tugansky are organizing for the protection of their respective towns. The village of Balanda in the Government of Saratoff, has been fired by the peasants.

### Still Fear "Black Hundred."

Fears of a wholesale pillage and murder of the Jews and "Intelligencia" by the "Black Hundred" have not entirely disappeared, although the strictest precautions are taken against such probable outbreaks. Several murders occurred here at night.

Many servants have left work, announcing that work is no longer necessary, as everybody is now on an equality and would receive Government pensions.

An eminent diplomat said today: "The difficulties confronting Witte are enormous and would overawe a man of less dominant will power and capacity. His task is almost superhuman, but I do not regard it as impossible."

### ATTEMPT TO BLOW UP RAILROAD

### Dynamite and Infernal Machine Discovered in Poland.

Warsaw, Nov. 14.—In consequence of the discovery of plots to blow up the St. Petersburg & Berlin railroad, all the railroads in Russian Poland are now guarded by the military.

The police today discovered the line between Warsaw and Tomso, to be mined. Powerful charges of dynamite were placed in the underground chamber, to be exploded by the first passing train.

A short distance on the other side of Warsaw an infernal machine exploded before the arrival of a train.

New York, Nov. 13.—At a meeting held tonight in the office of Former Judge Parker, at which were present twelve attorneys all of whom have been retained to represent Mayor McClellan tomorrow, when the Board of Canvassers meet, it was decided to rely entirely on the existing election deci-

sions as recorded in the statutes. Judge Parker pointed out that there was only one question involved, and that was covered by a decision of the Court of Appeals, written by himself. He said it was a dangerous practice to open ballot boxes, and in his opinion, not within the law.

Y., yesterday bearing with them the papers necessary for the extradition of William Howard and Louis H. Crawford, who are under arrest in New York City charged with complicity in the death of Susan Geary, the victim of the suit case tragedy. The Boston officials will present the requisition to Governor Higgins this morning and will probably start for New York in the afternoon, returning to Boston with the prisoners tomorrow.

### DINNER AND FIFTEEN BEERS

### Over Two Thousand Sailors Do Coney Island and Have the Time of Their Lives, While Their Officers Are Given a Ball on Man-of-War Drake.

New York, Nov. 13.—The famous statement that blood is thicker than water has never found a more impressive expression than tonight at the dinner at the Bowery, on Coney Island, which the enlisted men of the First squadron of the United States Atlantic fleet, gave the English, enlisted in the second cruiser squadron of the English navy, commanded by Prince Louis.

The English and American sailors assembled on the flagships this afternoon and boarded three steamers which landed them at the Steeplechase pier at 6:30 o'clock.

From there they marched to the pavilion, receiving a noisy welcome en route. Twenty-five hundred sailors took seats, the British and American sailors alternating, without the slightest confusion. Fifteen Beers Apiece.

By 10 o'clock the fifteen rounds of beer which each sailor received had been disposed of, and the men started out to do Coney Island. At midnight the various attractions were doing a mid-summer business and the 2500 sailors were having the time of their lives.

Boats will come alongside Steeplechase pier tomorrow morning at 6 o'clock to take the banqueters to their respective ships.

The dinner tonight is in return for the entertainment which the American squadron received, when in English waters some years ago. While the men were made merry at Coney Island, the warrant officers of the British squadron were entertained by warrant officers of the American ships, at a ball on the Drake.

### TALKS TO ENGLISH JACKIES.

New York, Nov. 13.—Miss Helen Miller Gould presided yesterday at a special sailors service held in the naval branch of the Young Men's Christian Association in Brooklyn and spoke words of welcome from the platform to about 200 bluejackets from the British squadron now in the North river and about 600 from the American fleet.

### Russian Generals Sent From Tiflis to Suppress the Insurrection.

### INSURGENTS 24,000 STRONG

### Bloodshed and Insurrection at Vladivostok and Foreign Residents Flee to the Warships for Protection—Cruiser Minneapolis Ordered to Cronstadt.

London, Nov. 12.—The St. Petersburg correspondent of the Daily Mail says that 24,000 Georgians, armed with modern rifles, hold Georgia, (in Trans-Caucasia), despite the three important Russian forces converging thereon. Georgia has been isolated for many days, the dispatch adds.

There is no confirmation from any source of the correspondent's sensational story. A dispatch from St. Petersburg to Reuter's Telegram Company, dealing generally with the pacification of the province, gives a report from Tiflis, that Generals Malana and Veidenbaum have been sent to Georgia to re-establish order.

The Shanghai correspondent of the Morning Post reports that blood has been shed in an insurrection at Vladivostok and that foreign residents are asking the warships for protection.

The Lisbon correspondent of the Standard says the United States cruiser Minneapolis has been ordered to Cronstadt for the protection of Americans there.

### AIDES-DE-CAMP IN CHARGE

### Armed With Dictatorship Powers to Restore Order.

St. Petersburg, Tuesday, Nov. 14.—For the purpose of restoring order and public security in the provinces chiefly affected by the agrarian disorders, it has been decided to send to the provinces of Saratoff, Cherrignigoff and Tamboff, aides-de-camp of the Emperor, with almost dictatorial powers.

They will not only have power to report directly to the Emperor, but also to supersede all local officials, and take over the complete control of affairs. The instructions to the aides, intrusts the direction of all troops and police subordinate to them, and all organs of the Government and departments of the judiciary, directs them to discharge officials at their own discretion, arrest all persons considered dangerous to the public safety and take other measures that may be deemed advisable.
