WEATHER.

Western Oregon and Washington—Showers.
Eastern Oregon and Washington—Showers and thunder storms.

NOW THEN, GET TOGETHER!

Astoria is all ready to take up the Fourth of July celebration, the regatta work, that seawall proposition, the matter of the new hotel, and any other good thing that needs attention. She has time to attend to her commercial needs now and the sooner she gets to work the better it will be for her and the propositions awaiting treatment. She will not be bothered with politics (except a small by-election next winter), for eighteen months to come, and if she doesn't do something valuable and effective in that years and a half, she is not entitled to succeed at anything. If she does one-half that is cut out for her to do, and the Chinook gets to work on the bar, there ought to be good times here for years to come.

HONORS ARE EVEN.

The French authorities are raising an extraordinary howl because one of their emissaries to this country has reported that some of the Chicago pork sausage packers ground up an occasional workman, who, by accident, fell into the grinding machinery, and passed the stuff up to the markets of the country. The only difference we can see between the Chicago and the Paris packer, is that the former is a whit less candid than the Frenchman, in heralding his ingredients, since the latter packs and peddles desiccated cat, hashed horse and boneless dog under flaring labels and conspicuous ads. The difference between the goods is, apparently, a mere matter of hair, and the extreme fastidiousness of certain patrons.

"WHITE-WINGED PEACE."

The turmoil of the election is past. The citizens of Oregon, of Clatsop and of Astoria are at liberty to take up their current schemes of enterprise and development that have lain in abeyance for the past eight weeks and may initiate such other plans as appear opportune and possible. There is nothing of absorbing concern now to further hinder their progress, and the harsh edges left by the campaign may be the sooner and better smoothed down by the ameliorating effects of communal activities in which we can all take a hand, and not and think in unison, for the good of the whole.

FAME'S PATHWAY.

Lewis Mann of Bryant's Pond, Me., is said to be the largest individual maker of clothes in the world. He started with a capital of \$400, and his factory was a deserted mill.

Two soldiers have been detailed to watch Norway's new crown prince for otherwise this lad, three years old, might be kissed to death by the crows in the parks where he takes his outings.

Henry Broadhurst, the senior member for Leicester, who is retiring from parliament on account of ill health, was the first workingman to become a member of a British ministry. He was under secretary of the home department in the liberal government of 1886.

Sarsate, the world-renowned violinist, has taken his instrument all over the world. It has been the companion of the 40 years of his manhood. "Sarsate, my son, wed thy violin, but never a woman," is said to have been the advice which was given him with his first prize at the Paris Conservatoire, and Sarsate has been true to it.

Henry Schumann-Heink, son of Madame Schumann-Heink, the opera singer, has entered the Cramps Shipbuilding Company, with the idea of specializing in some of the mechanical branches of shipbuilding. He is 23 years old, and has served in the Germany army for a year. He hopes to enter the navy of the United States eventually.

In high mountains there is no state to compare with Colorado. She can claim 407 peaks of an altitude of more than 10,000 feet, 295 of more than 11,000 feet, 238 of more than 12,000, 149 of more than 13,000, and 33 of more than 14,000.

In these days of increasing use of concrete for building purposes, it is interesting to recall the fact that the Pantheon, in Rome, about 2000 years

old, is covered by a dome over 42 feet in diameter, which is cast in concrete in one solid mass.

The water in coal mines is usually acid, and when it comes in contact with electric lines it forms salt of copper. These salts rapidly disintegrate the copper wire. They also interfere with the working of the insulators. Hence it is necessary, wherever electric wires are used in coal mines, to keep them away from contact with water.

A beautiful green shade of gold which is often used in making fine jewelry is the result of an alloy consisting of five parts of silver and nineteen parts of pure gold.

Australia possesses a larger number of churches in proportion to the number of its inhabitants than any other country in the world. There are 20 churches to every 100,000 people in that country, England has only 141 and Russia about fifty-five.

As a rule the statesman who jollies the public with eloquent reiteration of Lincoln's observation that you can't fool all the people all the time is merely desirous of fooling a majority of them for the present.

Items in the first great athletic meeting held in China, which took place at Canton, were arithmetic races. Pupils from schools carried slates and pencils, and in the course of the race they encountered a blackboard containing a sum to be solved. The boys were lined up as they reached the goal, and those whose calculations were wrong were then eliminated. The first three left in the line were counted winners.

The first place of worship in western Australia was unique in two respects—the materials of which it was built and also the several purposes to which it was devoted. This remarkable building was made at Perth by soldiers, shortly after their arrival in 1829, and was composed almost entirely of bulrushes. In addition to its uses on Sundays for divine worship, it occasionally served as an amateur theatre during the week and during the whole time as a barracks.

As a wheat-shipping port Portland ranks third in the United States, being surpassed only by New York and Puget Sound. For the ten months ending with April, New York exported 6,612,999 bushels, Puget Sound, including Tacoma, Seattle and Everett, as well as other points on the Sound, shipped out 7,748,300 bushels. Portland in that period has to her shipping credit 5,658,103 bushels. If Puget Sound shipping points were segregated Portland would be second.

The matron of a Vermont house of correction is out with the statement that a woman, once she has fallen, never reforms, and that while in prison she never manifests the least disposition towards better things, like improving their imprisonment by learning and bettering their conditions for future years. There is a vast difference, says that matron, between the course of men and women who are imprisoned, for the men as a general thing are anxious to improve their mental condition when serving time. This shows rather a social contrast that most people will not believe without proof, yet it is true in a large majority of cases.

WOODBURN YOUTH SHOT.

WOODBURN, Ore., June 4.—James, the 15-year-old son of Mailcarrier W. G. Walker was accidentally shot and killed this morning. The accident occurred at Oscar Mahler's onion ranch, where he was working, the charge of a muzzle-loading gun entering his right lung.

EXECUTE EIGHT MEN

Mexican Soldiers Shoot Down Riot Leaders.

THE GOVERNMENT IS CURSED

Doomed Men Just Before They Are Shot Call Down Maledictions Upon the Mexican Government—Much Property Destroyed.

LOS ANGELES, June 4.—A special dispatch from Douglas, Ariz., to the Herald, reports the execution of eight leaders of the Cananea riots yesterday morning by Colonel Kosterlitzky. The men were lined up before a stone wall and killed by a volley from the rifles of the rurales under the command of Kosterlitzky, who, it is reported, cried out as the shots were fired:

"Viva le Mexico; so perish all traitors." Without fear the doomed men replied as one man:

"To ——— with the government; away with Mexico."

The special further states that the arrival of Kosterlitzky with his troops had more to do with the quelling of the riot than the presence of American soldiers on the scene. It also states that Cananea did not burn and is not burning. The pecuniary loss of the Cananea Consolidated Mining Company is estimated at \$500,000, and work will be resumed within a week.

"THE MILWAUKEE"

"Pioneer Limited," St. Paul to Chicago; "Overland Limited," Omaha to Chicago; "Southwest Limited," Kansas City to Chicago.

No train in the service of any railroad in the world equals in equipment that of the Chicago, Milwaukee & St. Paul Ry. They own and operate their own sleeping and dining cars and give their patrons an excellence of service not obtainable elsewhere.

Berths in their sleepers are longer higher and wider than in similar cars on any other line. They protect their trains by the Block System. H. S. Rowe, General Agent, 134 Third street, Portland, Ore.

There's little room in this great world of ours for the "Fat Woman." She's a hindrance to herself in street cars, flats, elevators; but what can she do, poor thing—take Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Frank Hart, Druggist.

COULD NOT REST NIGHT OR DAY

With Irritating Skin Humor—Whole Body Affected—Scalp Itched All the Time and Hair Began to Fall Out—Wonderful Result From

APPLICATION OF CUTICURA REMEDIES

"I am never without Cuticura Soap and Cuticura Ointment since I tried them last summer. About the latter part of July my whole body began to itch. I did not take much notice of it at first, but it began to get worse all the time, and then I began to get uneasy and tried all kinds of baths and other remedies that were recommended for skin humors; but I became worse all the time. My hair began to fall out and my scalp itched all the time. Especially at night, just as soon as I would get in bed and get warm, my whole body would begin to itch and my finger nails would keep it irritated, and it was not long before I could not rest night or day. A friend asked me to try the Cuticura Remedies, and I did, and the first application helped me wonderfully. For about four weeks I would take a hot bath every night and then apply the Cuticura Ointment to my whole body; and I kept getting better, and by the time I used four boxes of Cuticura I was entirely cured, and my hair stopped falling out, but I continue to use the Cuticura on my scalp. It keeps all dandruff out and scalp is always clean. I always use Cuticura Ointment on my face after shaving, and have found nothing to equal it. I will never be without it." D. E. Blankenship, 319 N. Del. St., Indianapolis, Ind. Oct. 27, 1905.

RECOMMENDED TO ALL MOTHERS

"I have used Cuticura Ointment for chafing of infants, and as they grow older all skin diseases were given treatment with that and the Cuticura Soap. I never found it necessary to call a doctor, as these Remedies are a sure cure, if used as directed. I am glad to recommend them to all mothers." Sincerely yours, Mrs. F. A. Kennard, June 21, 1905. St. Paul Park, Minn. Cuticura Soap, Ointment, and Pills are sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston. Mailed Free, "How to Care for the Skin."

VON BUELOW MUCH IMPROVED.

Chancellor Has No Thought of Resigning Office.

BERLIN, June 4.—The semi-official South German Reichs-correspondenz deals in ironical fashion with those who have been circulating reports of an impending change in the chancellorship "which the emperor does not want, and which the condition of Prince Buelow does not render necessary." The chancellor is described as being stronger and more vigorous than he was before the fainting fit. He "is now occupying himself with many matters, but not with the thought of resigning. The hope is expressed that this intimation will be joyful news to all patriots, "including those anxious ones whose loving care had antedated the close of a chancellor's career."

ASSASSINATION IS DENIED.

Abeddin Pasha Probably Died of Heart Failure.

CONSTANTINOPLE, June 4.—The sudden death of Abeddin Pasha, vali of the archipelago, gave rise to a story that he has been assassinated. The story is improbable on the face of it, as the late vali was not known to have enemies and it now seems certain that he died from failure of the heart, while sitting in the room of one of the secretaries of the palace. He was an old man, and had been in failing health for some time past. His death removes an interesting figure.

Following the Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired Commissary Sergeant U. S. A., of Rural Route 1, Concord, N. H., says "I was two years in Cuba and two years in the Philippines, and being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at Charles Rogers, druggist. Price 50c and \$1.00. ALL SICK WOMEN SHOULD READ MRS. FOX'S LETTER

In All Parts of the United States Lydia E. Pinkham's Vegetable Compound Has Effected Similar Cures.

Many wonderful cures of female ills are continually coming to light which have been brought about by Lydia E. Pinkham's Vegetable Compound, and

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge. The present Mrs. Pinkham has for twenty-five years made a study of the ills of her sex; she has consulted with and advised thousands of suffering women, who to-day owe not only their health but even life to her helpful advice. Mrs. Fannie D. Fox, of 7 Chestnut Street, Bradford, Pa., writes:

"I suffered for a long time with female trouble, and finally was told by my physician that I had a tumor. I did not want to submit to an operation, so wrote you for advice. I received your letter and did as you told me, and to-day I am completely cured. My doctor says the tumor has disappeared, and I am once more a well woman. I believe Lydia E. Pinkham's Vegetable Compound is the best medicine in the world."

The testimonials which we are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and to thousands of women has proved to be more precious than gold.
