

ALONG THE WHARVES

Muskoka Leaves Out for Her Long Voyage.

AISIE IS DOWN AND READY

Costa Rica In From Bay City Last Night—Towage On the River Yesterday—Melanope Out For North-Porter Arrives.

The steamship Columbia will not be back here before Wednesday next, the delay being necessary to perfect the new schedule this line is to follow beginning in April. The trip after this she will be down from Portland during the afternoon and leave out in the daytime, both ways, instead of early morning and after night.

The Melanope went to sea and Royal Roads, yesterday noon, on the lines of the steamer Pilot. She will be sorely missed in the lower harbor by all bay men, with whom she has become one of the fixed day-marks of the port in that neighborhood.

The French ship Aisie came down den for Europe, arrived down yesterday morning early, and went to sea on the noon flood.

The steamer Coaster arrived, in from San Francisco yesterday noon and went on to the metropolis after staying here long enough to report at the custom house.

The fine oil tank steamer W. S. Porter was among the arrivals here yesterday from the Bay City, and she went on to Portland without any loss of time.

The Costa Rica was sighted off the bar at 4 p. m. yesterday, but did not enter port until late, coming up on the mid-night tide and berthing at the O. R. & N. piers.

The French ship Aisie came down yesterday morning on the hawsers of the Harvest Queen, and is in the lower harbor, awaiting her chance to go to sea, and Europe.

The Harvest Queen returned to the metropolis at noon yesterday with the French ship Bayonne and the schooner Bangor on her hawsers.

The French bark Armen went up to Portland yesterday on the lines of the Oklahoma.

PERSONAL MENTION.

R. A. Carder, of Seattle, is stopping at the Merwyn.

Geo. Butterworth, of St. Paul was transacting business in Astoria yesterday.

Geo. Goebel is in town, from New York.

E. B. Ovelman, of Chicago, was registered at the Occident.

P. G. Coleman and J. H. Doak, of Portland, are visiting in this city.

D. D. Field and wife, of Boise, are in the city presumably to look over the ground with the idea of investing here, if conditions meet with their approval.

E. B. Ostome, who hails from Los Angeles, was in this city yesterday.

A. G. Thompson and J. H. Walker of San Francisco were in Astoria, Friday.

M. N. Adams, of the Astor House, is ill with a severe sore throat.

Mrs. W. S. Kinney has gone to Portland, for a visit.

Senator McGowan, was in Astoria yesterday attending to business interests.

Miss Margaret Taylor has arrived from Portland to spend the Easter Holidays with her parents, Judge and Mrs. F. J. Taylor.

Harry Hoefler Jr., a student of Columbia University at Portland, is spending the Easter vacation at his home in Astoria.

Judge C. J. Trenchard who has been on a business trip to Portland returned home last evening.

A. B. Hammond has resigned as president of the C. & E. and Astoria & Columbia River, Secretary McLeod has taken the action and only the details governing property are being gone over now.

Superintendent McGuire of the A. & C. will have his office in the Union Depot after April 1, together with Auditor Kuettnor; and the A. & C. will be directed by Mr. McGuire under instructions from the Hill officials. The transfer of the properties is expected to be completed this week.

Will Send It North—The people interested in such matters up around Ketchikan, Alaska, have long petitioned the government to establish a gas buoy there to mark the location of Idaho Rick, a dangerous menace to navigation. But the Washington authorities have had to abandon the idea of a gas buoy owing to the fact that the great can could not be filled at any nearer point than Portland, as the Pinch gas is not on the market further north; and in lieu thereof, a white, skeleton buoy has been constructed for duty there, and this has been in the city channel here since last Monday, much to the curiosity of the people along the waterfront. Yesterday it was picked up by the Columbine and taken to the Buoy dock at Tongue Point and will be sent north on the first tender ordered up there.

Worth Strict Attention—It has been credibly reported at this office, that there is a cigar store pretty well east in Alderbrook, where young boys are permitted to congregate in a back room and smoke anything from cigarettes to pipes and cigars, and where even stronger stuff is said to have been introduced on the quiet. The source of the information furnished the Astorian will warrant the immediate scrutiny of the police.

New Power Boat—The launch, L. Hyak built by Wilson Bros., was officially measured Thursday by Deputy Collector Anderson. The boat's measurements are: Length 45.3 ft.; beam 12.5 ft.; depth 3.9 ft.; 13 tons gross tonnage; 9 tons net. A gasoline engine of improved make developing 25 horse power will furnish the motive power. Her future owners will be the Yes Bay, Canning Company of Yes Bay Alaska.

A Splendid Success—The social giving at the home of Mrs. Busey on Thurs day afternoon and evening, last, by the ladies of the W. C. T. U. in behalf of the Astoria Seamen's Friend Society, is one of the brightest events of the current season, and yielded a handsome bit of revenue to the good cause, the attendance being very large both day and night and the contributions generous.

Off For Albany—A. B. Hutchins has been transferred to the auditing department of the Corvallis & Eastern and will have his headquarters at Albany. Mr. Hutchins together with his family will leave for their new home today. That they leave a host of friends here who will regret their departure goes without saying.

Account Approved—Judge C. J. Trenchard yesterday made an order in probate, approving the final account submitted by Administrator Frank Spittle and exonerating his bondsmen.

IN THE CITY CHURCHES.

First Congregational.

Easter Day, Morning service at 11 o'clock, special Easter service with appropriate music, sermon by the pastor, subject: "Easter Hope and Cheer For Sorrowing Ones." Marlin

Why is the Marlin 12 gauge take-down repeating shotgun the best all-around shotgun that money can buy?
 Marlin shotguns are made of the best material obtainable for the purpose. They are strong and sure, and work under all conditions. The breech block and working parts are cut from solid steel drop-forgings; the barrels are of special, rolled steel or of "Special Smokeless Steel."
 The lines of Marlin shotguns are pleasing—the balance is perfect. They pattern perfectly and have wonderful penetration.
 The solid top and side ejection assure safety and comfort. This is the gun you have been needing.
 Send six cents for our catalogue, which explains every Marlin in detail and is full of other valuable gun lore.
