The track-laying crew has started at a point where the new line leaves the old, north of Ilwaco and they will keep at work until they get to the tunnel at Ft. Columbia. The company is straining every effort to complete the line in time for the beach travel but it is thought that the tunnel will not be completed until in July. The dock which the company will build on the eastern terminus will be one of the finest in the country and have two floors. The lower one will be to land freight on and the upper one for passengers and be fixed for handling the largest crowds. It was expected that the road would be changed to a standard gauge but this has not been done, and track now being put down is narrow gauge although standard ties are being put down which will enable them to easily widen it out.

Two of the young ladies and Dave McCrosky dressed in women's attire started out for a walk and the other members of the party telephoned to the jail for an officer, saying that a crazy person was roaming the streets. Officer Twombly responded and on discovering the joke turned the joke upon the jokers by arresting (?) the party and taking them back to the house and making the others of the party dig up bail. As the amount they were able to muster was not quite the required amount, he graciously compromised on a ham sandwich.

They claim negligence on the part of the poundmaster and again ask that the claim be paid.
