BRINGS BRIDE FROM WORK ON THE ILLINOIS MISSOURI WACO RAILROAD

E. A. CLARKE, POPULAR SALESMAN, SPRINGS PLEASANT SURPRISE ON HIS FRIENDS ON RETURN FROM A THREE WEEKS' VACATION.

E. A. Clarke, a popular salesman of the Brownsville Woolen Mills Store, who has been east on his vacation for the past three weeks, arrived in Astoria yesterday at noon with a pleasant surprise for his relatives and to his friends. He brought back a charming bride in the person of Miss Mary Bowman, of Franklin, Mo., having been married in that town more than a week ago. Miss Bowman is the daughter of Mr. and Mrs. W. T. Bowman, of Franklin, her parents being leading citizens of that place. Mr. Clarke is well known in Astoria where he has been located for more than four years. The marriage was the culmination of a romance which commenced in Missouri, before the groom came out to the west. They will make their permanent home in this city. Congratulations were showered up in the happy couple upon their arrival in this city.

TUNNEL UNDER FT. COLUMBIA OVER HALF DONE—HARD TO KEEP A FULL CREW AT WORK.

Work on the extension of the Ilwaco Railway is progressing slowly and it will probably be January 1st before the line is finished to the new terminus opposite Astoria, where the finishing touches are now being put on the dock and warehouse which is one of the finest in the country and fitted up with all the modern appliances for the fast handling of traffic. Work on the tunnel under Ft. Columbia is progressing rapidly and 300 feet of the 800 remains to be bored. Between Ilwaco and Chinook there are several cuts that are giving the men a lot of trouble as the ground is full of springs and it is impossible for teams to work in it so the truck has been laid up to the place and a steam shovel has been put to work. The one great trouble is to keep men at work and there is a steady stream coming and going. For example, there are supposed to be 50 men on the track-laying gang, yet last month over 200 names appear on the pay roll.

TO HAVE WHOLE-SCHOOL BOARD HAS SALE HOUSE MEETING

KANSAS CITY FIRM WANTS TO SPEND SEVENTY-FIVE THOUSAND ON GROCERY CONCERN—SENDING MAN TO INVESTIGATE.

A communication has been received by the Chamber of Commerce from a big wholesale grocery concern in Kansas City, which announces its intention to send a man to look over the field here for a location for a huge wholesale house. The writer proposes to put \$75,000 in the erection and operation of a huge wholesale grocery store at this point to handle the trade of the surrounding territory.

The communication also suggests that if local citizens desire to invest \$25,000 in the concern that it will be agreeable, but that this will not interfere with the firm's plans, if it is impossible to raise that amount.

The letter was one replied to by the Columbia Trust Company, and both Mr. Whyte and Mr. Clarke, appear to be confident that the Kansas City firm means business.

Another communication was received from a Michigan man, asking if there was any possibility of establishing a plaster works here with profit to a company. He states that he has been in the business for years, but would like to change the location of his business and come out west.

Three flattering replies have been received from Germany in answer to an advertisement placed in the leading papers of that country. The letters are in response to the placing of \$100,000 capital in this city or county to great advantage in any line of business. That any answer at all should be received from an advertisement asking for \$100,000 is regarded as satisfactory to some extent, and the writers evince sound interest in this section.

A promoter in Vermont, who has organized several large coal companies, has asked for information regarding the forming of a co-operative deep sea fishing company. He believes that he could make a success of such an organization and all information on the situation here will be forwarded to him.

There are a number of enquiries from people who want to know if there is plenty of good building sand in this district. Numerous other queries from investors, which show flattering interest, are being received and answered by the Chamber of Commerce.

The indications are that from the queries a number of companies and business plants will be organized here within a few months if the letter writers are handled properly. Considering that the advertising campaign has been going on for about five months, the interest aroused in this section in that time is extremely encouraging.

A BIG CLAIM.

Miss Annie Anderson Files Claim Against City For \$10,000 Damages.

J. H. Smith, as attorney for Annie Anderson, filed a claim in the city auditor's office, yesterday, for \$10,000, damages resulting from an accident a month ago. An affidavit was filed, in which the claimant states that she was injured, during the regatta, at the foot of Eleventh, by stepping off an approach leading to the regatta stand. She claims that she was so badly injured that she has been confined to the hospital ever since. She sustained a severe shock to her nervous system, she averts, and suffered bruises and internal injuries. It is not the institution of a suit, but really to protect a claim, which owing to the charter, as it now stands, any claim for damages by accident, on the streets, must be filed within 30 days after the accident occurs.

Several interesting questions will arise over this claim. The full result of these injuries, to Miss Anderson, cannot yet be fully determined, as she is still at the hospital. While her ultimate recovery is looked for, it is impossible, owing to her age, to foresee possible complications. It is for this reason that the amount of damages is placed so high. There is a question as whether the accident happened on city property or on private property. While it is evident that a suit will be commenced, it has not yet been determined who the suit will be against. This will be a matter for future consideration, the filing of the claim at this time being to protect the rights of the injured lady as to the city authorities.

It is reported that a Chicago office force struck because the typewriter ran the office. This is doubtless an error; they struck because the typewriter foolishly permitted them to know that she always runs the office.

MATTERS OF IMPORTANCE ACTED UPON—TRUANT OFFICER ASKED FOR—MORE MONEY FOR NEW SCHOOLS.

The school board held its regular meeting last night. A full board was present, as was, also, Architect Wicks. The minutes of the last regular and the special meetings, were read and approved. A communication from Miss Mary Dealey was received, in which she cited that she had been assigned to 5 B and 6 A classes. She stated that she had for years taught lower grades and was willing to take the 4 and 5 A grades but if retained on the new assignment would resign her position. Superintendent Clark explained his reasons for so assigning Miss Dealey, and, on motion, the matter was referred to Superintendent Clark.

Fisher Bros. Co. presented an order on the board for \$373.96, signed by Charles Verchueren. It was passed over until the payment was due the latter.

The Callender Company presented a \$5.50, for wood, and it was referred to the committee on supplies.

Requisitions for supplies, for Adair and McClure schools, were referred to the committee on supplies.

Several cases were reported of parents being unable, through poverty, to purchase the new books needed, and the matter was referred to the committee on supplies to investigate and act.

Superintendent Clark recommended the appointment of Miss Wunch to the primary department of Alderbrook school and the recommendation was approved.

After considerable discussion over the opening of the Taylor school, which is being delayed by non-completion, it was decided to order the opening of the school on October 14.

A resolution, providing for the contracting of a debt of \$19,000, for additional school facilities, and the purchase of a school lot, was introduced by Director Taylor. The resolution calls for the issuance of interest bearing warrants dated November 1st and payable as follows: First year, \$3000, and \$400 each year for four years. The rate of interest is placed at 5 per cent payable semi-annually. It also calls for bids being advertised for from bona fide residents of the district, and that notice of same be posted in three sections of the city, and advertised in two daily papers. A levy of two mills is made to meet the interest on these warrants. The resolution was passed unanimously. The committee on judiciary was allowed further time, to report on issuing primary certificates.

The superintendent submitted the salary roll of the Portland school department.

Director Welch brought up the matter of the appointment of a truant officer, as mentioned in the Astorian, and moved that the police commission be requested to detail an officer for that purpose. He urged that the appointment be made as soon as possible, and the motion was carried.

The superintendent suggested the procuring of small library cases, for the library books, in each class room, and the matter was referred to the committee on supplies.

The following bills were ordered paid: Eastern Painting & Decorating Co., \$400; City of Astoria, \$2; Lars Aase, \$4.50; Foard & Stokes Hardware Co., \$12.20; Herbert Johnson, \$8; Ross, Higgins & Co., \$15.10; Birch & Jacobson, \$215; Northwest School Furniture Co., \$138.50; Geo. Lindstrom & Co., \$3.65; A. L. Clark, \$150; J. A. Montgomery, \$10; Prael Eigner Trans. Co., \$26.25; Astoria Box Co., \$21; The J. S. Dellinger Co., \$35; Pacific Tel. & Tel. Co., \$4.85; Wilson Bros., \$2500; Jas. W. Welch, \$100. The meeting then adjourned.

PUNCTILIOUS.

A French schooner went ashore at one of the fashionable resorts. When day dawned she was plainly in sight from the beach, the waves breaking over her decks, and the crew clinging to the shrouds. Then the summer residents flocked to the water's edge, where a life-saving crew was working.

"Merely man, why don't you all do something—try to save those poor men? I wonder what they are—" an excited woman gasped, catching a bronzed coast-guard by the ram.

"We are doing all we can, madam," was the hurried reply. "They are French. We have just sent them a line to come ashore."

The lady turned with a look of admiration in her eyes.

"Just think of that, Mary," she said. "And isn't it just like those awfully polite Frenchmen? That man said they had just sent them a line to come ashore. You see, they wouldn't come, though they were about to be drowned, without a formal invitation."—Success Magazine.

There are other things that Senator Foraker would doubtless enjoy more than the suspiciously unanimous indorsement of his course by the Democrats.

The Place To Dine.

Where shall we dine? There should be no question about that. If you have no appetite, but feel that you should dine, drop into the Palace and, if you meet Arthur Smith, ask him to prescribe for you. He'll do it, by laying something tempting before you, and while he does not wish to interfere with physicians, prescribing for dyspepsia, he is in the business to cater to men's stomachs. Try him once and then you will always dine at the Palace.
