TELEPHONE MAIN 661.

THE WEATHER

Western Oregon and Washington—Cloudy; probably showers.

ONE THING AT A TIME.

When a community really desires some one thing and there is a manifest expression of that desire, it were better to utilize the spirit that is active and lively in that particular direction and go after that one thing persistently and bring it in; and this is not in derogation of the wide range of that communities' necessities, for all may be compassed in due time but it is a hunch in direct purpose, "stickability," concentrated effort and singleness of objective, that may perhaps be more productive of real results than the dissipating of the local energies and monies in dozens of separate quests and the consequent losing of them all or most of them.

This community is not like a metropolitan center from which radiates a thousand influences and which holds an adequate reserve of resources, to be invoked and employed simultaneously with ease and success; we are of another class and latitude of people and means; and they should be conserved and applied to the one given thing for which our equipment stands, and that one thing attained, amplifies the impulse and assurance with which we will go after the next. It is a principle worth the trying, at all events.

ASSEMBLY OF GOVERNORS.

President Roosevelt has done another good thing for the nation in calling together the Governors of the 44 States in conference upon the always absorbing question of the "state of the Union," and in asking the leaders of the great organizations of labor, capital, commerce, industry, science and civic progress to meet them for wide, comprehensive and universal advantage. It is exactly and entirely Rooseveltian in concept, and must, a few years hence, become a source of infinite inspiration and practical good to everybody. The assembling, once each year, of the brains, authority and trained-power of the people of the United States cannot fail to be productive of some tremendous strides along the line of popular relief and up-lift; for, in such a gathering, some man, or men, are bound to produce the best that is in them and compel its recognition and adoption as a policy of aggrandizement, of simplification, of relief, of mergence, of popular ascendancy, of profit, of each, and all, the new departures that are to make for the highest march and mark of the country.

We hope the idea of the annual meeting will grow in favor with those in immediate interest as well as with the commonalty, until it shall be included in the accepted and inviolable programs of the day, and become a resort for wise and rational rulings upon the questions and issues next and dearest to the public conscience; a board of arbitrament in the adjustment of the living, challenging, absorbing inquiries and issues that possess the people and upon which they need enlightenment; though they hold the reserved and irradicable prestige of final mandate; in other words, that the great group shall become a clearing-house for the graver problems of the nation, and make their disposition a simpler matter with the people who may look for unimpeachable counsel and get it, at the hands of the men they have raised to the dignities that warrant such an appeal.

If Japan will quit talking about war and agrees to keep the peace the authorities at Washington are ready to guarantee that America will be well represented at the forthcoming Japanese Exposition.

ASTORIANS ARE INTERESTED.

During the next 17 days it were well for all Astorians who possess the franchise to assemble in their minds the bills in referendum that command their first and deepest interest and begin to talk them up, study them and campaign for them. It is an essential part of the duty of an elector to campaign for the best things and people submitted to him; and upon such a hypothesis, our people must get to work for the saving of the salmon industry that has carried the name of Astoria to the ends of the wide world and which supports the thousands of toilers in the trade and conserves the millions it means each year to the industry and those allied to it; they must work for the success of the measure granting \$125,000 to the University of Oregon, primarily, because it is one of the great institutions of the State and must not be permitted to languish nor to suffer degradation in contrast with the other great establishments of the same character all around it and with which it is to be compared in days to come, with honor to Oregon; secondarily, because the sons and daughters of Astoria are to be educated there and fitted for the great careers and successes that are to reflect credit and even glory on the State and city; they must work for the National Guard appropriation bill, as one of the chief elements of development here, in the training of the brawn and brain of the community to the higher purposes of intelligent and able defense of the State and Nation in such hours as shall call for that devoted service, and because there are an even hundred young men grouped here now, ready to take over their share of the popular cause and responsibility, and, again, because Astoria is in favorable light, and line, for the building here of one of the four armories that are provided for in the measure; and because it is altogether a wise and needful measure.

There are other matters that demand the instant and careful review of the Astoria voter, and he must follow up his duty until the last of the men and issues are disposed of as the best dictates of an honest and conscientious citizen shall direct. Get next, everybody, and vote straight and right!

EDITORIAL SALAD

The prosperity man has an easy time in an argument, because the facts are on his side.

In addition to being a good organizer and a persistent pusher President Roosevelt is likewise a philosopher. He is satisfied with two battleships and will be reconciled to a compromise currency bill.

The railroads have announced another increase in the freight rate on fresh meats. Hogs and steers will soon be paying 2 cents a mile for their rides and claiming the privileges of chair cars and Pullman sleepers.

General Funston uses black powder in welcoming the fleet in California because it makes the most noise and most smoke. The noiseless gun has no chance in spectacular ceremony or campaign rallies, but gunshoe politicians prefer it.

Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by Frank Hart and Leading Druggists.

For a burn or scald apply Chamberlain's Salve. It will allay the pain almost instantly and quickly heal the injured parts. For sale by Frank Hart and Leading Druggists.

Bad Attack of Dysentery Cured.

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, he felt confident of being cured, he having used this remedy in the West. He was told that I kept it in stock and lost no time in obtaining it, and was promptly cured," says M. J. Leach, druggist, of Wolcott, Vt. For sale by Frank Hart and Leading Druggists.

GIVEN A PUNCHBOWL.

SAN FRANCISCO, May 14.—The cruiser California will be presented this morning with a gold and onyx punchbowl and lap which have been bought with a fund raised by San Franciscans.

FEDERAL INDICTMENT.

LOS ANGELES, May 14.—J. T. Mullhall, proprietor of the Ship Hotel at Venice has been arrested upon a federal indictment in Minneapolis accusing him of fraudulent uses of the mails. Mullhall is alleged to have operated in several places as a broker who advertised for and procured fruit farm products which he is said to have sold, converting the proceeds to his own use. He is in the county jail.

BRYAN'S DAUGHTER.

Will go on the Stump if Her Father is Nominated.

CHICAGO, May 14.—A dispatch to the Record-Herald from Omaha says: In case W. J. Bryan receives the Democratic nomination his daughter, Mrs. Ruth Bryan Leavitt, will take the stump in Colorado, Wyoming and several other western states and will campaign in her father's interests.

This information was given out in Omaha yesterday by Mayor Dahlman who has just returned from Denver, where he has been with other Democratic national committeemen, completing arrangements for the convention.

Mrs. Leavitt will confine her efforts to women and will only stump those states which have women suffrage laws. She is a forceful and fluent speaker.

Nearly Everybody Winked

It has been a busy two weeks for the grocers. Thousands have registered their winks and as many palates have been delighted by the indescribable goodness of the GENUINE, Kellogg's Toasted Corn Flakes. Too bad the grocers couldn't continue to honor the wink, but the great supply of sample packages gave out.

So now the large full size packages are going like hot cakes. This proves how immensely popular it is with all who tried

Kellogg's

TOASTED CORN FLAKES

But is it any wonder? No other breakfast food has the exquisite flavor and dainty crispness.

The imitators have tried to copy this delicious flavor, but they have failed. So beware of all other so-called corn flakes. Remember the package—ask for Kellogg's and get it.

A large package at all grocers 10c.
