CENSUS DIRECTOR

First Witness Yesterday in Print Paper Investigation

REPLIES TO HERMAN RIDDER

Accuses North of Issuing a False and Misleading Series of Figures Regarding the Print Paper Prices—Figures Taken From Trade Journal

WASHINGTON, May 19.—The taking of evidence was not concluded by the committee investigating the print paper question today and will be resumed tomorrow. A number of independent manufacturers testified today and a great deal of statistical evidence was submitted. Census Director North was the first witness today and appeared to reply to a letter sent by Herman Ridder, president of the American Newspaper Publishers' Association to President Roosevelt and simultaneously given to the press. The letter accused the director of the census with having issued a false and misleading series of figures regarding the print paper prices. North said his figures were taken from the paper trade journal. He declared Ridder ignored parts of his letter and was of the opinion that his figures represented more accurately than did Ridder's prices paid in the open market.

Whooping Cough.

"In February our daughter had the whooping cough. Mr. Lane of Hartland recommended Chamberlain's Cough Remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs. A. Goss, of Durand, Mich. For sale by Frank Hart and Leading Druggists.

In the Police Court—

In the absence of Judge Anderson his honor Mayor Wise presided at the session of the police court yesterday afternoon. One drunk was fined \$5.00 or two days. The other case was one of a brutal assault and as the defendant had put up \$50 for bail and failing to appear on the motion of City Attorney Abercrombie the bail was declared forfeited.

RUEF CASE GONE TO JURY.

Judge's Dooling Charge Consumed an Hour and a Half.

SAN FRANCISCO, May 19.—The Ruef case went to the jury at 9:30 tonight after a day devoted to the closing arguments and instructions of Judge Dooling. At a late hour the jurors were still deliberating without any apparent prospect of a decision being reached tonight. Attorney Chapman for Ruef made the closing argument. He devoted a great part of the time to a criticism of Rudolph Spreckles and Heney and claiming the prosecution was personal on their part.

Heney who closed for the state gave much of his time to analyzing the testimony of Gallagher. Heney concluded at 6 o'clock and the jury went to dinner. At 8 o'clock Judge Dooling began his charge which consumed an hour and a half in delivery. Very few look for a decision tonight nor a report before late tomorrow.

FATALLY SHOT.

DALLAS, Texas, May 19.—Dick Beal, brother of Congressman Jack Beal was shot and killed yesterday and Tom Kent, a bartender, has surrendered to the police.

NO CURRENCY BILL.

WASHINGTON, May 19.—That there will be no currency legislation at this session of Congress is now believed by many of the members to be almost a certain tie. The conferees of the senate and house have held several sessions on the Aldrich-Vreeland bill but are said to have almost lost hope of agreeing and as a result there is a decided sentiment among the conferees and the leaders both branch of congress will let the subject go over to the next session.

KILLED BY FUMES.

SAN FRANCISCO, May 19.—Sulphur fumes during the fumigation of the steamer Ceylon caused the death of E. Leveque, a seaman who with Gorge Schofield had stowed themselves away on the vessel. Schofield narrowly missed the same fate, but managed to make the crew hear him and a port hol burst in so he could breathe. Leveque's body was later found in the mess room.

REVOLVER EXPERTS.

NEW YORK, May 19.—The executive committee of the United States Revolver Association has decided to send a team of four revolver shots to compete in the international teams competitions at the Olympic games to be held in London on July 9. Competitions are being held in different cities throughout the United States at present and second competitions will be held in June for the national selection. The trials are open to every citizen of the United States.

CAPACITY FOR WORK.

WASHINGTON, May 19.—The House today again showed its capacity for work and with adjournment in mind continued the cleaning up process. The conference report on the legislative appropriation bill was agreed to the conference reports on the agricultural and fortification appropriations were received. The two omnibus bills embodying 40 separate measures having to do with public lands and matters in the territories were passed.

SECURITY COMPANY.

To be Organized by First National Bank of New York.

NEW YORK, May 19.—The plans of the First National Bank for the organization of a \$10,000,000 security company which will have power to carry on banking operations other than those specifically provided for in national bank charters, will be put into practical effect following a meeting to be held today at which it is expected the directors of the new company will be chosen. The first security company which he names chosen for the new corporation yesterday filed with the secretary of state of New York, a certificate of increase in its capital from \$10,000 to \$10,000,000 and its charter provisions were also changed to raise the number of directors from 3 to 12.

The First National's plan is similar in many respects to similar arrangements made by several other well known national banks, among them the First National Bank of Chicago. The organization of this new \$10,000,000 corporation here is regarded as the outcome of the very large increase in recent years in the security holdings of the bank. Under the regulation made to the controller of the currency as of February 14, last, the First National reported stocks and bonds and mortgages to a total of \$60,696,651. The great volume of the bank's assets are paid under this head has been one of the distinguishing features of the First National's statement for a long time. The second bank in this city to these holdings is the National City bank, which at the last call reported \$33,741,000 of stocks, bonds and mortgages against the First National's \$60,000,000.

Clothes Economy!

"Benjamin" Young Man's Suit

The 1908 man knows that he can't get something for nothing. And he also knows that

HARRIMAN AND KAHN.

Cases Advanced to Next Term of the Supreme Court of the United States.

WASHINGTON, May 19.—The cases of E. H. Harriman and Otto H. Kahn vs. the Interstate Commerce Commission involving the refusal of Harriman and Kahn to answer questions by the commission in investigating some of the operations of Harriman railways have been advanced to the docket of the supreme court of the United States and their hearing fixed for the first Tuesday in the next term of court.

CAPTAIN SAMUELS DEAD.

NEW YORK, May 19.—Capt. Samuel Samuels, for the last fifteen years president of the Marine Journal and who became famous in the early 50's, when he commanded the Dreadnaught the fastest sailing packet of her time, died at his home in Brooklyn, aged 83 years. In 1835 as commander of the McClellan, he took part in both attacks on Fort Fisher. He was captain of the yacht Henrietta on her way from New York to Southampton against time in 1866-67. He also had charge of the yacht Dauntless in her trans-Atlantic races with the Cambria in 1871 and the Coronet in 1887.

SIR THOMAS LIPTON.

Will Not Race Again for the Cup Unless Rules Are Changed.

NEW YORK, May 19.—Sir Thomas Lipton made a very important declaration in the matter of future America's cup challenge. Dining with a former commodore of an eastern yacht club who is well known to all Americans prominent in the sport a short time ago in London, Sir Thomas said in the most emphatic manner to his New England yachting friend: "I do not ever intend to challenge

against for the America's cup unless the New York Yacht Club rules are so changed that I can take a serviceable sea boat across the Atlantic."

In addition Sir Thomas authorized his friend to repeat this declaration if he desired to do so when he returned to New York.

Still, Sir Thomas admitted to his friend that as much as ever, it was the ambition of his life to win the America's cup.

EIGHT-OARED CREW.

Famous Champions of 1889 to be Gathered Together For a Pull.

NEW YORK, May 19.—It is announced that one of the features of the program for the annual regatta on Harlem river for Memorial day will be an exhibition of the Atlanta Boat Company, world's champion 8-oared crews of 1889 and 1890 which won the title at Pullman Wills August, 1889, and repeated the performance at Worcester, Mass., August 14, of the following year. Capt. Freeman has been busy on a reunion of the members of the eight all of whom are living but distributed throughout the country.

The men will be in the same positions in which they won the championship and the event will be the feature of the program. The crew will row a time trial over the full course.

LONG LOST PURSE.

NEW YORK, May 19.—This is published in a Brooklyn paper:

"Found—A small purse of money was found about seven years ago in a Begen street car. Please state full amount."

The finder of the long lost purse, it was explained, was an old woman who had kept it intact for so many years, either through advanced freight rates in spite of the fact that she was often

in need of a few dollars. The woman died recently and her sister had caused the "ad" to be inserted in accordance with a promise she made to her sister on her bed to do everything possible to find the owner of the purse. If the quest is not successful, the money will be turned to some charity organization.

STATE SCHOOL BOOKS.

AUSTIN, Texas, May 19.—At a meeting of the State Text Book Commission yesterday resolutions were adopted considering the work of the commission in awarding considerable contracts to the American Book Co. for school books for the state's schools and provides for advertising for new books. This action follows an opinion submitted by the attorney-generals in the proclamation to Governor Campbell in which it was asserted that the concern was a member of a trust. The attention of the attorney-general to other concerns is directed by the text book commission.

FREIGHT RATES.

Commercial, Industrial and Railroad Interests to Meet.

CHICAGO, May 19.—A joint conference between the Commercial and industrial interests of the country and the railroads of the east to consider the whole question of advanced freight rates from all points of view is assured. That this conference possibly will lead to submitting the issue either to President Roosevelt, the interstate commerce commission or an impartial board of arbitration for a final decision also is likely according to the opinion of railroad men expressed yesterday.

When it is probable the necessity of the railroads for more revenue either through advanced freight rates or reduced employes wages, will be

considered in a conference with all phases of the problem, it is not possible that a contingent reduction of wages will be considered if the issue is left for arbitration or a binding decision with the interstate commerce commission. The commission has no power to fix or determine any phase of the wage question, and therefore can only consider whether an advance in rates is just and reasonable. The threat of reduced wages is regarded by manufacturers and shippers as a measure more easily threatened than put into effect.

DEMOCRATIC CONVENTION.

SPOKANE, May 19.—The platform adopted by the democratic convention of the State of Washington demonstrates an immediate revision of the tariff and pledges that if the democratic party is restored to power it will speedily enact such legislation "on lines of justice to all and special favors to none."

It demands a non-partisan tariff revision.

The platform also demands regulation of trusts engaged in interstate business through the licensing plan outlined in the democratic platform of 1900; that the interstate commerce commission be given power to determine and fix reasonable rates, and to enforce the safety appliance law; the guaranteeing of deposits in national banks by the national government and in state banks by the state governments sufficient guarantee funds to be provided by assessments on guaranteed banks.

The platform contains the resolution urging congress to enact an amendment to the interstate commerce act whereby the commission may investigate advances in trade rates as to their reasonableness before coming effective.
