NOTICE.
 Notice is hereby given that the County Clerk of Stutsman County, D. T., will receive bids until 12 M., Dec. 18, 1882, for building bridge across James River at Beaver Creek according to the plans and specifications now on file in Clerk's office; also will receive bids for furnishing lumber. Plans and material necessary for building bridge on range line between ranges 63 and 64, where the same crosses James River on section 36, tp. 130 n., and also material plans, lumber, etc., necessary for building bridge on Fifth street at junction of the same with James River. Amount of material necessary for above bridges can be found on the plans and specifications on file in county clerk's office. All material to be delivered on site of each bridge within 30 days after award of contract, and Beaver Creek bridge to be completed by April 1, 1883.

NOTICE.
 Payment for building bridge and for furnishing material to be made in county orders.
 A bond of \$500 must accompany each bid, guaranteeing the work to be done or material furnished as the case may be in case of award of contract.
 The Board of Commissioners receiving the right to reject any or all bids.
 Given this 25th day of November A. D. 1882.
 GEO. D. HARRIS, County Clerk.

NOTICE.

LATE DISPATCHES.
TOLLEDO, O., Dec. 15.—The Hall block situated at the corner of St. Clair and Jefferson streets, and the finest business block in the city was totally destroyed by fire this morning. The fire was discovered shortly after three this morning and was supposed to have originated in the kitchen of the building used for public entertainments. The building was occupied on the first floor by numerous jobbing houses and on the upper floor by law and insurance offices, the offices of the Wabash and Ohio Central railroad companies, art galleries, etc. The block was erected in 1874 by the estate of the late James C. Hall, at a cost of nearly a quarter of a million dollars, and was subsequently transferred to the Connecticut Mutual Life Insurance Co., of Hartford by whom it was owned when destroyed. Taylor Rogers, wholesale boot, shoe and rubber house, had a stock worth \$300,000 upon which the loss will be over \$200,000, insured for \$250,000. L. S. Baumgartner, wholesale fancy notion house, stock \$75,000, saved probably \$10,000, insured for \$52,000. Wood & Acklin, wholesale grocers, lost entire stock valued at between \$40,000 and \$50,000, insured for \$30,000. The Ohio Central's general offices and the Wabash's local offices entirely destroyed, lost estimated at \$15,000 with \$5,000 insurance. Loss of attorneys, architect, steel and other occupants foot up \$2,000 and one half insured. The building, costing \$225,000, by foreclosure of mortgage in 1874, became the property of the Conn. Mutual Life Insurance Company, upon whom the loss falls. It was insured for \$110,000. The total loss is \$650,000, and the total insurance about \$500,000, divided among all the prominent companies having agencies in the city, the policies ranging from \$20,000 down.

WASHINGTON, Dec. 15.—A bill presented in Congress for the joint resolution to declare the decline of American shipping contains these sections: That no vessel engaged in commerce with the Dominion of Canada shall be subject to tonnage duty, nor shall consular certificates be required from same; that the individual share of ship owner shall be limited to the proportion any or all debts and liabilities his individual share of the vessel bears to the whole; that when any vessel whether steam or sail shall be constructed or equipped in the United States for foreign trade, including trade between the Atlantic and Pacific ports, in whole or in part, of material of production of the United States, the owner or owners of such vessel to be entitled to receive and collect from United States a drawback on sum equal in amount to duty which would have been collected upon imported material used in construction of such vessel, engines, boiler and other appurtenances of such steam or sail vessel; provided, that in ascertaining such drawback duty on such iron or steel material shall be computed on iron and steel advanced in manufacture in any country of plates, angles, bars and rods; and provide further, that this section shall apply only to vessels commenced after the passing of this act.

SENATE.—A resolution to print 42,000 copies of the tariff committee's report was adopted. The French spoliation bill was debated and passed, and the consideration of the Pendleton civil service reform bill was resumed but without final action.

HOUSE.—After a long discussion a motion that Dr. J. H. McLean be sworn in as member of the old second new ninth district.

MILWAUKEE, Dec. 15.—Mrs. Whitehead wife of the superintendent of the Humane society, an interesting statement in connection with the supposed Maggie Hennecke developments reported from Nebraska. She states that about three months ago her husband was informed that two bad boys had with them a Minnesota little girl of Maggie Hennecke's age, the daughter of a working woman residing in this city, and the information was accompanied with a request that Mr. Whitehead should take steps to secure the restoration of the child to her mother. Accordingly Mr. Whitehead wrote to the man asking him to send the child back to Milwaukee. No attention was paid to this letter, and it was afterwards learned, incidentally, that the men had gone to Nebraska taking the girl with them. Now the question suggested itself whether the case Brown progressed to be working up at Lincoln, Nebraska, does not concern the child, rather the Milwaukee working woman, rather than Maggie Hennecke, who, up to the time Brown was heard from, no one for a moment supposed had been abducted. This latest phase in the Nebraska business was worthy of more than ordinary consideration.

LATER.—R. D. Whitehead, of the Humane society, who went to Nebraska to look after Maggie Hennecke, telegraphed to the father of the missing girl to say that nothing could be learned in Hastings and that Brown, who claims to have found the three abductors, had gone to Iowa. Whitehead left Hastings for home to-day in company with a detective. They will stop at Shenandoah, Ia. to look up Brown. The receipt of the dispatch was at first denied by Hennecke, who shortly afterwards left the city, giving instructions to keep his departure a secret.

NEW YORK, Dec. 15.—Jay Gould appeared before the committee on grain crops this morning. He had been familiar with operations in stocks but not with grain. He was familiar with making corners in stocks and also in dealing in futures. The effect of making corners is to make an uneven transportation. Owners are made every little while, but I can't remember the last one. The system of making corners does not injure transportation in necessities as it makes large markets on the whole. I think it helps, it gives producers a better price, and they who make corners lose. The consumer may pay more although speculators suffer. The effects of dealing in futures of stock upon the general welfare is insignificant. I think speculators are to be got out of bringing money to this country. The freer your markets are the more freedom you give to capital, I would be very careful what restrictions I put either on stock or grain for the reasons mentioned.

CHICAGO, Dec. 15.—It is stated here that the Vandalia will become to-day the spirit in a scheme recently considered at the joint session of the directors of the Pittsburgh and Lake Erie railroad and Pittsburgh, Allegheny & McKeesport road, to carry out the proposition of the directors of the Philadelphia & Reading road to construct a new south Pennsylvania line. Twenty million of bonds will be provided for by the Vanderbilt interest and the same will be loaned to the Pittsburgh & Allegheny & McKeesport road, and make an additional through line from New York to Chicago. This is an old idea worked out in a new plan.

WASHINGTON, Dec. 15.—Assistant Secretary Joslyn of Interior Dept. was before the senate committee on territories this afternoon explaining his report in relation to the proposed tract of land within the Yellowstone National Park for hotel purposes. Committee will report such bill as may be necessary to protect the interests of the government, preserve the game and fish of the Park, prohibit gambling, exclusive privileges, etc.

FANCO, Dec. 15.—The sheriff of Cass county has received a letter from a firm in Portland, Oregon, inquiring after one Charles D. Irons, who left that place Sunday, and creditors to mourn. Represented that he once held a responsible

position on the Argus at Fargo, but wine and women got the better of him.
 County commissioners sold \$50,000 of seven per cent. ten year bonds to-day at one per cent. premium.

CHICAGO, Dec. 15.—Cable of the Rock Island railroad is authority for the following: The dispatch from New York of the 13th stating that in settlement of the North Western railway war per centages had been agreed upon on the basis of the Rock Island Albert Lea route was a mistake. The settlement was 14 per cent. of St. Paul business. This is incorrect. The arrangements are that rates be maintained and that on passenger business each road may get what it can but the proposition of the other roads to abolish commissions was positively rejected by the Rock Island and the question of percentages was abandoned in the final settlement.

PHILADELPHIA, Dec. 15.—Trial of the body snatchers began to-day. McNamee and Pelett guilty and the two others acquitted. Judge the announcement of the verdict McNamee asked permission to make a clean breast of his connection with Jefferson college and hauling bodies. Judge had him sworn. Repeated the confession in which he states that he was engaged by doctors Forbes, Benham and Lehman to do the work and the doctors knew the bodies were taken from Lebanon cemetery. Doctors Forbes and Lehman held in \$5,000 bonds to answer the charge of complicity in the robbing of graves in Lebanon cemetery.

CHICAGO, Dec. 15.—At the farmers' convention to-day Green B. Raum made a speech in favor of protection. Ulrich Bickendorff, of Pennsylvania read a paper on "under drainage." J. Stuebel, of Nebraska, made reply to Gen. Raum's speech on protection. J. S. Slager, of California, read a paper on agriculture in that state by irrigation, and drew a glowing picture of his state. A resolution declaring the report of the tariff commission recommending a reduction in wool and retaining tariff on manufactures thereof is unjust to the farmer was adopted.

ALTONA, Pa., Dec. 15.—Terrific accident happened ten miles from the city by which four persons were killed and were J. Parks, Wm. Cameton and two young ladies named Flora and Alice Erwin. They were returning from prayer meeting and while waiting at railway track were knocked down by an engine. No lives lost. Boat valued at \$5,000, insured for \$4,000. Cargo doubtless insured. Will be saved in damaged condition.

NEW ORLEANS, Dec. 15.—Steamboat St. Francis Belle belonging to Ouchita River Combined line sunk in bayou Barthomew to-day. She had a full load of cotton. No lives lost. Boat valued at \$5,000, insured for \$4,000. Cargo doubtless insured. Will be saved in damaged condition.

GLIMWOOD, Dec. 15.—James Leighton Gilmore, the young Ohio man, was hanged here in the jail yard this evening. The hanging was private, only the officers and reporters being admitted. The president yesterday declined to interfere. Gilmore this morning gave up all hope.

SAN FRANCISCO, Cal., Dec. 15.—The princess, marquis and suite go by special train to Monterey this evening. They will remain there till the early part of next week when they will return to town. On the 25th the princess and her suite will go to Santa Barbara, but the marquis will return to Canada.

CHICAGO, Dec. 15.—Jury in the case of Theresa Sturla for the murder of Charles Stiles gave a verdict of manslaughter with a recommendation of one year in prison. Trude made a motion for a new trial.

DETROIT, Dec. 15.—The report that Thos. Horstwick has been foully dealt with is not believed here. The impression is that he is insane, brought on by overwork.

HICKMAN, Ky., Dec. 15.—A fire yesterday originated in Wilson's hotel and destroyed three blocks in the business part of town. Loss about \$100,000; insurance \$40,000.

Geo. K. Barnes.
 The Deadwood Pioneer has the following to offer regarding General Passenger Agent Barnes all of which is justly due that industrious gentleman: "George K. Barnes, the general passenger agent of the Northern Pacific road, is entitled to much of the praise the management of that great iron highway deserves. He infused young blood into his department from the first, and this was done to a considerable extent. He has been successful in his efforts to increase the patronage of the road. He was generous in the use of printer's ink and bountiful in the use of his pen. He was generous in his generosity with his favors to newspaper men. He has over his line and superintended with extended notices of the agricultural, grazing and mine all sections tributary to the Northern Pacific. This liberal advertising created an interest in the region of his line, and he has been successful in his efforts to increase the patronage of the road. He infused young blood into his department from the first, and this was done to a considerable extent. He has been successful in his efforts to increase the patronage of the road.
