## OPENED THEIR HALL

The Newly Refitted Odd Fellows Hall Opened With an Enjoyable Ball.

One of the most pleasant events of the season was the ball given by the members of the I. O. O. F. Thursday night in their handsome new hall. The rooms were crowded with people all of whom enjoyed the event. The main hall has a floor especially constructed for dancing. An elaborate supper was served by the ladies.

The event was in celebration of the order taking possession of their new home, which is now one of the most elegant society halls in the state. The entire third floor of what is now known as the Nichols-Woodman building is used. The rooms comprise an ante or reception room, a kitchen, a dining or banquet hall decorated in green as the prevailing color, a large main hall, a paraphernalia room, etc. The main hall is a beautiful room. The ceiling is of steel sheets in large and small squares handsomely painted. All the rooms are laid with polished hardwood. The lights are electric chandeliers and side lights of handsome pattern. The windows are draped with heavy curtains and shaded by crimson shades. Last night the banquet hall was used as a reception room and was furnished with couches, chairs and elegant rugs for the occasion. The large crowd of Odd Fellows and guests were hearty admirers of the completeness and richness of the furniture and the general appearance of the rooms.

The order can be congratulated on the success of the opening of the new Hall and on the splendid accommodations they will have hereafter for society work.

The K. P. society have also secured quarters in the hall.

### Springtime on the Jim.

A boat ride up Jim river shows the trees have at last put on their light green spring millinery. The saffron blossoms of the elm are fairly out, and the plum trees have burst forth in fragrant whiteness. The slower budding alders still look bare, however, amid their green and white neighbors.

In these northern latitudes interest never ceases in noting how spring comes hesitatingly, step by step. A glance up the river that reveals bluff and bank and the trees that border the stream, discloses now, perhaps, the most attractive picture of the year. The season is young and full of promise. The delicate green color that has stolen on all the landscape, speaks of youth and hope and carries promise to the silent trees and bushes that have patiently waited for this, their season of the year. The time between spring and summer is short, for the sunlight and shower will soon transform the delicate green tints into the deep, strong shades of summer and the early autumn browns. Nature's tremendous activities must needs work quickly, as they allow no time for by-play or sentiment in North Dakota.

The same familiar scenes along the little river are to be seen at this season as in others. The water grass that branches into index fingers and points down stream is fringing the banks. The old water rat gives the row boat a close race up stream and when he sees himself beaten dives to avoid the disgrace of the finish. The crested kingfisher dashes wildly on ahead and stops at a deadwood station on a projecting stump to again survey for minnows. A pair of business-like snipe sail by close to the water and light suddenly by the river bank, with a quick turn and a short run. A couple of turtle doves on a dead limb seem surprised and agitated as the boat goes by. Red and yellow breasts flit through the trees, and the red winged blackbird sings his merry lay on a last year's weed stalk regardless of everything. Over the scene of welcome and security the shadow of a hawk is seen. His warning scream of disturbance and murder is heard as he disappears in the woods. Soon the wild roses and other prairie ornaments will appear along the bank and for the next few weeks nature will be busy trimming, re-arranging and perfecting her spring and summer ornaments on the river Jim.

### August Flower.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world for the last ten years I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottles free at Wonnemberg & Avis' and at Dr. Baldwin's.

## QUARANTINED A CAR LOAD

A Returning Klondiker Had a Case Which Frightened the Passengers.

A carload of passengers eastbound on the Northern Pacific railroad were quarantined at Missoula because of the discovery that one of their number had smallpox. He was a returning Klondiker who is said to have contracted the disease at Seattle. The conductor observed suspicious symptoms and telegraphed for the railroad physician at Missoula, who boarded the train at that station and pronounced the case a well developed one.

Doors were immediately locked and the car placed on a side track. The conductor, two brakemen and a news agent, as well as four passengers in that car, are being held in quarantine, while the infected passenger is in the Missoula pest house. Thirty passengers made a rush for the door when the announcement was made and escaped. Of that number half had ridden almost all night in that car.

Murphy and Stephen Collins, both well known business men of Grand Forks; John A. Martin of Carrington, machinery dealer and banker; Michael Murphy, a former resident of Jamestown and a member of the farming firm of Murphy Bros. in Foster county, also a well known real estate and business man lately of West Superior, and Charles A. # S. S. S. GOES TO THE BOTTOM.

Promptly Reaches the Seat of all Blood Diseases and Cures the Worst Cases.

In every test made S. S. S. easily demonstrates its superiority over other blood remedies. It matters not how obstinate the case, nor what other treatment or remedies have failed, S. S. S. always promptly reaches and cures any disease where the blood is in any way involved. Everyone who has had experience with blood diseases knows that there are no ailments or troubles so obstinate and difficult to cure. Very few remedies claim to cure such real, deep-seated blood diseases as S. S. S. cures, and none can offer such incontrovertible evidence of merit. S. S. S. is not merely a tonic—it is a cure! It goes down to the very seat of all blood diseases, and gets at the foundation of the very worst cases, and routs the poison from the system. It does not, like other remedies, dry up the poison and hide it from view temporarily, only to break forth again more violently than ever; S. S. S. forces out every trace of taint, and rids the system of it forever.

Mrs. T. W. Lee, Montgomery, Ala., writes: "Some years ago I was inoculated with poison by a nurse who infected my babe with blood taint. I was covered with sores and ulcers from head to foot, and in my great extremity I prayed to die. Several prominent physicians treated me, but all to no purpose. The mercury and potash which they gave me seemed to add fuel to the awful flame which was devouring me. I was advised by friends who had seen wonderful cures made by it, to try Swift's Specific. I improved from the start, as the medicine seemed to go direct to the cause of the trouble and force the poison out. Twenty bottles cured me completely." Swift's Specific—

## S. S. S. FOR THE BLOOD

—is the only remedy that is guaranteed purely vegetable, and contains no mercury, potash, arsenic, or any other mineral or chemical. It never fails to cure Cancer, Eczema, Scrofula, Rheumatism, Contagious Blood Pox, Tetter, Boils, Carbuncles, Sores, etc.
