REGIMENT READY TO LEAVE CAMP

Men Can be Entrained One Hour After Orders are Received to Move.

(Herald Special Service.)
Fort Lincoln, N. D., July 18.—Preparations to move the First North Dakota Infantry within the next 48 hours are being rushed to completion and engines and coaches to transport the troops to the Mexican border are being held in readiness for the departure.

One hour from the time the orders are received in camp, the troops are expected to be entrained, and all of the tentage and supplies loaded in the cars.

Battalion skirmish drill was carried out yesterday afternoon by the Third battalion, a problem in firing and advancing under fire, such as might be met with in actual warfare, being carried out.

Co. C, under command of Capt. Sprague, acted as the base of an advance movement upon the "enemy," while companies E and D were used as flanking bodies. After a portion of the firing line had been wiped out by the fire, Co. M, was rushed up as reinforcements to save the day.

Both officers and men took great interest in the work.

Last evening the Machine Gun company, with Co. L of Hillsboro, under command of Capt. Boyd, went on guard for 24 hours. This is the first taste of guarding for the Machine Gun company since its arrival in camp.

Tonight Co. M will go on guard for the second time.

A large number of the men of the regiment, under command of non-commissioned officers from the various companies, attended the Gollmar Brothers circus in Bismarck, returning to camp directly after the evening performance.

According to officers in charge of the regiment, the First North Dakota Infantry will be one of the best drilled and equipped of any on the border. All of the men are also in the best of condition for a hard campaign in whatever section of the south they may be sent by the war department.

WARD COUNTY S. S. MEETING

Splendid Session Held at Berthold—Minot Selected for Next Conference.

Minot, N. D., July 18.—The tenth annual convention of the Ward County Sunday School association was held in Berthold, the president, Dorr H. Carroll of Minot, presiding at all sessions. The convention was held in the Brethren church, and notwithstanding the heavy downpour of rain the attendance was all that could be desired. The church building could not have accommodated more.

There were delegates from the Minot, Mr. and Mrs. Noack, are old and highly respected residents of this county, and their son was a young man of fine attributes.

JAIL CHARGE CUTS THROAT

Resident of Ray Suicides in Williston Jaid with Razor Given him to Shave With

Williston, N. D., July 19.—James Wheeler, who was confined in the county jail at this place on a charge of blind pigging, and who was a resident of Ray, committed suicide in the jail by nearly severing his head from his body with a razor. He had been given a razor several times when he had to shave himself, and no thought of him having suicidal ideas. After shaving he handed the razor back to the attendant, but asked for it again, as he had not gotten a good shave. When he received the razor the second time he immediately slashed his throat, dying almost immediately.

SCOUTS OFF FOR TWO WEEKS CAMP

Minot, N. D., July 19.—A number of Boy Scouts in charge of Rev. and Mrs. J. N. Mackenzie, one of the best scout masters in the country, left for Williston, where they will spend two weeks in an ideal camp life for boys. The boys went in their regular Boy Scout uniforms, taking their blankets and tents and a well stocked commissary. The outing has been looked forward to with much delight by the boys for it takes them back close to nature and gives them an opportunity to expend their boyish energies in well directed and health-giving play. Each boy is supplied with his own cooking kit but much of the work will be done by Scout Master Mackenzie, so that there will be no danger of illness from improperly prepared foods. At the same time the boys will be trained in the methods of providing for themselves in cases of emergency so that if thrown on their own resources, either as boys or men, they will be masters of the situation.

Each boy has his blanket and this with rain coats will provide the artificial methods of bunking, but the boys will also provide themselves with such additional comforts and necessities for sleeping as their ingenuity may suggest. The same will be true of tenting and other lines of camp life. The scouts will be simply catered for, but much of this care and comfort will be of their own devising under the supervision of the scout masters.

There will be a regularity about the camp that will be both healthful and disciplinarian. The boys will be required to retire at a stated time at night, to rise at a fixed time in the morning, to eat at regular and fixed periods and to observe all the regulations of a well conducted camp in the matter of recreations and amusements and labor.

BOARD OF REGENTS MEET

Bismarck, N. D., July 19.—The board of regents will hold an adjourned meeting at Fargo Thursday and Friday to consider the biennial report of the presidents and members of the various state institutions.

To insure Victor quality, always look for the famous trademark, "His Master's Voice." It is on every Victrola and every Victor Record. It is the only way to identify genuine Victrolas and Victor Records.

The chosen instrument of the world's greatest artists

Victrola XVI \$200
Victrola XVII, electric, \$320
Mahogany or oak

The instrument which plays the greatest music is the instrument you want in your home! Consider the quality and character of the music which an instrument brings you, and you have applied to it the vital test.

The Victrola is great because its music is great. It is in millions of homes the world over because it takes into these homes all that is best in every branch of music and entertainment.

The artists who create Victor music are the greatest artists in the world. The Victrola tone is the true and faithful tone of the singer's voice and the master's instrument. It is for this reason that the Victrola is the chosen instrument of practically every artist famous in the world of opera, instrumental music, sacred music, band music, dance music, vaudeville and entertainment.

Go today to a Victor dealer's and listen to this instrument for yourself. Hear Caruso or Melba or Elman or Harry Lauder or Sousa's Band on the Victrola.

Victors and Victrolas—\$10 to \$400.

Victor Talking Machine Co., Camden, N. J.

Important warning. Victor Records can be safely and satisfactorily played only with Victor Needle Tens—never Stylos on Victors or Victrolas. Victor Records cannot be safely played on machines with jeweled or other reproducing points.

New Victor Records demonstrated at all dealers on the 28th of each month.

BLOOD POISONING KILLS PARSHALL BOY

Minot, N. D., July 19.—Alfred Waller, the 15-year-old son of Mr. and Mrs. Henry Waller, who live south of Parshall, died at a local hospital from septicemia, caused by picking a small pimple which developed on the nose a couple of weeks ago. Shortly after picking the pimple, the boy's face became swollen and discolored. He was brought to this city for treatment but the disease had already so poisoned the system that relief was impossible and death ended the young man's sufferings.

MINOT MAN TAKES LYSOL BUT LIVES

Minot, N. D., July 19.—A man named Krohn, whose name could not be learned, and who has been a resident of the city but a couple of weeks, attempted to commit suicide at his home in the western section of the city by taking a dose of lysol.

Medical aid was summoned before the poison had an opportunity to do its deadly work. In the use of heroic methods his life was saved and he was taken to the hospital, where he now lies, but with fairly good chances of recovery.

He left a note addressed to his sister Alice, in which reference was made to a woman named Helen, the latter presumed to be his wife. In the note he states that his sister became angry at him because he hid her ring which she had carelessly left on the dresser and which he saw she accused him of stealing. He said he was tired of living and gives that as his reason for committing suicide.

BARLEY GROWERS ANGRY.

Scottish Farmers Protest Against Malt Whiskey Restriction.

London, July 19.—The Aberdeen correspondent of the Times writes that much criticism of the government has been aroused among the distillers of malt whiskey and the farmers growing barley in the north of Scotland because of the prohibition of the manufacture of pure malt whiskey.

The chief grievance of the barley farmers is that following a root crop of barley on other crops can be grown on the land with any success.

The malt distillers' principal complaint against the government is the regulation that no whiskey shall be sold at a higher strength than 25 under proof. They complain that patent still whiskey, such as is usually manufactured from cheaper foreign grades of grain, can be reduced to 35 under proof without changing color, while pure malt reduced even to below 25 under proof becomes cloudy and even dirty looking in appearance, which spoils its sale.

HEROIC SEA CAPTAIN DEAD.

Henry Murrell Saved 734 Lives from Sinking Emigrant Ship.

Penarth, Wales, July 19.—The death of Capt. Hamilton Murrell recalls a remarkable rescue of 734 lives which he and his men on the steamer Missouri effected in mid-Atlantic in April, 1888.

The Missouri, bound from London to Philadelphia, sighted the Danish emigrant vessel Danmark, from Copenhagen for New York, in distress 800 miles from Newfoundland. The 865 passengers and 69 crew were helpless and could neither cope with the rushing water nor could they lower the lifeboats because of the stormy weather.

After twenty-four hours of suspense the Missouri appeared on the scene and attempted to tow the Danmark to the American coast, but this was abandoned and a course shaped for the Azores. The Danmark, however, soon began to sink and all her passengers and crew were transferred to the Missouri, a task that required
