Local Banker Says That Fields are Much Affected This Year.

After an extensive trip through the country in this section of the valley, N. J. Nelson of the First State bank of East Grand Forks says that in his opinion the actual danger of the rust pest in fields on both sides of the Red river has not as yet been realized by observers.

THIEF SUSPECTS TO BE TRIED TUESDAY

Men Arrested on Charge of Stealing Wearing Apparel From Wilson Garage Will Be Tried.

The three men being held at the city jail on the charge of stealing three overcoats, three mackinaws and miscellaneous articles from the auto shed of Dr. W. C. Wilson, about three weeks ago, will be tried before Judge Robert Blair Tuesday.

The three men give their names as Taylor, Mike and John Miller. All claim that they are innocent of the crime charged against them, saying that the property found in their room in the Salvation Army building across the river, had been found by them.

TWO DRUNKS ARE TRIED THIS MORNING

Two Workmen Spend Night in Jail After Day's Celebration—Let Go This Morning.

BLACKLIST IS CAUSING WORRY

Many English Concerns did Business With Places Under Ban.

London, July 24.—The reception in the United States of the publication of the statutory blacklist of American firms has caused considerable misgiving here in financial circles which fear what they term extra legal reprisals. Some firms in the city which have been doing their American business through firms on the prohibited list and now are compelled to make other arrangements, have already received hints that they may have some trouble in obtaining substitutes as their former correspondents are said to have threatened to boycott any other American firm taking over the business.

Some weeks ago, according to reports prevailing in the city, certain neutral traders formed an international union for mutual action against various economic measures of the belligerents likely to affect their trading interests. The smaller neutral nations which have been on the blacklist for some time are said to have been awaiting a lead from the United States which they considered as not inclined to become active as long as its traders suffered only from the operations of a vaguely defined sub-subsidiary blacklist. With America declared in the blacklist, however, it is expected in the circles affected that the international traders organization now will develop activity not only in seeking governmental redress but in commercial reprisals.

Sweden, while his the only neutral thus far to adopt any official reprisals

MAN MURDERS TWO, THEN KILLS SELF

Lake Forest, Ill., July 24.—The bodies of a man and woman, believed to be husband and wife, and of a year-old boy were found yesterday along the west bank of the Smoke river. A revolver was near by. A coroner's jury reported a verdict that the man had murdered the woman and child and then killed himself. The only marks of identity to be found were a ring bearing the initials "L. A. C." worn by the man and a paper leading the police to believe that he had recently been employed as a bookkeeper for an automobile concern at Flint, Mich.

The bodies were discovered by two young women who were horseback riding along the river.
