HORRIBLE FIGHT OVER LAKE BOAT

One Man Shot by Deputy Sheriff and Others Injured in Row.

Amnosome, Aug. 22.—Sunday afternoon, Adolph Kimpel, a man about thirty years of age, of Sawyer, N. D., was shot in the upper part of the leg and seriously, but not fatally, wounded by Deputy Sheriff C. F. Foster of Turtle Lake, and a number of other men, including the officer mentioned, were badly wounded as the result of a mixup occurring at Strawberry Lake, a summer resort about forty miles southwest of here and a few miles south of Fargo.

Shortly after noon Kimpel with a number of friends and relatives, all men and seven in number, were found by two other men, whose names have not been learned, but who were described as and appeared to be respectable and peace-abiding citizens, to be in possession of a boat that the latter had rented for the afternoon. Those in possession were asked to turn over the boat to the persons who had rented it, but Kimpel and his party refused to do this.

Mr. Foster, who was with the two gentlemen mentioned also asked and directed Kimpel and his friends to give up possession of the boat. Thereupon Kimpel and party attacked Foster and the two men with him. The deputy sheriff, however, managed to leave the scene at once and returned a few moments later with his revolver, which he had taken from his automobile. Upon his return he found the other persons in imminent danger of being killed, for the attacking party, now about a dozen, were mercilessly using their superior strength, oars and other missiles which had come to their hands on the other two men. The deputy sheriff endeavored to arrest the aggressors and ordered "hands up," but at the critical moment he was facing three of the Kimpel party, including Adolph Kimpel. Two out of the three obeyed the order "hands up" but Adolph Kimpel rushed at the officer and the latter, when there was nothing else to do, was forced to fire almost on top of him, wounding him and wounded Kimpel as above indicated. Whereupon the assailants turned practically all of their efforts toward Foster. He was soon relieved of his gun and badly beaten and cut up, and that he was not killed during those few moments is a wonder.

Finally, J. E. Nelson, a former Sheriff Simmonds of McLean county secured the release of Foster, not by force, but rather by diplomacy. Shortly after a doctor had been called, Kimpel party left in automobiles with the injured man for Velva. No attempt was made to hold them.

A brief statement that human blood had flowed freely. Broken bones, cuts, bruises and blood covering men and clothes were the main damaging damages. The officer and the other two men, especially, were sorry looking sights, and the extent and seriousness of their injuries are not fully known at this time.

Efforts were immediately put in motion to bring about the arrest of the members of the Kimpel party.

ONE KILLED WHEN COOK CAR UPSSETS

Fryder, N. D., Aug. 22.—A deplorable accident, which resulted in one fatality and serious injury for two, occurred near Balta during the progress of a storm. Mrs. A. M. Wright and her two children had quarters in a cook car while making hay and herding cattle in the hills near Balta. The full impact of the storm struck their improvised dwelling, tipping it over and shattering it. Edwin Wright, aged 19, was killed outright. The little girl had several ribs and one foot fractured, and Mrs. Wright was severely burned by being hurled against the stove.

GOOD HOUSES ARE IN BIG DEMAND

Devils Lake, N. D., Aug. 22.—Real estate dealers state that there will be few empty houses in the city this year. Many families had been moving to town, the influx starting early in the year and still continuing. A greater portion than formerly of the commercial travelers and railroad men are making headquarters here and trying to find houses for their families. Then too the shops have increased their employees and this means additional families. The demand for modern houses is greater than it has been for four years.

CANDLE YOUR EGGS SAYS E. F. LADD

(By E. F. Ladd.)

Candle your eggs or stand prosecution. The federal authorities are now shoring evidence in North Dakota. Remember as dealers you have been warned, for the past five years, that the eggs which were being shipped and sold in the state contained too many spoiled ones, too many that were unfit to be used and should never find their way on to the market. The federal authorities are now enforcing the statute for the shipping of bad eggs in interstate commerce. The work has begun in North Dakota and this department is co-operating with the federal authorities to see what can be done to clean up the situation. I am informed that already many complaints have been lodged or seizures made, and North Dakota dealers will undoubtedly find themselves hauled before the courts for shipping in interstate commerce eggs that are decayed, decomposed and filthy material, unfit as an article of food.

I am informed that already many complaints have been lodged or seizures made, and North Dakota dealers will undoubtedly find themselves hauled before the courts for shipping in interstate commerce eggs that are decayed, decomposed and filthy material, unfit as an article of food.

Dealers should accept no eggs from producers, under any condition, that are not sound and all eggs should be candled. Shippers should take no chances in having eggs shipped that are going to subject the dealers to prosecution. The food department of this state has endeavored, by sending out notices to be posted in the stores and through bulletins information, to warn the dealers of the danger of greater care. Farmers need to see that greater care is exercised in gathering the eggs and not allowing them to remain upon the ground or in the nests or under such conditions that they become spoiled before taken to the market. Local merchants should handle them in such a way as to get them into storage as early as possible, otherwise there is bound to be trouble. It is an expensive proposition to have your eggs seized and destroyed or to be hauled into the courts for violation of the federal food law. My advice is, therefore, candle your eggs and take no chances.

ROADS PREPARING FOR FALL TRAFFIC

With the approach of harvest time in the northern states, shippers are manifesting interest in the preparation of this section to handle the farm produce of the season.

According to officials, the railroads are prepared to handle the normal traffic both in and out of North Dakota. Naturally with a smaller crop than usual, this probably will be less of a problem than in previous years.

If necessary, the Great Northern railway will be prepared to handle a crop, according to the statement of local officials. Usually transportation companies on this side of the border do not call upon to move produce from across the line, however, since it is the effort of Canadian shippers to send it over their own roads.

Consignments of this sort must be shipped and farmers to give careful attention to United States consignment and pay duty upon crossing the line.

From ten to fifteen car consignments are frequently shipped over local roads under this arrangement. Each car is sealed and must not be opened until it reaches its point of unloading on the ocean liner bound for a foreign port, or is returned to the Canadian side.

FIRE BREAKS MUST BE PLOWED AT ONCE

The season of prairie fires is rapidly approaching. In fact one or two fires have already been reported. The extremely heavy growth of grass this season will make fire danger greater than ever before. The month of August is the proper season for plowing fireguards.

All land owners should mark out their lands by at least three or four furrows and have them plowed. The furrows in from the section lines and the space between these furrows should be burned off a little later on.

This season there are more of the wild vetches and plants belonging to the clover and alfalfa family over before. These plants are valuable for feeding purposes and for enriching the soil. No pains should be spared to protect them from prairie fires.

If of course, this is a busy season, but it will be well while for every land owner and farmer to give careful attention to this matter of plowing out and burning fire guards.

SHIPS HER SON BY PARCEL POST

Jamestown, N. D., Aug. 22.—"He's in good care when Uncle Sam is looking after him," said Mrs. R. S. Miller of Gackle, Logan county, postmistress of that village, as she tied a parcel post card to her young son, Robert S. Miller, who was shipped via parcel post to Lisbon, where he is now visiting relatives.

For the reason that the child did not weigh over fifty pounds, the shipment was by all means permissible according to post laws and regulations governing this special department of the mails.

TWO MEN DIE IN WELL AT STREETER

Gackle, N. D., Aug. 22.—Bennie Payne and his assistant, a stranger from Canada, both died in a well near Streeter. The men were digging a well five miles northwest of Streeter and after blasting the rock bottom with dynamite the stranger went down in the well to investigate. He was soon overcome by gas and his cries for help were answered by Payne who gave his life in trying to rescue him. Both were young men. Mr. Payne was well known in Gackle.

SPEEDING CARS SAVE BABY'S LIFE

Ambrose, N. D., Aug. 22.—Two automobiles, speeding toward each other, one carrying a physician, armed with an antidote, the other carrying Edgar Eldridge, 3-year-old baby, in convulsions from eating a gopher poison—saved the child's life.

Meeting half way from the Eldridge home and Ambrose, the physician for help were answered by Payne who gave his life in trying to rescue him. Both were young men. Mr. Payne was well known in Gackle.

REMOVING BAD ODORS

Bacon—Wisconsin is able to send outside of the state a trainload of cheese every day in the year.

Egbert—That's so the inhabitants will be able to detect the odor of the flowers out there, I suppose.

QUALIFIED.

Hokus—Stubdub has started a correspondence school of pugilism.

Pokus—Has he had any experience?

Hokus—Well, I believe I need to work in a box factory.—Judge.

BANKS OF STATE IN GOOD SHAPE

Are in Position to Take care of Legitimate Demands Says Secretary.

North Dakota banks never were in better condition, according to W. C. Macfadden, secretary of the North Dakota Bankers' association. There is more money in the state at the present time than ever before, he says.

"North Dakota bankers are in position to take care of legitimate needs, even if requirements are heavier than ever before. While most of the farmers may be hard hit, farm loans will be renewed.

Many Held Outside.

Many of these loans are held by outside concerns and will not affect local banking institutions.

"I think that the bankers in the various communities will be able to help the farmers who will need money with which to buy seed wheat next spring. I believe that the North Dakota bankers are in better position to take care of the needs of the state than they ever were before."

Other Crops Help.

Reports that the farmers of North Dakota are flocking to the banks and farm loan companies to renew their loans and get additions, are contradicted by local and state bankers. The farmers of the state are not hard up, they say.

LOCAL MAN TO MEET WITH DEM LEADERS

Attorney J. F. T. O'Connor Informed of Meeting of Notification Committee at New York.

Ollie M. James, chairman of the Democratic National committee and also of the notification committee, has notified Attorney J. F. T. O'Connor that the committee to notify the executive of his nomination for president, of which Mr. O'Connor is the North Dakota member, will meet in New York city on September 2, and proceed to the president's summer home in New Jersey, where a luncheon will be held and the notification will be made.

The notification committee is composed of one member from each state. The first meeting will be held at 8 a. m. at the Knickerbocker hotel, where they will proceed to Shadow Lawn, the president's summer home in New Jersey, to notify the chief executive of the nomination. President Wilson has invited the members to be his guests at a luncheon to be held at 11 o'clock.

Mr. O'Connor has not fully decided as to whether or not he can make the trip, but is now endeavoring to arrange his business affairs so that he may do so.

TRAIL COMMITTEE MEETING THIS P. M.

Plans Being Made for Further Development of the Wonderland Highway.

Members of the Wonderland Trail committee of the Grand Forks Commercial club are meeting this afternoon in the club room for the purpose of organizing a more complete system throughout the state for the development of the highway.

Complete in order for improvements of the road will be taken up and efforts will be made to arouse more interest among the committees of Commercial clubs in other cities.

JUDGING OF SCHOOL GARDENS COMMENCED

Olsen, Haney and Gilby to Select Best Plot—Over 175 Children Competing for Prizes.

The committee of judges composed of Edgar I. Olsen, field agent for the Grand Forks County Better Farming association, J. G. Haney, manager of the international Harvester's experimental farm and Frank Gilby, a local gardener, selected to pick the prize winning gardens in the home garden section, which have been conducted during the summer months under the supervision of Miss Rosalia Hatherall, commenced work today.

Over 175 children are competing. 175 children are enrolled from the grades. Their gardens will be judged as to vigor of plants, degree of cultivation, plan of the garden and the number of vegetable grown.

REQUEST FAMILIES TO STAY AT HOME

London, Aug. 22.—Too many families of Canadian soldiers have followed the husbands and fathers from the Dominion to England and efforts are now being made to prevent any more of them from coming. Lady Drummond announced at a meeting here of the Canadian Red Cross society.

"At one time," she said, "the soldiers' families were granted a kind of bonus, and three months' bonus in advance, which have been paid to England, where wives and children could be nearer their husbands and fathers training and fighting in France."

"It has been found that the families are often practically stranded over here. The man is wounded or invalided out to be paid for passages to Canada by the government while the wife and family remain here for lack of funds to return. The families also take up much needed room in the boats coming over."

THE RESTORATIVE.

Made—You feel better since you gave up dancing and devoted yourself to Red Cross work.

Marjorie—Indeed, I do, dear. I've had my name in the papers nine times.—London Opinion.

U. S. FORFEITS ALL RIGHTS

This is View of London Paper as Result of Non-interference.

London, Aug. 22.—In a leading editorial entitled "The Great Neutral," the Sunday Times holds that the United States has forfeited post bellum rights which might have been enjoyed if a different attitude had been assumed early in the war. It says:

"Next to war, perhaps nothing is more wonderful than neutrality. In theory, to be neutral is to be non-partisan and to favor neither side. But in practice, as we know, neutrality may arrogate to itself a variety of functions which might at first sight seem foreign to its nature.

One Neutral of Consequence.

"So far as the present war is concerned, only one neutral of plain consequence exists. We refer, of course, to the United States of America.

"There was a moment at the beginning of the war when the whole duty of the American government seemed to be palpably and surely before it. For good or ill, that moment was allowed to pass. America did not intervene, did not move. Indeed to assert a moral right she assumed the virtue of her insistent participation in The Hague convention.

Rights Are Forfeited.

"If by this failure she lost nothing of material importance, and may for that matter rather have gained in so far as her own immediate advantage is concerned, she certainly forfeited post bellum rights which would have been hers if she had taken upon herself the burdens and responsibilities of interference. This view of her position is fully appreciated in those quarters where the matter of neutrality has been upheld in the face of all criticism, and obviously is the correct view."

LONDON BROKE PACT, SWEDEN DECLARES

Copenhagen, Aug. 22.—According to the Dagens Nyheder, the Swedish government has published a blue book containing the diplomatic documents relating to the negotiations between Sweden and England regarding the seizure of British mails to Russia. This seizure was in retaliation for the taking by the British of parcel post, America to Sweden.

The blue book states that on the initiative of Great Britain an agreement was reached by which British mails were to be released, England agreeing to the establishment of an arbitration court after the war to settle the question of its seizure of American mail.

After this agreement, the blue book says, most of 60,000 packages of mails seized by Sweden had been forwarded to Russia, England suddenly demanded that Sweden allow all English mails to pass to Russia in the future.

Rapture is Feared.

Sweden refused to accept this amendment to the original agreement, whereupon it will direct her concession regarding the arbitration court. The Dagens Nyheder says that several Swedish newspapers fear a rupture of the agreement between the two countries.

RATPROOF BUILDINGS URGED BY OFFICERS

Washington, Aug. 22.—In a special plea for municipal cleanliness the public health service has issued a bulletin urging the elimination of rats through the construction of ratproof buildings.

The bulletin calls attention to the high death rate of the bubonic plague among humans. The plague, it explains, is primarily a disease of rodents.

It is identical with the black death of the middle ages.

It is estimated that every case of human plague costs the municipality in which it occurs at least \$7,500. This does not take into account the enormous loss due to disastrous quarantines and the commercial paralysis which the fear of the disease so frequently produces.

AUSTRIAN LOSSES ARE VERY HEAVY

Rome, Aug. 22.—According to an official estimate, issued today, the Austrian losses on the Isonzo during the great Italian advance between August 6 and 15 exceeded 45,000 men and the number of prisoners captured by General Cadorna's troops within the same period totaled 22,000.

The Italians are now experiencing much the same conditions as the British army in France, for they are up against a second line of defenses, which Austria has been feverishly fortifying for two years past beyond the plain of Doderno and below the Carso Heights. These consist of formidable bastions constructed of reinforced concrete that form an extensive barrage of the road toward the Trieste.

Umberto Boccioni, the most brilliant painter and sculptor of the Futurist school, was killed through a fall from his horse during operations in the war zone.

GREEKS SENT AWAY BY TURKS TO DIE

Athens, Aug. 22.—The Turkish authorities in the Black sea regions, acting on instructions from Constantinople, are rounding up Greek civilians in a considerable number of villages and sending them off in batches to concentration camps in the interior.

This means practically a sentence of death, for in large numbers, they are forced to go afoot, absolutely without food.

Enroute these pitiful caravans are attacked by Turks, who rob them, mothers being deprived of their children.

SHE ACCEPTED HIM.

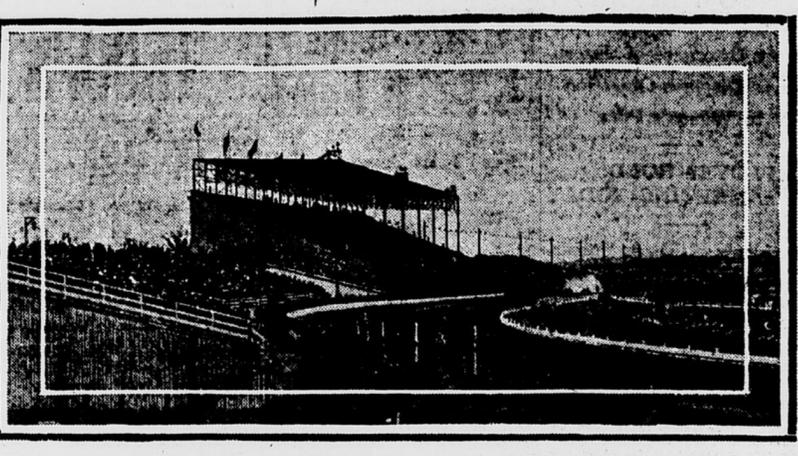

Miss Catchem—You've already proposed to six girls this year, and they all refused you.

Mr. Slyboy—Yes; because each of them knew I was head over heels in love with you.

Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

STARS OF EARTH AND AIR AT MINNESOTA STATE FAIR!

STUPENDOUS ENTERTAINMENT PROGRAM

has been arranged for the Minnesota State Fair, Sept. 4 to 9. There will not be a dead moment any minute of the six days. Snap, dash, pep, ginger, action—these are the standards by which every feature which has been engaged has been measured. Visitors will be given the biggest 50 cents' worth of fun they ever obtained.

DEATH will be dealt broadcast by DeLloyd Thompson, the fearless aviator, each evening of the Fair.

Sweeping in from the north in a gigantic war plane, Thompson will demonstrate a fancied destruction of the Fair Grounds by dropping bombs upon the principal buildings, maiming, killing, destroying. It will be a thrilling sight. Each afternoon Thompson will loop the loop, fly upside down, drop vertically 1,000 feet in the air, and do other perilous things. Thompson has proved to be the aerial sensation of 1916. Do not miss him.

AUTO RACES are to be held two days of the week, Wednesday, Sept. 8, and Saturday, Sept. 11, the biggest auto racing program ever given on a dirt track in America.

Purses aggregating \$10,000 are to be awarded. Fifteen speed demons of international reputation have entered. A 75-mile continuation race, an International State Fair Championship race, an Australian pursuit race, world's time trials by leading drivers, and a series of short, snappy free-for-all events have been scheduled.

THE EARTH AND AIR RECORD is bound to be smashed at the Minnesota State Fair this year.

Miss Elfrieda Mais, champion woman driver of the world, and DeLloyd Thompson, America's greatest aviator, will race one mile, Wednesday, Sept. 6, and Saturday, Sept. 9, to decide the supremacy of earth and air. Each will be given a flying start. The aeroplane will not be permitted to cut the corners. It will be a fight to the finish, something worth going hundreds of miles to see.

BASEBALL! For the first time in the history of State Fairs, baseball is to be played as a big feature at the Minnesota State Fair.

The stake is the independent baseball championship of Minnesota. Over 230 teams entered the race early in the season, and it is expected that some of the fastest teams that ever kicked a baseball around will play in the final games. A big diamond has been built directly in front of the Grandstand, and from 10,000 to 25,000 persons will follow the games each day. Nearly thirty fast teams have applied for an opportunity to play at the Minnesota State Fair, and additional requests are being received every day. Hibbing, Chisholm, Frazee, Detroit, Hutchinson, Lake City, Mankato, the Minneapolis General Electric, Winsted, and a host of other teams are claimants to the state championship. No one will be able to pick a winner until the last day of the State Fair.

Barnum. One of the greatest elephant acts in the world is coming to the Minnesota State Fair as one of its leading vaudeville features.

Three stages of vaudeville will be played each day before the Grandstand, afternoon and evening. There will be New York Hippodrome talent there. Do you think you can afford to stay away?

TWO THOUSAND years ago the city of Pompeii was covered with burning mud from the great volcano, Mt. Vesuvius, and completely buried.

The inhabitants perished like rats in the hold of burning ship. Each evening of the Fair, a mammoth fireworks spectacle will depict the destruction of this unfortunate city. A scenic picture 300 feet long will fill the background, and 400 persons will stage the drama of fire and smoke.

INTERESTED IN HERO DOGS? Hero dogs are dogs which have won a Carnegie Medal for some act of heroism.

There will be a hero dog exhibit at the Minnesota State Fair this year. A great Alaskan Husky dog, valued at more than \$5,000, is to lead the pack. This dog has led three famous dog teams to victory in Alaskan dog races. One dog has saved as many as three lives.

GRAND CIRCUIT winners in number have been entered in the horse races at the Minnesota State Fair, Monday, Tuesday, Thursday and Friday, of the week, Sept. 4 to 9.

The Duluth, Minneapolis and St. Paul purses will be as good as any races ever seen on the Hamline track. Purses aggregating \$21,000 are to be awarded.

WHO EVER SAW A MULE DERBY? A mule race in which a stable of the fastest mules that ever threw a shoe will compete has been arranged as a daily feature.

There will be a few shoes in the air when this event is pulled each day. Don't get hit by one of them.

SEVENTEEN BANDS AND ORCHESTRAS will furnish the music. Think of it! Nearly 500 persons playing and singing. There will be music for the most exacting.

LET'S GOPHER FUN! A series of shows, clean, wholesome, devoid of objectionable features, will be played at the rim of the Lagoon all the week. You will have the time of your life.

A MILE A MINUTE coaster, nearly half a mile long. Turns, dips, and dives that will take your breath away.

Ye OLDE MILLE. A pleasant ride through a hidden waterway.

ELYPHUNTS ARE COMING! Get your peanuts ready. An elephant act always stirs the blood. It takes us back to the good old days of P. T.

You need never worry about results in baking if you use KC BAKING POWDER

It has been a standby for a quarter of a century. Guaranteed under all pure food laws.
