There are no big bags to be had this year, they assert, and all reflect yearningly upon the good old times when they could knock them over with sticks. Similar reports come from other portions of the state. Those who were successful in shooting even a small catch feel they have a right to be jubilant. The backward season, which interfered with the propagation of the birds, has created a famine all through the state.

Little Disturbance in Capture of Chinese Town. The province of Chekiang, where I was "interned" for four weeks, writes a correspondent of the Christian Herald, gives a good illustration of the revolutionary spirit all over China. About 4 o'clock one April morning we were awakened by the firing of three or four guns. I lazily said to myself as I turned over to go to sleep again, "The revolution is on," but I did not really believe that with so little disturbance anything serious could have happened. But in a few hours I found that I had guessed right; that the tuteh, or military Governor, had been called out of bed by the leading revolutionists and had been given his choice to join them or leave Hanschow. He chose the latter horn of the dilemma. Whereupon the independence of Chekiang was declared, the civil Governor was chosen tuteh and proclamations were posted on the walls declaring the province independent and that law and order must be preserved and looting would be punished. To be sure, during the first hour or two the old Governor's yamen or palace was looted by his former body-guard, who, I suppose, thought it was their legitimate booty; but otherwise there was no disturbance, no bloodshed, only excitement and uncertainty for a day or two. After this business went on as usual, except that the banks were naturally chary about loaning money. FIRST HUNTING VICTIM. Devils Lake, N. D., Sept. 11.—Lorne Taylor of Hampden, N. D., is the first victim of the hunting season in this district. Taylor being accidentally shot while cleaning his rifle. The charge went through his right hand and into his chest, the wound being very dangerous. CROP YIELD GOOD. Northwood, N. D., Sept. 11.—Threshing operations on the Siebrands farm, run by Halvor Haugo, north of the city, are practically finished, the yield being good. Wm. Siebrands owns eight quarters of land in that neighborhood and had it all seeded to oats and barley, which was indeed fortunate this year. A bore is a person who has nothing to do but sit around and visit.
