

"U" PREPARING FOR GOOD YEAR

Faculty Complete for Opening of New Term—Large Enrollment Expected.

With the opening of the first semester of the University of North Dakota for the scholastic year of 1916-17 but two weeks away, university officials are preparing for the most successful year in the history of the institution. Increased activities in all departments will be evident. More and better equipment is being installed in all colleges of the university which will enable greater and more thorough research than ever before.

Large Enrollment.
While indications some time ago pointed toward a somewhat reduced student body due to the poor crops general throughout the country, the situation at present is as bright as could be desired, and officials feel confident that a larger enrollment than ever will characterize the opening of the new term. On account of the poor crop conditions general throughout the northwest it is believed that a number of students who formerly have been attending more expensive eastern universities will come to North Dakota this year, where the best in every line may be received at a minimum cost.

A large number of applications for work at the university and in the city have been received by officials from prospective students, and while the registrar has been able to place several students, the majority of applications have been turned over to Secretary Roy Myers of the Y. M. C. A. who will look after the work of placing new students in positions enabling them to earn at least a part of their college expenses.

Freshmen Strong.
Almost 150 prospective freshmen already have sent in their high school credentials prior to their being accepted as students of the university. This is considered a very good average for this time of year and it is the belief that many more will be heard from in the near future. Indications point

toward the largest freshmen class in the history of the institution. All the residence halls of the university already have been filled to capacity and a waiting list has been established. Applications for admittance to the halls have been unusually large this year, say officials, and a large waiting list is all ready on file at the office of the registrar. Wesley college is having the same experience in regard to rooms, there being more than double the number desiring admittance to Sayre and Larimore hall than accommodations provide for.

Faculty Returning.
With the approach of school a large number of faculty members who have been spending their vacations at different points throughout the country are returning to the university. Students will begin returning the latter part of the week, all football men being instructed to report for work on the 18th.

Modern Dry Cleaning Plant to Be Erected

Ground Broken This Morning for New Structure on North Fourth Street.
Ground was broken this morning on North Fourth street for the construction of a modern dry cleaning establishment, to be erected by Sam Papermaster, proprietor of the Panatorium. The new plant will cost approximately \$2,500 and will be equipped with the latest type of machinery and drying contrivances. G. F. Riggins, of Kankakee, Ill., for the past 15 years connected with large dry cleaning establishments, will be the manager of the new plant, according to an announcement made Saturday.

PHILIPPINES UNDER JAPAN HEALTH BAN

Tokio, Sept. 11.—Baron Hatano, the minister of the imperial household, has issued a notification that the Philippine islands have been designated as a cholera infected district by the household department. This means that all persons and articles coming to Tokyo by way of the Philippines will not be permitted entrance to the palace grounds until thoroughly disinfected. It is not a quarantine, by the Japanese government, although quarantine is already effective in practice against ships from Manila and the South Sea Islands generally.

GEORGE EASTMAN AND PARTY HERE SATURDAY

Famous Kodak King and Party Spent Short Time in City Enroute to Home at Rochester.

George Eastman, of Rochester, N. Y., president of the Eastman Kodak company, spent a short time in Grand Forks last Saturday evening, enroute to his home from Riga, N. D., on board his special car, "Rocket." The Eastman party had planned an extensive western hunting trip, but because of the condition of the kodak king, plans were abandoned.

Mr. Eastman underwent a slight operation at Riga for the removal of a rectal abscess. According to his private physician, Dr. E. W. Mulligan, he is now recovering rapidly. The Eastman party anticipated arriving at their home today, as they left Grand Forks late Saturday evening.

POSTOFFICE CHANGE WILL COME SOON

Red Lake Falls, Minn., Sept. 9.—A. L. Reichert has received his commission which represents his official appointment as postmaster in Red Lake Falls. The change will take place in a few days. Mr. Reichert said he could not give the definite time of the change, but that it would be soon. Before taking the oath of office as postmaster Mr. Reichert will tender his resignation as mayor of the city of Red Lake Falls.

FIND SUPPLY OF PLATINUM.

Prospectors Make Discovery in Mountains of Spain.
(Commerce Report.)
Platinum has recently been discovered in the mountains near Ronda, Spain, which is 38 miles from Malaga, on the way to Algeciras and Gibraltar. The Spanish government has taken possession of the ground and the work of developing the mine will be carried on under the direction of the geological institute. The department of Pomento will include in its estimates for the next two years the sum of about \$2,000 each year, to cover the cost of their preservation and repair, as well as the expenses of the personnel.

You can buy in any Ruettell Store with full confidence in values, in style, in service; knowing that whatever you buy must be satisfactory, or the money's waiting for you. Big stocks of everything, men, young men and boys wear; ready to serve you.

J. B. Stetson Hats are now ready for Men and Young Men

In new autumn styles, rider colors, better quality and a broader assortment than ever before. Hats are here in all proportions—every size in every style, \$3.50 to \$15.00.

Young men are alive to the very newest idea in fall hats should see the new "Varsity" at \$3.00. Very attractive.

See especially our showing of new fall suits and overcoats for men and young men at \$15. There're feature values of unusual interest; out of the commonplace; a revelation of our buying resources.

Quality First

\$200 or \$300 MORE, AND WHAT A DIFFERENCE!

I once bought a 98-cent razor. For two weeks I shaved with it. Then I bought another one. I paid \$3.50 and I still have it. Nobody can persuade me to part with it.

And I challenge anybody to convince me that a 98-cent razor is cheaper than a \$3.50 one.

No, gentlemen, the \$3.50 razor is cheaper by far. It costs more, keeps a keen edge, gives me a good shave every day and lasts a lifetime.

So with the Chalmers car. It costs a little more—perhaps \$200 or \$300 more than some other cars. And what a difference that \$300 makes!

The Chalmers keeps going day in, day out; year after year. It always looks the part. About all you need do is look after the gas, oil, water and grease cups.

And Chalmers gives five-year life. The average Chalmers owner keeps his car at least five years before he sells it second-hand or trades it in.

Quite a difference between the 3400 r.p.m. Chalmers and many other cars in that one respect.

Aside from all this—the performance of the 1917 Chalmers will make you catch your breath.
