GEORGIA PREACHER ELOPES WITH GIRL AND THEY'RE WED AT MIDNIGHT

Savannah, Ga., Oct. 20.—Following a romantic elopement in which the bridegroom, the Rev. Ernest Altman, of Savannah, whisked the bride, Miss Ula Mae Majors, of Milltown, away under the nose of her father and hurried her across three counties in search of a minister, the couple were married shortly after midnight at Homerville by the Rev. M. M. Marshall.

The elopement was the culmination of a love affair that began more than two years ago, when Mr. Altman was called to the First Baptist church at Milltown. Parental consent was asked and refused. An elopement was determined upon, but owing to a balky auto the father put in an appearance and took the bride away. That was a year ago.

Mr. Altman went to Louisville, Ky., and finished his education in the seminary there. But stern parents could not interfere with the United States mails, and when Mr. Altman came to Savannah he knew that his sweetheart was of the same mind as the year before when their attempt at an elopement ended so disastrously.

Plans for a new effort were carefully made. The mistakes of the first attempt were studiously avoided. The aid of S. W. Elliott, deputy sheriff, was enlisted. Every detail was worked out. Sunday night church was going on at Milltown. Miss Majors was organized, and although she appeared nervous to members of the congregation, nothing unusual was suspected.

A long, long sermon kept the anxious young couple waiting. At last the benediction came. Mr. Altman stepped to the side of the door. Mr. Elliott, wearing the car, as the engine began to race across of church people stepped outside the door. Miss Majors appeared slightly in the lead of her father.

Mrs. Ernest Altman.

The groom said, "Let's go." Miss Majors said, "I am ready." The car spurred forward. Through three counties they rushed in search of a minister, until shortly after midnight, reaching Homerville, they were married.

CONCESSIONS BY RAILROADS

Efforts Being Made to Settle Threatened Strike in Canada.

Winnipeg, Man., Oct. 20.—Concessions were brought up at the session of the board of directors of the C. P. R. to meet the demands of the conductors and trainmen of the C. P. R. were granted by Grant Hall on Monday afternoon at the company's headquarters.

The three main issues, in all of which the railway is said to have given way, are: 1.—The demand that the men be paid for the waiting time at terminal points.

2.—A reduction in the "guarantee mileage" from 5,600 to 5,000 miles a month.

3.—An increase of wages for all yardmen connected with the western branch of the service.

As regards the first point, which is the most important of all from the men's point of view, it is stated that the company, through Grant Hall, has agreed to the demands.

The reduction in the "guarantee" from 5,600 to 5,000 is said to have been already accepted by the railway. This means that "overtime" will start in the summer after 5,000 miles have been run a month, instead of 5,600 as hitherto.

If men works for less than 5,000 miles he is paid for that amount.

Increase 2 Cents An Hour. The railway has already agreed to give the yardmen an increase of two cents an hour, it is said.

Milk Is Boosted One Cent a Quart In New York City

New York, Oct. 20.—An increase of one cent a quart in the retail price of all grades of milk was announced today by the Borden's Milk company. As a result of the agreement, which settled the recent milk strike here the distributors are now paying higher prices to trymen. The Borden company is one of the largest distributors in the United States. Beginning tomorrow, Grade A milk will be 12 cents a quart. Grade B 10 cents, certified milk 8 and Buttermilk 7. The milk supply here has again become normal.

Heiress Gives Her Time and Money to Help Ex-Convicts

Mrs. Stella B. Dabney.

New York, Oct. 20.—Mrs. Stella B. Dabney, secretary of the Prisoner's Relief society, has announced that she will devote the rest of her life and also her fortune to helping convicts.

Mrs. Dabney is a young widow and one of the principal heirs to the immense fortune left by the late Capt. George W. Day. Probably no woman in this country is making a greater sacrifice to help the downtrodden than she.

The Prisoner's Relief society of which Mrs. Dabney is a leading figure was founded by Earl E. Dudding, an ex-convict. Its purpose is to help ex-convicts get reliable positions where they will not be hounded by the police.

Woman Attacked With Chisel as She Phones

Sheboygan, Wis., Oct. 20.—Mrs. Ernest Alday, Jr., wife of a plumbing contractor, was attacked with a cold chisel last night as she stood in the door of her husband's shop talking over the telephone. Marie Sadler, a ticket seller in a nearby moving picture theater has been arrested, and according to the police confessed that the attack was the result of a plot.

HOW TO KEEP YOUNG.

John Burroughs: If you should ask me what counsel I would give to a young man starting life—how I would attempt to get him on the road to happiness—it would run something like this: Be industrious. Be honest. Be serious and sincere. Don't shirk your work. Deal fairly; like your neighbor; lend a helping hand. And don't forget how to play. Play will keep you young. Iucky is he who gets his grapes to market with the bloom on. Reading the lesson of my life to myself, it seems to teach one thing; that one may have a happy and not altogether useless life on cheap and easy terms. The essential things—the true values—are all simple and near at hand—home, friends, health, books. Nature, a little leisure, a little money and, above all things, congenial work—something you can put your heart in. But congenial work—even drudgery, is better than idleness and indifference.

STRIKERS WILL RESUME LABORS

Meeting at Bayonne Votes to End Present Conflict With Companies.

Bayonne, N. J., Oct. 20.—Striking employes of the Standard Oil company and several other companies operating plants here at a mass meeting tonight voted to return to work tomorrow. Earlier in the day John J. Moffat and James A. Smyth, United States mediators, had assured a committee representing the men that the companies had expressed a willingness to negotiate demands for increased wages and better working conditions if the workers would return to their places.

The strike began ten days ago and was marked by rioting during which three persons were killed and many others wounded.

BUSY SESSION FOR RAY POLICE COURT

Ray, N. D., Oct. 20.—A number of cases were brought up at the session of police court, the first being that of A. Brinton charged with bootlegging. After hearing testimony he was bound over to the district court. Ben Kurinski made the complaint against John Tupe and A. Brinton on a charge of robbery.

D. Fouts was charged with running a blind pig, waived examination and was held for district court and \$500 bail was furnished.

Canadian Police Track Fugitive Over 1,000 Miles

Winnipeg, Man., Oct. 20.—Within barely 28 hours from the finding of the body of Henry Roch, his confessed murderer, Oscar Robidoux, was arrested as he stepped from a Canadian Pacific train at Ottawa, a thousand miles from the scene of the crime. Faced with arrest, the accused denied his identity, but a search revealed a picture post card addressed to him, and confronted by such irrefutable evidence, he admitted he was the man they were after and confessed that he ambushed Roch, shot him twice and stole \$150 from the dead body.

The Ottawa police searched the train on its arrival from Winnipeg, and identified the prisoner by the description telegraphed from the provincial police of Manitoba.

Henry Roch, who was a farmer of Notre Dame des Lourdes, lived with his parents, residents of the district for the past twelve years. He had only recently engaged as a traveling salesman for certain stock remedies. He was 25 years of age.

MISSIONARIES SAFE.

New York, Oct. 20.—American missionaries at Hamadan and Kermanshah, Persia, for whose safety fear had been felt, are safe and well provided for, according to a cable message from the American embassy at Constantinople, received by the board of foreign missions of the Presbyterian church here.

CANNOT USE CAPTURED GUNS. Those Taken From an Enemy Army Important Only as They Reduce His Fighting Efficiency.

Guns captured in battle are seldom used by the captor, and for a very good reason. Take the case of the field guns, for example, used by practically all armies. They all take practically three-inch shells, but there is a very slight difference in the actual diameter, amounting in many cases to only a few hundredths of an inch, which prevents German guns, say, taking English shells. The diameter of the shell used with the Belgian field gun, for example, is 2.95 inches, a tenth of an inch smaller than that of the German gun.

A Belgian shell would enter the bore of a German gun too easily, and it would be impossible to fire it accurately. If a German shell were forced into a Belgian gun that gun would burst when fired, because the shell is too big to go down the barrel. Unless a gun is captured undamaged, together with a supply of its proper ammunition, it is useless. The capture simply means reducing the fighting power of the enemy.
