

GRAND FORKS, N. D., SATURDAY, OCTOBER 28, 1916.

CABINET CRISIS IN AUSTRALIA ON COMPULSION

Conscription Referendum is Being Taken Under Stress of Deep Feeling.

London, Oct. 28.—A dispatch from Reuter's Telegram company from Melbourne says M. Higgs, minister of the treasury of the commonwealth; A. Gardiner, vice president of the executive council and A. J. Russell, assistant minister of marine, have resigned. It is understood, the correspondent adds, that they are opposed to conscription.

Official reports from all the states, says the correspondent, forecast a victory for conscription. A referendum is being held in Australia today on the question of compulsory military service. Men and women voters of the commonwealth, at home and on active service vote "Yes" or "No" on the question. "Are you in favor of the government having in this grave emergency the same powers over citizens in regard to requiring their military service for the term of this war outside the commonwealth as it now has in regard to military service within the commonwealth?"

UNCLE SAM TAKES HAND

Wholesale Grocers Urged the Retailers to Boost Price of Canned Goods.

Chicago, Oct. 28.—The prosecution of several Chicago wholesale grocery firms may result from an investigation begun by United States District Attorney Clyde today. It is alleged the wholesalers distributed circulars to retailers instructing them to advance the prices of canned goods in accordance with market prices.

H. B. Finch of Nash Bros., Grand Forks wholesale house, said he had not been informed such an investigation had begun, and that in any event it would not affect the local concern, because no circulars of this nature described had been distributed by his firm, and retailers were at liberty to dispose of goods purchased of them without interference or suggestion.

GERMANS DEMORALIZED

Paris, Oct. 28.—A German carrier pigeon captured by the French at Port Douaumont during the fighting in the region of Verdun, carried the following message:

"The rolling fire of the enemy with guns of the heaviest calibre is such that sectors S. C. and H. are to a great extent levelled. The garrison including that of sector V. is disorganized completely. Some of it has been obliged to fall back on the 83rd and 88th regiments, which also had to retire.

"Sector V. (Von Rauns) was subjected to such fire that its observation post was put out of order. All sorties are being bombarded and one is occupied constantly in replacing them.

"The battalion demands its immediate relief this evening by fresh troops. It can fight no longer. (Signed) "First Lieut. Steinbrecht."

Edgar Allen Poe Workshop to be Razed and Rebuilt

Richmond, Va., Oct. 28.—Edgar Allan Poe's old workshop must be torn down within five days, on complaint that the building was unsafe. A citizens' committee trying to preserve the building as a memorial to the poet, will have the structure razed in such a way that it can be reconstructed on the grounds of Richmond college.

High Bids For Labor In Wisconsin Woods

Hayward, Wis., Oct. 28.—Forty-five dollars a month and board is now being offered for woodsmen by local lumbermen. This is about \$10 a month more than has been offered in several years, yet, loggers say, virtually no men can be hired.

EQUIPMENT FOR BRANCH INSTALLED

Fargo, N. D., Oct. 28.—Most of the equipment for the new branch of the state public health laboratory to be established in Fargo, has been installed, and the new work will be under way soon.

R. C. Newell, of Ripley, N. Y., has been appointed to take charge of the laboratory here.

FOLDING IRONING BOARD.

Another step saver that may be added to the list is the folding ironing board and cover. This device, which is hinged to the wall, is always ready and in place. It may be hooked up against the wall out of the way when not in use. The leg is hinged to the board and falls flat when the board is lifted.

With it down and in use the leg is not in the way, and skirts may be ironed without any lifting or changing. The directions for making follow:

Ironing Board: Length, 57 inches; rounded at free end. Width, attached end, 15 inches; free end, 10 1/2 inches. Leg, 58 1/2 inches; to be changed to suit height of board; attached to board 11 inches from free end.

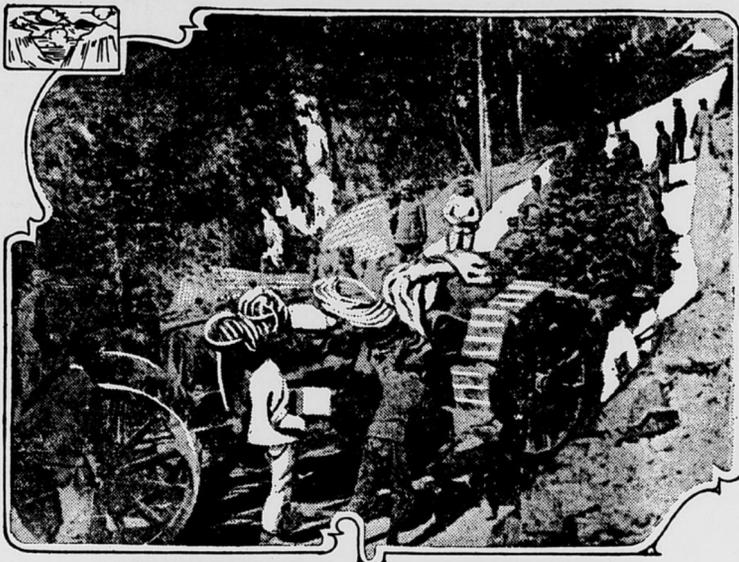

Board to be attached by hinges to the wall 38 inches from the floor. For use by a person above average height, the board should be higher, which will necessitate a longer leg. Board to be made of thoroughly seasoned wood 1 1/2 inches in thickness.

Pad: Any heavy material such as canvas flannel or a partially worn-out blanket. Cut shape of board, allowing 2 inches on each side and end. Bring extra 2 inches to underside of board and tack firmly and smoothly in place.

Ironing sheet: Unbleached muslin (home-spun). Cut shape of board, allowing 4 inches on sides and end and hem all around. Attach tapes on opposite sides about 10 inches apart. Tie the sheet on with these tapes. Make two sheets.

The cover and sheet may be left on when putting the board up by allowing sufficient space when adjusting the button or screw hook and eye which holds the board in place.

ITALIAN TROOPS PULL HEAVY GUNS UP THE HIGHEST ALPS

This interesting photograph, which shows Italian artillerymen hauling a giant howitzer up a mountain pass in the Tyrolean Alps, gives a clear idea of the greatest military obstacle which the forces fighting in that theater of the war have had to contend with. When it is considered that all heavy artillery had to be hauled up the steep mountain passes in this manner, it is remarkable that any extensive artillery actions were attempted.

MANY FARMERS TO ADVERTISE NORTH DAKOTA

F. R. Crane, Back in St. Paul, Tells of Plans of 250 Stock Boosters.

St. Paul, Minn., Oct. 28.—Farmers and business men of North Dakota will show their fellowmen at the International Live Stock exposition at Chicago December 4 to 11 what North Dakota can do and is doing in the development of the live stock industry. Incidentally they will study exhibits of live stock at the show, and half of the farmers plan to purchase pure-bred stock for breeding purposes.

250 to Make Trip. For the purpose of informing the stock breeders of other sections of the United States that North Dakota is rapidly developing as a corn and live stock state, 250 of the farmers and business men will make the trip on a special train. These boosters inaugurated the plans for the excursion, and asked F. R. Crane, development commissioner of the Great Northern railroad, to take charge of it.

"These men have planned to advertise North Dakota as a state of diversified farming by going themselves and telling the men of other sections of the conditions in the state," Mr. Crane said. "Many expressed a desire for a follow up on the development of live stock in the state inaugurated by James J. Hill a few years ago."

Be in St. Paul December 5. The party will be in St. Paul December 5 and will spend the day here visiting the South St. Paul yards, the agricultural college and attending the convention of the Equity Co-operative Grain exchange. They will leave that night for Madison, Wis., where they will stop to inspect the agricultural college and methods of handling live stock December 7, 8 and 9 will be spent in Chicago.

Brazilian Gold Notes Bought in New York

New York, Oct. 28.—William A. Read and company announced today the purchase of \$7,500,000 three year six per cent gold notes of the Brazilian Traction, Light and Power company, which operates public utilities in the cities of Rio de Janeiro and San Paulo, Brazil.

This is the first financing of this character undertaken by American bankers, London having been the center, prior to the war, for the notation of such enterprises.

ROBLIN ON TRIAL AGAIN

Manitoba Attorney General Announces That He Will Place Ex-Ministers on Trial Second Time.

(Herald Special Service.) Winnipeg, Man., Oct. 28.—Attorney General Hudson announced today that he would again place on trial on charges of conspiracy and theft from the Province of Manitoba three ex-ministers of government, Sir Rodmond Roblin, Hon. Caldwell and Howden. The jury disagreed at the first trial.

CLAIM RIGHT TO MAKE BLACK LIST

England's Reply Reiterates Position—Offers Relief to Some.

Washington, Oct. 28.—Great Britain's note in reply to American representations against the commercial blacklist as "arbitrary interference with neutral trade" and "inconsistent with that true justice, sincere amity and impartial fairness which should characterize dealings of friendly governments with one another."

The British note is in reply to the American note of July 28, which denounced the blacklist as "arbitrary interference with neutral trade" and "inconsistent with that true justice, sincere amity and impartial fairness which should characterize dealings of friendly governments with one another."

WALHALLA WOMAN DIES AFTER ATTENDING FUNERAL OF SISTER

Cavaler, N. D., Oct. 28.—After going from Walhalla to Drayton to attend the funeral of her sister, Mrs. William Isabel, Mrs. F. Ruthford was suddenly stricken and died from heart failure at the same place as did her sister. The sister also died of heart failure. The occurrence is peculiar but the shock of seeing her sister dead is said to have caused heart failure.

The two women have lived in North Dakota for several years.

The expression "as good as wheat" quite common some years ago, apparently has greater height of meaning than formerly.

After a storm, a calm comes.

NEW YORK DAY AT SHADOWLAWN

Special Trains Carry Democrats to Summer White House Today.

New York, Oct. 28.—With bands playing and banners waving, several thousands Democrats today set out on a pilgrimage to the New Jersey White House to hear a speech by the president.

The Democratic national committee has designated this as "Woodrow Wilson day" for celebration by Democrats all over the country, but at Shadow Lawn it officially is known as "New York Day." Several special trains took New York Democrats to Wilson's summer home.

Two of the trains will carry a big delegation from Tammany Hall, one will accommodate representatives of the Bronx Democracy and a fourth the Brooklyn contingent. The Tammany Braves were led on their march to the railroad station by Grand Sachem John R. Voorhis, who will make a five-minute address to the president. Voorhis is 88 years old.

Medal of Honor Man Who Led the Way For Dewey is Dead

Philadelphia, Pa., Oct. 28.—William C. Myers, lieutenant of the engineers in the coast guard service who was awarded a medal of honor by congress for service in the Philippines under Admiral Dewey, died at his home here from heart disease. He was a member of the crew of the cutter McCullough which went ahead of Admiral Dewey's fleet and located the position of the mines in Manila harbor.

BADLY BURNED BY GASOLINE FIRE

Ryder, N. D., Oct. 28.—Sprayed with gasoline, Harland Shea, 15, became a living torch when a gasoline lighting plant in a local drug store exploded.

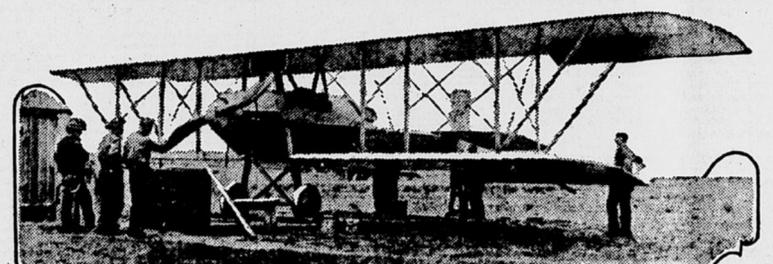

The lad, his clothing afire, rushed out of the store door, where pedestrians tumbled the boy onto the ground and rolled him in the dust, extinguishing the flames after he had been seriously burned.

A \$600 loss was sustained by the Couch drug store, in which the accident happened.

It has been mentioned that no matter who is elected, the majority, or at least the plurality of voters, will be pleased. That appears to be an entirely logical conclusion.

After a storm, a calm comes.

AMERICAN WAR PLANES NOW BEST IN WORLD; EUROPE SPENDS MILLIONS FOR THEM AS UNCLE SAM BUILDS HUGE AIR FLEET

U. S. Army's First All Steel Battleplane That Flies 82.5 Miles an Hour.

Washington, Oct. 28.—With orders from foreign countries now being placed here for \$40,000,000 worth of heavier-than-air flying machines, with the American plane recognized as supreme all over the world, and with American manufacturers planning now for a plane business next year that will make the manufacture of flying machines one of our really important industries, a vision of flying machine production not far removed from our automobile production is seen by Henry Woodhouse of the Aero Club of America.

Mr. Woodhouse, whose knowledge of the industry and whose standing in the craft give his assertions authority, believes that the manufacture of aeroplanes has finally grown

beyond the confines of haphazard production in this country into a definitely and well-established industry.

The recent appropriations of \$13,000,000 for aeroplanes for the United States Army and \$4,000,000 for the United States Navy have, to a degree, helped in fixing the status of the aeroplane here. Mr. Woodhouse believes, but as a general thing these have been discounted by other developments.

"And yet, it is highly significant that our navy is now buying in 'futures,'" said Mr. Woodhouse. "Formerly, our own country was the most hide-bound in buying on the market, but now it has followed the lead of other countries and is placing orders for future delivery. The other countries have had to do it, for they had to have the machines, and the only way they could get them was to place orders ahead."

Aeroplane orders to the value of about \$20,000,000 have recently been placed here, and one order that I know of personally has just been given to one firm for \$4,500,000. Other countries have not come to us, for they have had to admit our supremacy in this line of manufacture. It is not because they are so busy on the other side turning out shrapnel and the like that they can't bother with aeroplanes, but it is because they get a better product here than elsewhere. They are rushing here to place really tremendous orders for planes."

WILL DIM THIEF RIVER WHITE WAY

Thief River Falls, Minn., Oct. 28.—Leonard Peterson, superintendent of the water and light department, warned the city council that with the coming of longer nights the power plant would be unable to carry the load of that city. At present the plant is working beyond its rated capacity and Peterson has asked permission to cut off all but one of the lights on each of the light posts on the streets, and was granted permission to do so. "Unless something is done to lighten the load," said Peterson, "the city will probably be in darkness so far as electric lights are concerned, as the plant is carrying all it can at present and within a short time the load will be increased."

Undergoes Operation—Mrs. Otto Gotberg of 313 Cottonwood street, was operated on at the Deaconess hospital this morning for appendicitis and her condition this afternoon is satisfactory.

ON MONDAY EVENING

Geist's Hollowe'en Party

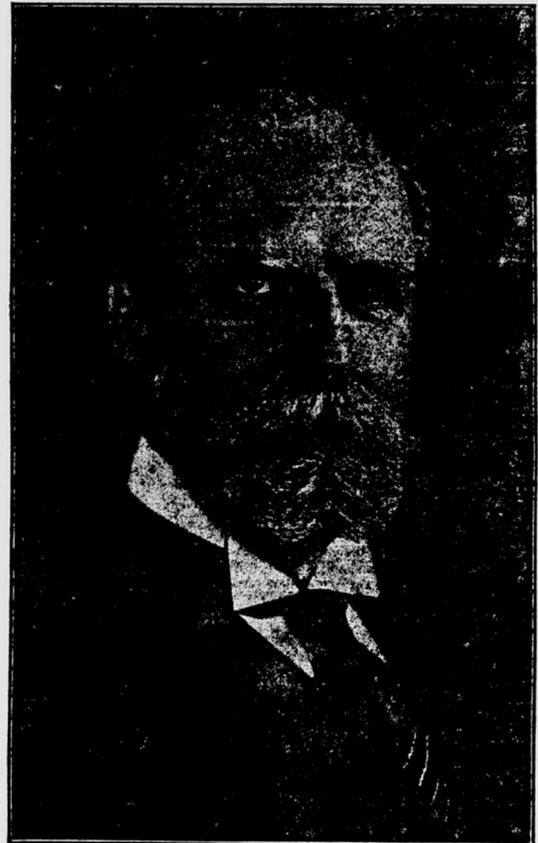

will be held. Come! The store will be beautifully decorated for the occasion. Pumpkins, Black Cats and Witches will be everywhere.

This party will inaugurate a Dansant which will be held Daily

Come to the inauguration on Monday eve. and dance with the bewitching witch. Everybody is invited.

To Save the Nation From War Vote for Charles E. Hughes

Our national guard is on the border to protect us from invasion; an American army has invaded Mexico; American troops are fighting and falling in Santo Domingo; American soldiers, sailors and marines are holding positions by force of arms in Haiti and Nicaragua; the soil of Vera Cruz, of Carrizal, of Columbus, of Santa Ysobel is drenched with the blood of American youths who wore the uniforms; hundreds of Americans have been slaughtered in Mexico.

Wilson's "Peace" Administration Has Been an Orgy of Bloodshed

We have been twice at war with Mexico, once with Haiti and Nicaragua. We are at war in Mexico and Santo Domingo. We have been in continuous trouble with the weak and puny nations of the south. Stronger nations have been too busy in the great cataclysm in Europe to seek trouble with the United States. No one can tell what will happen in the next four years if we continue the rule of

Wilson the Meddler

Wilson's vacillating, interfering policy PROVOKES WAR. We need a STRONG MAN in the White House, a man who will protect the nation's honor without meddling with other nations' affairs and without GOING TO WAR AS WILSON HAS DONE.

Such a man is Charles E. Hughes, the best governor New York ever had, the true friend of the common people, the man who makes his word good. HE WILL NOT FORCE THRU CONGRESS LAWS DESIGNED MERELY TO CATCH VOTES. HE WILL BE FAIR TO ALL.

For the Nation's Safety and Honor, Vote for Hughes, McCumber and the Entire Republican Ticket

"It is a great mistake to say that resolute ness in protecting American rights would have led to war. Rather in the course lay the best assurance of peace. Weakness and indecision in the maintenance of known rights are always sources of grave danger; they forfeit respect and invite serious wrongs, which in turn create an uncontrollable popular resentment. We should not have found it difficult to maintain peace, but we should have maintained peace with honor."—Charles E. Hughes, Address of Acceptance.

Political Adv.
