New, on the face of the Indiana returns, defeated Majority Leader Kern, and Watson won from Senator Taggart.

Sutherland in West Virginia defeated Senator Chilton.

The Democrats charged that negroes are outlined from the south in states where the Republicans triumphed by a small majority.

The attack on the village was similar in many respects to the sensational robbery by the James boys and younger brothers in Northfield years ago.

GOMPERS HIT AT TARIFF

Calls it "Partisan Bunk"—Labor Cannot Go Backward, Federation President Says.

Baltimore, Md., Nov. 14.—Samuel Gompers, President of the American Federation of Labor, sees a bright outlook for the working classes generally in the re-election of President Wilson.

"Now that President Wilson has been re-elected," he said, "labor certainly cannot go backward. Labor has nothing to fear from Mr. Wilson, and I look forward to four good years for the industrial interests of America."

"The tariff question as it is raised in political campaigns is purely and simply partisan bunk, and that applies to the Democrats as well as to the Republicans."

McKinley was shot he assailed the Democratic tariff policy and criticized the Republican policy; Grover Cleveland assailed the Democratic tariff policy and criticized the Republican policy; Mr. Taft assailed the tariff law enacted by a Republican congress.

The tariff is not an affair of partisan politics. It is something that should be settled outside of parties, settled scientifically by men who know what they are doing."

LAKE REGION FAIR OPENS

Stock is Main Feature of big Event of Season in that District.

Devils Lake, N. D., Nov. 14.—The annual fair and festival of the Lake Region opened this morning with a special exhibit on the part of the farmers and people from neighboring towns.

A larger crowd than ever before has been seen at a fall or mid-winter fair here.

This year a specialty of live stock is being made and some of the finest animals ever brought to this vicinity are on exhibition, including horses, cattle, sheep and hogs.

While the grain exhibit is not what it was last year, it is considered good for the year.

The wheat exhibit is good and two kinds are entered in the contest. Corn is very good but cannot be classed with that of last year.

One of the chief exhibits in the vegetable department is the potato exhibit. There is an extra fine display of tubers.

This afternoon the potato exhibit will be classified by officials who are expert in charge of that department.

An address will be given by A. T. Hoverstad and it is expected that J. H. Griffin of Grand Forks will also speak.

The potato association will hold its banquet and election of officers will probably take place at this time.

Aside from the Lake Region exhibition there are school exhibits and an exhibit from Fort Totten. These are both very fine and the Fort Totten exhibit is exceptionally good.

CHRISTMAS SHIP TO SAIL DEC. 20

Collier "Caesar" Expected to Leave Then—Big Supply For Syrians.

Washington, Nov. 14.—Final arrangements for sending the collier "Caesar" to Syria, with supplies for war sufferers in Syria, were completed today at conferences between Secretary of State Lansing, Director of the Red Cross and former Ambassador Morgenthau and members of the Armenian and Syrian relief committee.

The collier will arrive in New York December 14, and is expected to sail about the twentieth, due to reach Beirut, Syria, about a month later.

Members of the committee are disappointed because the "Caesar" will carry considerably less cargo than originally estimated.

It was said at first that the collier would take about 4,000 tons but it develops that her maximum will be about 2,500. Attempts were made to secure a more commodious boat, but none was available.

Over \$400,000 has been collected as a result of the war relief days, October 21 and 22, set apart by President Wilson for the sufferers in Armenia and Syria.

Money is still coming in and it is possible the total will pass the half million mark. Only \$250,000 was needed to fill the "Caesar."

The "Caesar's" supplies will go entirely to the Syrians, who are suffering under requisition of food by the Turks, blockade by sea, car shortage by land and destruction of foods by a terrible locust plague.

About 100,000 people are said to be on the verge of starvation. The Armenian relief fund forward to Constantinople in the form of money, to be distributed for purchasing supplies there by the Red Cross and the Turkish Red Crescent.

Nearly a million Armenians are exiled, destitute and starving.

The voyage of the "Caesar" has been the subject of protracted negotiations between the United States and the allies who are blockading Syria and the Turks, who were loath to allow supplies to be imported.

New York, Nov. 14.—Not one of the 45 field artillery batteries and the 73 forts in the six coast artillery districts of the United States army has an airplane, according to a report of Alan R. Hawley, president of the Aero Club of America, made at the annual meeting of the club here last night.

The report suggests that the field and coast artillery needs 17 aero squadrons, 127 kite balloons and six dirigibles.

Others who presented reports included Rear Admiral Robert E. Peary, Henry A. Wise Wood, Howard E. Coffin and Augustus Post.

President Haxey and all the other officers were re-elected for the ensuing year. Reports showed 291 new members during the year and the issuance of 295 pilot certificates of the International Aeronautic Federation.

It was resolved at the meeting to urge upon President Wilson and congress the need for supplying the field and coast artillery with air machines; for making aeronautics part of the curriculum at West Point and Annapolis; the appropriation of \$1,500,000 for the estimate of aerial coast patrol and the providing of the coast guard service with airplanes.

GIVE CARRANZA ONE MORE TRY TO GET VILLA

If He Can do so U. S. Troops Will be Withdrawn in 60 or 90 Days.

INDIANS ARE SENT TO CAPTURE VILLA

Two Americans Held in Juarez Jail—American Family Slain near Tampico.

Atlantic City, N. J., Nov. 14.—In the event of an agreement being reached by the American and Mexican commission for the withdrawal of the American troops it probably will not stipulate that they be brought out of Mexico immediately but that they be recalled within a reasonable time, perhaps within sixty or ninety days.

It is believed that the withdrawal of the troops will be subject to conditions at that time.

That General Carranza is sincere in his efforts to drive Villa and his followers from the field is not doubted by the American commissioners although they have been keenly interested in what apparently was the inability of the present northern Mexican army to accomplish that object.

The news that reached the commissioners yesterday that General Murguía, who has been in command of the forces at Torreon, has been selected to succeed General Jacinto Treviño in charge of operations in the north was received by the Americans as further evidence of the determination of General Carranza to force the campaign against his northern enemies.

It was intimated that an agreement on the withdrawal of troops would be sent to the respective governments for ratification before the other and minor points in the general agreement were adopted.

CARRANZA TO TRY TO GET VILLA

El Paso, Texas, Nov. 14.—Andres Garcia, inspector general of Carranza, consults in the United States department of state in the present movement to drive Carranza out of Chihuahua and no other significance than the determination of the Carranza government to pursue and overcome Villa and his bandits.

The report in army circles in El Paso that these troops were being brought north to force any demand that might be made for the withdrawal of the American expeditionary forces from Mexico is without foundation," Mr. Garcia said.

A special train left Juarez carrying General Francisco Gonzales and an escort of 100 men to Chihuahua City. Gonzales carried \$50,000 pesos in silver. Andres Garcia, inspector general, accompanied him.

MORE THAN HALF THE STATES ARE NOW IN THE DRY COLUMN

More than half the states in the country, twenty-five to be exact, and more than 75 per cent of the territory of the United States is now "dry," as a result of the election Tuesday.

Though J. Frank Hanly, prohibition nominee for president, was literally snowed under, the election marked the greatest victory for prohibition in history. Six states went over to the prohibition column: Michigan, Nebraska, South Dakota, Utah, Florida and Montana. Alaska also voted to oust the saloons.

The prohibition forces declare the backbone of liquor is broken by the election.

At a meeting of the legislative committee of the Anti-Saloon League of America, composed of Wayne E. Wheeler, Columbus; Dr. E. C. Diddle, Washington; Dr. A. J. Beaton, Texas, and Dr. James Cannon, Jr., of Virginia, in Washington, a statement was issued to the effect it would demand passage of the national constitutional amendment, the prohibition law for the District of Columbia, and other extreme dry measures at the coming short session of congress. The statement asserts that more than 80 per cent of the population and 90 per cent of the area of the United States is now under prohibition law, and that the people should demand of the congressional representatives national prohibition.
