The Society of News Women... Father is ill... For Rent... Maza Residents Here... The Mel Today... A. O. U. W. Meeting Tonight... Rummage Sale... Goes to Devils Lake... Shall I use my money or credit for my personal benefit or loan it to my country? This is a question (as I see it) that each individual must decide for himself. It is a clear case of self or country. There can be only one answer. It is a great privilege, as well as a very evident duty, to subscribe liberally to the present Liberty Bond issue. H. B. FINCH

WOMEN MEETING WITH SUCCESS IN SELLING BONDS

Four-minute squads are being organized by the women's committee at the Liberty Loan headquarters today, and they expect to start out tomorrow morning for a two days' canvass of the city. Members of the committee are busy all day at the headquarters in the First National bank building, and have succeeded in selling a good many of the bonds, without so far having gone out on any formal canvass of the residence or business districts. Tomorrow afternoon aid meetings and other women's gatherings will be addressed by the four-minute speakers, and the teachers and children in the various school buildings will hear brief talks on the Liberty bonds, payment plans for which are placing them within the reach of every person. A meeting of the business women of the city has been arranged through the women's committee and the Y. W. C. A. to be held at the "Y" quarters on DeMers avenue tomorrow evening. Preparations are being made for an effective presentation of the issue to the business girls, of whom there are a large number, and ready response is expected from them. The campaign among the women of the university was begun last night with a mass meeting in the Woodway hall auditorium, when Mrs. J. B. Cooley, a member of the committee appointed by Miss Susan I. Maloney, chairman of the city committee, explained the bonds and there were a number of other interesting speakers. Miss Maloney and her committee of 20 women, who will act as captains of small squads, will start out early tomorrow on a house to house canvass and they expect to interest every woman whom they approach in the bond investment.

ENGINE WHEEL BURST, KILLING THE ENGINEER

Seven-ton Flywheel of Power Plant Shattered Building Like German Bomb.

Minot, N. D., Oct. 17.—Engineer David McClusky was instantly killed in the power plant of the Northern States Power company early this morning when the flywheel on the engine burst into pieces and flew in all directions. The wheel weighed about seven tons and when it broke away, three pieces of about 40 pounds each went through the walls and roof of the building, flying to different parts of the city. One piece of 350 pounds went over a lumber yard and the roofs of several houses, fell on the paving a block away and bounced into a store building through the windows. Another piece landed on the 800 track and broke both rails.

Luckily the accident happened early in the morning, before people were on the street. Had it happened during the day or evening, several people would have undoubtedly been killed. McClusky was 29 years old. He had been here three years, coming from Granville, Ill. He was not married and was to have gone with the next draft quota. He was alone in the power house when the wheel broke and was found with his head badly crushed. It is supposed that a piece of metal struck him and killed him instantly. Coroner J. R. Pence decided that an inquest was not necessary. The damage to the building and machinery has not been estimated.

Noted Opera Singer Starving To Death In Austrian Camp. New York, Oct. 17.—Dinah Gilly, the Algerian baritone, formerly with the Metropolitan Opera company, is starving in an internment camp at Raab, Austria, according to a letter dated August 27, received from him by Eugene Boucher. Friends today started a fund to be forwarded to the singer for the purchase of food. The baritone left London three days before the war began and was in Bohemia when he was put under guard as a French subject. He has been obliged to pay for special lodgings and for most of his food supplies.

ALL COMMERCE TO BE ALTERED WHEN WAR ENDS

'Frightfulness' Will Have Passed Away Says Secretary Redfield.

Allied Diplomats Pledge Anew Determination to Crush Militarism.

New York, Oct. 17.—What a different world of trade this will be after the war, was pictured to the Southern Commercial Congress here by Secretary Redfield, in an address telling of the cutting of the threads of Germany's foreign commerce by her own act and of the awakening of America and her allies to the danger of making their industries dependent upon foreign and possibly unfriendly sources of supply. "When peace shall come and her merchants take up the task of restoring Germany's ruined commerce they will find that it is a strange world they seek to re-enter," said the secretary. "There will be difficulties in the path of the future, peaceful penetration of which they seem not to dream. Commercial, frightfulness, like its military namesake, will have passed away." Diplomatic representatives in the United States of the nation's allies in the war were guests at the dinner given in their honor in connection with the Southern Commercial congress in session here. Determination of the nations arrayed against Germany to carry on the war until their objects were attained, was pledged anew by those representing the small, as well as the greatest powers of the grand alliance. Addresses also were made by United States Senators Jax Hamilton, Lewis of Illinois, and Duncan U. Fletcher, president of the Southern Commercial congress, who presided. "Germany stands condemned in the eyes of the world, her place is that of the Pariah," declared J. J. Jusserand, French ambassador, who added: "We are full of confidence. You of the south have solved your problems with a mastery that everybody admires. We shall solve ours. We have done it before. Our alertness is in line with patience. "In the world war the north and south have enlisted under the banner of justice. The sight is awe-inspiring. The story of the world offers nothing like it. What they fight is treachery, perjury, falsehood, corruption, tyranny—meanings of people who destroy for no other reason than that they have the power to do so—and who cannot see something clean without polluting, ruining or killing it—a church, a girl, a child, a family hearth. "The havoc wrought by that power of evil which we are fighting has been terrific, but we shall so manage, all of us, that it will be unable ever to work such ruin again. "Nothing more promising has been seen than what is taking place here since the United States entered the great conflict—those appeals from the president, from the secretary of agriculture, from that man of wisdom and strength, Mr. Hoover, asking the people to abstain from that, there is no law, no obligation, no threat, no penalty, but the understanding that it is in the interests of people who are fighting thousands of miles away."

ALIENS GIVE UP GUNS IN MINNESOTA WHEN OFFICERS GET BUSY. Duluth, Minn., Oct. 17.—Publicly regarding aliens in possession of fire arms, they being violators of the law unless the weapons are surrendered, has resulted in a wholesale deposit of hundreds of guns on the iron ranges with deputy sheriffs, according to a statement of Sheriff John R. Meinling today. "In addition to this there have been few alien applications for hunting licenses, which were refused," he said. "As soon as they found it was against the law and arrests had been made for such violation, the aliens of their own accord surrendered their guns." Game wardens have estimated that at least a thousand deer and moose have been killed, in and out of season, annually, by alien "backsters" and hunters.

BENNER & BEGG The Store Accommodating A Large Shipment of New Coats has just been Received Priced at \$14.50, \$17.50, \$19.50, \$25, \$27.50, \$30, \$32.50, \$35. We can also offer you a complete line of serges, poplins, etc., as well as a good selection of school plaids, which are priced at, per yard 69c We'll consider it a pleasure to show you.

FOUR MEN GAVE THEMSELVES UP

Walle Township Youths go to Hildreth, Pleading Guilty to Violation.

Tom Salomonson, Andrew Thompson, Carl Knutson and Knute Torgerson, all of Walle township, Grand Forks county, yesterday walked into the office of United States District Attorney M. A. Hildreth in Fargo declaring that they wanted to plead guilty to bringing liquor into the state of North Dakota. Their trip to Fargo was the result of several attempts to plead guilty here and straighten out an unfortunate automobile accident. They are the four men who recently struck the John MacDonald rig, causing severe injuries to Mrs. MacDonald. They had been at Red Lake Falls, Minn., according to their own story, and secured a quantity of liquor which they brought into North Dakota. They were en route south on Belmont avenue when the lights on the automobile went out and they turned around and started back to the city to have them fixed, but en route struck the rig driven by Mr. MacDonald. Mr. and Mrs. MacDonald were thrown out and the latter was quite badly injured. The men left the car immediately. A local policeman went to the scene and found a quantity of beer and liquor in the car, and took this as evidence. The next day the case was brought to the attention of State's Attorney Elton. Andrew Gullikson, who was driving the car, visited Mr. Elton, and according to the latter, admitted bringing the liquor into the state. Later, all four men appeared before him and offered to make reparation. They even went before Judge Phil McLoughlin, it is said, and signed a ten-year abstinence pledge. The nature of the case took it out of the hands of the state's attorney and he so informed them. The case, then, was referred to the United States attorney, who said he would take it up as soon as possible. Mr. Hildreth was quite surprised yesterday when the men walked in and voluntarily offered to plead guilty.

MAYOR URGING TOWNLEY TO SUE

Fergus Falls Executive Says He Has no Reason to Retract.

Fergus Falls, Minn., Oct. 1.—Mayor Leonard Erickson of this city was served with retraction notice today by A. C. Townley, president of the Nonpartisan league, as a result of the mayor's statement that he would not be allowed to speak in this city. Following the announcement by the secretary of the local public safety commission, that the proposed Nonpartisan meeting scheduled for October 20 would not be held, Mayor Erickson caused a signed statement to be published, in which he declared there was no objection to the Nonpartisan meeting here in so far as he was concerned, adding that "Mr. Townley and other like characters will not be permitted to speak in this city." Despite the presumption that a libel suit will follow, Mayor Erickson not only refuses to retract the statement, but also reiterates the assertion that Townley will not be allowed to speak. No order will be tolerated if the Nonpartisan meeting is held, and the police will stop Townley if he attempts to speak. The city council voted unanimously to sustain Mayor Erickson in the event that Townley brings suit. The article for which Townley demands a retraction was approved by the safety committee of the county, and by county representatives of the state public safety commission before it was published.

WAR SUMMARY

By Associated Press. All the important infantry fighting last night in the western theater was confined to the French front, where attacks by the Germans in the Aisne and Champagne sectors, as well as the Verdun region, were repulsed. Haig About Ready. There is promise of a speedy renewal of the activity in Flanders, however. Field Marshal Haig, for instance, sends today one of those laconic reports that so frequently have preceded attacks on the front. "Nothing of special interest to report" has meant in several cases that the British guns had opened drum-fire preparatory to an attack. Germans Expect It. The German high command apparently is anticipating a renewal of the British drive, as the latest Berlin statement in reporting the intense artillery activity in Flanders said no infantry attacks had taken place "up to the present." Good Weather at Last. There has been a spell of comparatively good weather in the area east of Ypres, where the British steam roller is pushing its way through the German lines. Thus the British aviators apparently have been able to collect sufficient information to enable their artillery to pursue its work, while the mud fields presumably have dried out somewhat. Bulgarians "Cede" Towns. An admission of possible significance was contained in the German statement on the Macedonian front situation, received late last night. Several villages in the eastern armies in Macedonia recently and it seems possible that some aggressive use is finally to be made of the huge force the allies have had assembled there for many months. Aims at Saloniki. Such a move might be made in anticipation of a Bulgarian attack on the Saloniki front of the allies, to which Germany is reported to have been urging King Ferdinand. Emperor William's visit to Sofia has been

REEL THEATRE TODAY "MUTINY"

RUSSIA MUNITIONS FACTORIES READY TO MAKE SUPPLIES. STOCKHOLM, Oct. 17.—An encouraging report as to the munitions factories in the interior of Russia comes from the commission, headed by General Germond, of the Russian army, and an English general who has just finished a tour of inspection of all the factories newly erected or under erection for the manufacture of airplanes, arms and ammunition. FRENCH TROOPS IN BELGIUM MAKE RAID ON GERMAN TRENCHES. Paris, Oct. 17.—The war office statement today follows: "In Belgium our patrols in reconnaissance before our new lines brought back thirty prisoners. "We repulsed attacks southeast of Juvincourt, near Mont Carnillet and on the front north of Chauvine Wood. In the last named region the artillery fighting became very intense late in the night. We made a successful attack on a German trench at the foot of the heights of the Meuse and brought back prisoners."
