

IRELAND WILL RESEMBLE A CRAZY QUILT

Conscription and Non-conscription Districts will be Scattered Broadcast.

Dublin, Sept. 20.—(Correspondence of the Associated Press.)—Ireland soon may become a "patchwork quilt" of conscription districts and non-conscription districts according to members of the Irish recruiting council, whose allotted time for raising 50,000 volunteers as an alternative to conscription, is drawing to a close, with a quota for each, and has arranged with the government that in districts which fill their quotas, conscription will not be applied, even though the total of volunteers falls below the required 50,000 men.

The council, which is composed of five Irishmen, representing all parties, has divided the country into ten districts, with a quota for each, and has arranged with the government that in districts which fill their quotas, conscription will not be applied, even though the total of volunteers falls below the required 50,000 men.

It is generally predicted that some of the districts will fall far short of their quotas. And there, conscription is expected to be inaugurated, even at the cost of resistance.

The objection of many young Irishmen to entering the army, and the traditional Irish hostility to the war office is being met by recruiting agents by pointing out the special attractions of the royal air force. This service is not under control of the war office, and it has the added advantage of having many non-fighting positions.

Political feeling runs high, however, and the class of young men, who make the best soldiers, the "militia troops" are not volunteering in large numbers.

Two or three members of the Irish parliamentary party have identified themselves with the recruiting campaign, but the party as a whole has held aloof.

Side by side with the operations of the recruiting council, Colonel Lynch, member of parliament, is conducting a crusade of his own with the view of organizing a brigade which he hopes to command. Colonel Lynch fought on the side of the Boers against Great Britain, but his feelings toward the present war have led him to lay aside all racial feelings and come out on the side of the Allies.

THIRD OF REGISTRANTS ARE WOMEN.

New York, Oct. 8.—On the first day of registration for the state elections next month, women in New York city registered at the rate of about one to three with the men. It was announced today. The complete figures were: Men, 75,757; women, 24,066. The registration of women has attracted particular attention of political observers, for it will be their first opportunity to participate in a general state election.

MANY ATTEND MEET.

Juneau, Alaska, Sept. 15.—(By Mail.)—Natives from the town and villages of southeastern Alaska are planning to attend the Alaska Native Brotherhood convention to be held at Honah, a village near here, during the first week of November. Native and white speakers will be heard.

IF KIDNEYS ACT BAD TAKE SALTS

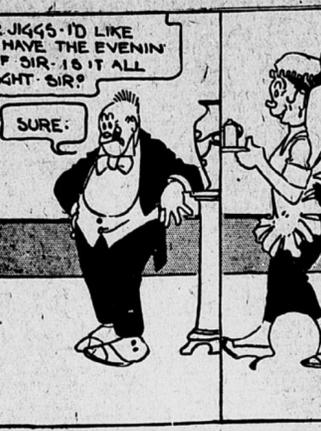

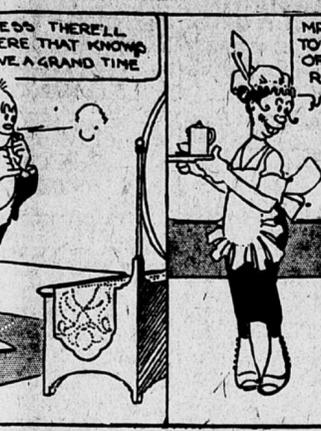

Says Backache is Sign You Have Been Eating Too Much Meat.

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them. Like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells, your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scale and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Iod Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Iod Salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink.

BREWERS AGAIN CHARGED WITH FINANCING PAPERS FOR PURPOSE OF AIDING LIQUOR INTERESTS

Washington, Oct. 8.—Charges that the United States Brewers' association and individual members have secretly financed newspapers in the interest of the liquor traffic, contributed to the national German-American Alliance, been convicted of corrupt political practices and improperly influenced state and national legislation, were renewed in a memorandum filed today by Senator Jones of Washington, Republican, with the senate judiciary sub-committee investigating loans by brewers to Arthur Brisbane in connection with the latter's purchase of the Washington Times.

Senator Jones presented his memorandum for the purpose of contending that the inquiry is unlimited in scope and not as has been suggested, confined alone to the Washington Times.

In his memorandum Senator Jones said neither the numerous recitals in the resolution's preamble nor any remarks made in the senate were intended to limit or restrict the inquiry. Every charge made, he declared, will be fully supported by documents of the Alien Property Custodian Palmer and the department of justice.

Documentary evidence alone, the memorandum asserts, will establish the following facts:

"That the United States Brewers' association, individual brewers and corporations have financed newspapers in the interest of the liquor traffic, and deceived the public as to secret arrangements for money loaned which in some cases was to be repaid at the discretion of the newspaper owner out of the profits of the paper, if there should be any profits.

"That the United States Brewers' association and certain individual brewers who helped finance certain newspapers advocating the liquor traffic also contributed to the national German-American Alliance and financed the publication of its official organ after the sinking of the Lusitania and other similar German atrocities.

"That the United States Brewers' association and certain individual brewers have been convicted, pleaded guilty or nolo contendere to charges of violations of federal corrupt practices act and other criminal laws and paid several hundreds of thousands of dollars in fines and penalties.

"That the national German-American Alliance was financed in part by the brewers' association and individual brewers and liquor dealers.

"That the brewers' association through organizations whose identity has been concealed such as the so-called National Association of Commerce and Labor, Manufacturers and Dealers' association, Businessmen's association, Taxpayers' League, Home Rule and other organizations, have made political surveys relating to the attitude of candidates for office and how they could be influenced and controlled in the interest of the liquor traffic, said organization and individuals also have encouraged the starting of strikes in dry territory and

FOUNDRYMEN TO PRODUCE A LARGE NUMBER OF SHELLS

Milwaukee, Wis., Oct. 8.—American foundrymen will be called upon by the government to produce more than thirty million semi-steel projectiles during the next twelve months, according to delegates to the meeting of the American Foundrymen's association and the American Institute of Mining Engineers, which opened here yesterday.

The process of manufacturing this type of shells is practically unknown in this country and careful study will be given the question at the meeting. Colonel Martinon, head of the French technical mission, and other experts now touring America, will explain in detail the methods that have been used in France.

For several years semi-steel shells have been cast in French foundries, but production today is inadequate to meet the requirements of the armies on the western front, it was stated.

Colonel Martinon will be accompanied by a large number of ordnance engineers, technical experts and shop foremen, who constitute the mission. The visit of the mission is the result of an agreement between the French and American governments for the purpose of obtaining peace liquidation and short selling led to a sharp setback in prices. The close was weak, 1-2 to 4 cents net lower; with Standard 7 3/4 @ 72 3/4; western range beef steers, \$14.00 @ 17.75; cows and heifers, \$8.75 @ 13.00.

Sheep receipts, 43,000; market firm to 15 cents high; calves, fat lambs strengthening most; broader demand for feeders.

UNIONS FORMED IN SIBERIA.

Tokio, Sept. 15.—(Correspondence of the Associated Press.)—Failure of the Bolsheviks to control Siberia was partly due to the fact that the leaders of the province, the so-called "co-operative unions" have organized "co-operative unions" throughout the country which have welded the people into one great family, hostile alike to the blandishments and radicalism of the former regime living in the region between Ural and Irkutsk. These organizations are secret and, while each is a separate and independent entity, all are united for mutual benefit for the maintenance of the provisional government, financing and the transaction of business.

Mr. Petroff declared it was owing to the assistance of these societies in providing arms, munitions, food and clothing that the Czech-Slovaks have been so successful against the Leninist-Trotskyist forces. The people of Siberia, he said, were anxious when he left Siberia to see the country along the railway cleared of the Bolsheviks and order and tranquility restored by the Allies.

Contrary to inspired German reports, Mr. Petroff stated, there is only one government in Siberia, the provisional government of autonomous Siberia. This government, he said, is supported by the "co-operative unions" which have organized self-determinate governments in various parts of the country and these are now co-ordinated.

MISSIONARIES IN ALASKA.

Fort Yukon, Alaska, Aug. 29.—(By Mail.)—Two hardy missionaries of the Anglican church last winter sledged nearly 1,000 miles along the dark Canadian Arctic coast and out over the ice packs visiting Eskimos who at that time were busy hunting seals.

About 600 miles of the trip were made in December, January and February, the darkest months of the year. During the dark months the Eskimos do not travel much and are found often in villages of snow huts, sometimes many miles from land. The missionaries started from Herschel Island, which lies in the Arctic off Canada.

PRICE OF CORN HIGHER TODAY

Chicago, Oct. 8.—Prospects of an unyielding answer to the German peace note tended today to bring about an upturn in the price of corn. Buying orders, however, came chiefly from shorts. Trade was not large. Opening prices which ranged from half to 1-3 4-c higher with November 1-2 1/2 to 5-8 and December 1.22 1/4 to 1-3 were followed by a slight reaction and then a moderate fresh advance. Oats ascended with corn. Country offerings were small. After opening unchanged to 3-4 higher with November 38 3/4 to 39 1/2 and the market continued to advance.

Depression in hog values weakened provisions.

Throughout the day, scattered selling took place and support was very limited.

GAINS MADE IN STOCK MARKET

New York, Oct. 8.—The further activity of shippings in which the turnover almost doubled that of any other issue, was the noteworthy feature of the forenoon on the Stock exchange. Marine preferred reacted almost 2 points on realizing sales and oils also proved susceptible to profit taking. United States steel reflected substantial support and railway general war shares and Allied specialties were only moderately impaired. Rails continued dull and irregular with utilities, American telephone however making a further gain of 2 points. French government 5 1-2's rose to the year's high record of 101 1-2.

New York, Oct. 8.—Shippings and oils led the active list to substantially higher levels at the opening of today's stock market, firmer tendencies ruling elsewhere. Overnight war news seemed to stimulate short covering in stock of recent weakness, notably United States Steel, which gained a point. Marines preferred was the most conspicuous feature, advancing four points in the first half hour on extensive buying. Texas company and Mexican petroleum were next in favor, rising 1-2 to 2 points. War shares as a group were higher by fractions to a point but rails were dull and little changed.

United States steel and many of the prominent issues strengthened in the afternoon, a few showing gains of 1 to 2 points over yesterday's final quotations.
