Her First Biscuits

The Randalls were newly-weds. Betty, arrived in the city last evening to remain for several days. Dr. Follett will attend the state dental convention which opened here today.

"Well, Betty, how about some supper?" said Dick as he threw himself in a chair after a strenuous afternoon of unpacking. "I'm as hungry as the Russian army," he said. "I'm starved, too," sighed Betty, "but what shall I do?" "You know what I'd like?" said Dick reflectively. "Hot biscuits with lots of butter and—"

"Hot biscuits!" cried his wife. "Oh, Dick, I wouldn't dare—you'd never eat them." "Sure I would," retorted Dick. "You can make them. Everything's here—flour, milk, and don't you remember that can of Ryzon Baking Powder and the Ryzon Baking Book in the box?"

"Why hesitate?" Betty asked. "I took a little argument to convince Betty, but she finally agreed to try. Closely she followed the directions in the Ryzon Baking Book. And as she slid the pan into the oven she felt quite certain of success.

"They can't help but be good," she said to herself. "For Aunt Mary told me that if you use Ryzon and follow directions, your baking simply has to turn out right. And the biscuits were good. Dick couldn't say enough in their favor and in praise of Betty's cookery. And as Betty went out in the kitchen to replenish the plate she smiled happily.

"Dear old Aunt Mary," for remembering to put the Ryzon in the box. The new Ryzon Baking Book (original price \$1.00, containing 250 practical recipes, will be mailed, postpaid, upon receipt of 20 cents in stamps or cash. TAFFETA FROCK HAS PETAL-LIKE SKIRT TO HONOR SPRING

By Eloise.

The taffeta frock which will continue popular until the very warm weather arrives is appearing in many new modes. It will always find favor at the between-seasons time, and especially in the early spring and fall. In fact, it is getting to be the accepted thing that no well-dressed woman considers her wardrobe complete unless she has at least one simple little taffeta frock for her informal affairs and general wear.

This charming model made of navy blue taffeta has been inspired by the early blossoms of spring, for the skirt is very like flower petals, each tier scalloped and edged with narrow fluting. The bodice is a quaint little short-sleeved affair with a net and lace gilet and band of Roman striped ribbon with a row of the fluting on both edges forms the girder.

The smart little hat worn with this frock is navy blue straw trimmed with a cluster of pink roses. A colorful touch is added by the little eye veil of black Chantilly lace.

The nurse replied that there was such a person there, adding: "But he's convalescing now." "Ah beg yo' pardon," said Nap perplexedly, scratching his wool. "He's convalescing now," she repeated. "Well," said Napoleon, "if yo' don't mind, I'll set right here and wait till he gets through."—The Home Sector.

HOW HE DID IT Jones was very much surprised to see a lot of quite nice looking clocks displayed in a window, marked \$5 each. He went inside and asked to see one. "I don't know how you can do it at the price," he remarked. "It must cost that to make one of these." "It does," replied the jeweler. "Then where does your profit come in?" asked Jones in amazement. "In repairing them," the jeweler informed him bluntly.

It's Easy to Peel Off All Your Freckles The contrast between the freckles and the clear skin usually is so great that no bleach can be more than partially successful in obliterating the disfigurements. Ordinary mercerized wax is far better; it literally peels off the freckles. Get an ounce of it at the nearest drug store and tonight spread on enough to completely cover the face; remove in the morning with warm water. Repeat daily until every freckle has disappeared. Rough, blotchy, pimpled skin, also common at this season, may be entirely gotten rid of by this same method, with out discomfort or inconvenience. The effort is decidedly worth while, the new complexion obtained being so clear, smooth and youthful.

ON DETAIL Private Napoleon Booker Washington Simpson had obtained leave of absence to visit his buddy, who had been wounded and was in a nearby field hospital. He was stopped at the entrance by an army nurse, who asked him what he wanted. "Has your got a dark complexioned man named Johnson what's been shot in his hospital?" he inquired.

The Last Corn

When you end your corn with Blue-jay, it will be the last corn you let grow. You will know how to stop the pain. And how to quickly and completely end all corns. There are millions who use Blue-jay now, and they never let a corn remain.

The new-day way Blue-jay is the new-day way, the scientific method. It was perfected in a laboratory world-famed for its surgical dressings. It is supplanting the many treatments which are harsh and inefficient. It has made paring as ridiculous as it is unsafe, for paring doesn't end corns.

What that corn does all corns will do. Some 20 million corns a year are ended in this way. Don't suffer corns. Don't have your feet disfigured. They can be ended almost as easily as a dirt-spot on your face. They are just as incurable.

Do this tonight: Apply to a corn a Blue-jay plaster or liquid Blue-jay—whichever you prefer. Mark how the pain stops. Then wait a little and the corn will loosen and come out.

Don't forget this. It means too much to you. Ask your druggist for Blue-jay.
