

### ATTEMPT MADE TO WRECK R. R. UNIONS, CHARGE

#### Jewell Declares Association Of Railways Responsible For Strike.

Chicago, Sept. 20.—With counter charges of a union wrecking conspiracy of railway executives injected into the proceedings by the defense, hearing on the governments rail strike injunction continued before Judge James Wilkerson today with only two days remaining to finish testimony and complete arguments before the temporary restraining order expires tomorrow night.

The charge of a conspiracy to destroy the railroad unions was made in an affidavit by B. M. Jewell, head of the shop organization, in answer to charges by Attorney General Daugherty that the rail strike was a conspiracy against interstate commerce.

The Jewell affidavit was read by his attorney, Donald R. Richberg, who today continued the defense attack on the Daugherty injunction bill. Mr. Richberg indicated that he would consume the entire day with his counter charges and argument.

In his affidavit Mr. Jewell laid the blame for the strike at the door of the Association of the Railway Executives. Twenty-five rail heads linked together in the operation of 99 class one ends, with a trackage of 211,230 miles or 82 per cent of the country's entire mileage, were specifically mentioned as responsible for conditions leading to the strike.

### ORIENTAL RUGS OF GOOD QUALITY ARE SCARCE IN TURKEY

Constantinople.—Good Oriental rugs in the local market are hard to get nowadays, and the principal reason is lack of transportation facilities from the producing centers. Hence prices on good stock are being maintained.

The city abounds in rugs, however, the demand from the United States and England giving a stimulus to the trade, but many are of poor quality. This grade is cheap, and there are few buyers.

When the Russians got into the Caucasus the authorities confiscated large stocks of good quality. As these rugs cost them nothing, they sent them to Constantinople for sale at very low prices. The first shipments from Batum included some of the finest Karaks ever seen in the public market, and the buyers will have a similar opportunity again.

Later, when the best stocks had been exhausted, the Russian authorities exported what may be termed the sweepings of the rug districts, and most of the Shirvans received here were of very poor quality. Prices on these goods now are low.

A large number of Beluchistan rugs came to Constantinople early in 1922 and were all sold at once at a fairly low price. But one had difficulty in finding 50 good pieces, a thousand, and not more than three or four pieces of what private buyers call "Blue" Beluchistan.

Germany is out of the market, the import of Oriental rugs being prohibited, Italy bought a limited quantity of a poorer quality, and Switzerland and Czechoslovakia also took a few.

### "UNCLE DAN" OF THE K. C. PASSES AWAY

New Haven, Conn., Sept. 19.—Daniel Colewell, one of the incorporators of the Knights of Columbus and known to thousands of knights as "Uncle Dan", died at his home here today in his 74th year. He was supreme secretary of knights for twenty-seven years and was historian at the time of his death.

### PERMANENT INJUNCTION IS SOUGHT

The body of John Tara, a naturalized American, address unknown, was buried today.

Mustapha Kemal Pasha has declined the request of the Allies to permit Greek ships to remove refugees and he can confer with the authorities at Angora.

Large groups of Christian are still being moved toward the interiors.

The crowds on the quay are thinning out. The food and sanitary problem continues serious. The Standard Oil company is the first American organization to resume work. Mustapha Kemal Pasha has promised to protect the company's tanks.

**More Refugees.**  
(By The Associated Press.)  
Constantinople, Sept. 20.—The American torpedo boat destroyer Simpson arrived here, bringing more American eyewitnesses of the Smyrna fire. All agree that the fires originated in the Armenian quarter of the city and assert that the evidence strongly indicated that the Turks willfully started the fire.

The Kemalists hated for the Armenians is much more intense than for the Greeks, these observers explain, and they believe the Turks determined to exterminate the Armenians at the moment of their invasion.

**Fire Loss Enormous.**  
(By The Associated Press.)  
Smyrna, Sept. 20.—American and British insurance experts estimate the total property loss in Smyrna at \$150,000,000 only \$60,000,000, of which is covered by insurance. British underwriting companies will bear the burden of the loss. The American property loss is placed at about \$12,000,000, the greater part insured.

It is impossible to estimate the loss of life. Most American observers agree, however, that fully 6,000 perished in the flames. No cautious man would venture to say how many were deliberately massacred, and it is undeniable that there were wholesale deportations. The fate of these unfortunates can only be conjectured.

### MARAUDERS HOLD ASSAILANTS OFF WITH SHOTGUNS

On checking up the loss from the robbery it was found that about \$2,000 in cash had been taken by the robbers, the other contents of the safe not having been taken. The loss is covered by insurance.

The wounded men were taken to Crookston today for treatment. All will recover. Mr. Tagley was able to be up today and to give an account of the entire affair.

When the scene of the robbery was investigated this morning, a number of exploded shotgun shells were found strewn about as well as a .44-caliber automatic pistol which had apparently been dropped by the bandits in making their escape.

**Brother of Local Man.**  
Joseph Tagley, cashier of the Mentor State bank, wounded in the fight there early this morning, is a brother of A. J. Tagley of Grand Forks, who is employed as a linotype operator by the Grand Forks Herald.

### Court Will Decide On Status Of N. D. Workman Employed Outside State

Bismarck, N. D., Sept. 20.—Whether the workman's compensation act of North Dakota applies to an employee of a North Dakota employer working outside the state is a question being presented to the supreme court today in the suit of Martin Altman against the bureau, appealed by the bureau from the Stark county district court.

Altman was working for J. H. Piper of Larimore, ice harvester, in the state of Washington when injured. Piper had insured his men

under the Washington compensation act and, according to the bureau's contention, Altman received benefits amounting to \$210 from the Washington bureau and physicians' fees before making his claim against the North Dakota bureau, with which Piper was not insured.

It is contended by Altman's attorneys that the North Dakota act is extra-territorial. The compensation bureau attorneys deny that the act is extra-territorial, and assert that if it should be the claim made by Altman from the Washington bureau entitles him from a claim in North Dakota. Although the North Dakota law is compulsory, bureau attorneys hold, the obligations do not rest on contracts between parties and are not extra-territorial, although some compensation laws where employer and employe elect to be bound have been held to be extra-territorial, the parties having contracted to be bound by the compensation law wherever the employment took the employe. Altman's home is in Dickinson.

(By The Associated Press.)  
Mexico City, Sept. 19.—Twenty persons, among which are thought to be several Americans, were reported dead, and a large number injured, in a railroad wreck early today of a 400-bound passenger train, which Mexico City last night, at a viaduct near Queretaro.

## Results of Druesen-Kraft Gland Tonic Amaze Doctors

Thousands Endorse Druesen-Kraft Gland Tablets as the Quickest, Easiest and Safest Way to Restore Youthful Vigor and Health!

Your life and health depend on your glands! You are just as strong or just as weak as are your glands. Your heart, liver, kidneys, stomach, even your brain depend upon the vital gland secretions, and most ailments among men, women and even children result from gland weakness! This is the most recent startling discovery of the world's foremost medical minds!

"Man is just as strong and healthy as are his glands," says Dr. Serge Voronoff. While the glands are strong and active, the body is vigorous, and the mind is alert. But illness, age, worry, exertion and the strain of modern living weaken your glands every day and this weakness is the cause of most ill-health.

After years of research and experiments, a way to rebuild and strengthen the glands, and regulate their activity was discovered at \$1.25. IT MUST BE DRUSEN-KRAFT TO BE THE GENUINE GLAND TONIC.

Sold in Grand Forks by Trepanier's Pharmacy, and by leading druggists everywhere.

**Exide BATTERIES**

**What is— a worth-while battery?**

The eager whir of the motor the moment your foot touches the starting pedal. Lights instantly bright at the turn of a switch. Those are the gifts to you of a really powerful battery.

And when reliable power is combined with exceptionally long life, as in the Exide, then your battery is not merely a comfort, but a genuine economy.

An inferior battery, cheap in its first cost, is always the most expensive in the long run.

Exide has earned its title of the long-life battery, from the day eleven years ago when the first battery (an Exide) took its place in an automobile. Today more cars leave the factories equipped with Exides than with any other make of battery.

You are entitled to a real battery, and from every angle it will pay you to get one. Go to the nearest Exide service station and see for yourself the rugged quality that is built into the battery made for your car.
