from 1,000 to 1,500 revolutions per minute. A DISPLAY OF GREAT NERVE. In the midst of this horrible agony Carpenter seems to have maintained his presence of mind, for he cast himself backward and got off the auger, falling to the floor as he did so.

A Buch-rest correspondent says: "Contradictory reports in regard to the conditions of the proposed armistice continue. The Russians have probably not yet made any proposal, but all reports current point to severe conditions. A rumor is in circulation in Berlin that the Russian demand the evacuation of the Danube fortresses and the withdrawal of the Turks to the line of demarcation between Adrianople and Philippopolis. It is rumored that Grand Duke Nicholas has demanded the surrender of Adrianople in the present condition. No great confidence in the conclusion of the armistice is felt at Bucharest, unless the matter is conducted entirely by Russian diplomats to the virtual exclusion of the military element.

The Porte asks for Conditions. CONSTANTINOPLE, 12th, 9 A. M.—Encouraged by the German Ambassador, who intimated that Russian conditions of peace would probably be moderate, and in regard to the making of the original peace, the Porte has asked the Russian Government to state what conditions it will demand.

(From the Evening Express.) A Note From the Painter of the Original Bear Flag. The historiographer of the Pioneer Society of California, John S. Hittell, a few days since published a sketch of the history of the famous Bear Flag, made at Sonoma before hostilities were declared between the United States and Mexico. As the sketch contains internal evidence that there is a conflict of statement as to the true history of this flag, we addressed a note to Mr. Wm. L. Todd, of this city, the artist of the occasion, to make public the facts connected with that important episode. He sends us the following reply:

LOS ANGELES, Jan. 11, 1878. J. J. AYLES, Esq., EDITOR EVENING EXPRESS.—Your letter of the 9th inst. came daily to hand, and in answer I have to say, in regard to the making of the original "Bear Flag" of California, at Sonoma, in 1846, that when the Americans, who had taken up arms against the Spanish regime, had determined what kind of a flag should be adopted, the following persons performed the work: Granville P. Swift, Peter Stern, Henry L. Ford, and myself. We procured in the house where we made our headquarters, a piece of new unbleached domestic, not quite a yard wide, with strips of red flannel about four inches wide, furnished by Mr. John Sears, on the upper and lower side of the canvas. On the upper left hand corner was a star, and in the center of the image made to represent a grizzly bear passant, so common in this State at that time. The bear and star were painted with paint made of luscious oil and Venetian red, and Spanish brown. Underneath the bear were the words "CALIFORNIA REPUBLIC." The other persons engaged with me got the materials together whilst I acted as artist. The forms of the bear and star and of the letters were first lined out with pen and ink by myself, and the two former were filled in with the red paint, but the latter with ink. The flag mentioned by Mr. Hittell, with the bear rampant, was made, as I always understood, at Santa Barbara, and was painted black. Allow me to say that at that time there was not a wheelwright shop in California. The flag I painted I saw in the room of the California Pioneers in San Francisco in 1870, and the Secretary will show it to any person who will call on him at any time. It is the one I painted, it will be known by a mark I made in lining out the words "CALIFORNIA REPUBLIC." The letters were first lined out with a pen and I left out the letter "I," and lined out the letter "O" in its place. But afterwards I lined out the letter "O" in the "O," so that the last syllable of "REPUBLIC" looks as if the two last letters were blended.

Yours respectfully, WM. L. TODD.

PIERCED BY AN AUGER. A Terrible Accident at the Savage—William Carpenter, While Boring with a Steam Auger, Falls upon the Machine and is Transfixed. [From the Virginia Chronicle, Jan. 8.] About 5 o'clock last evening one of the most extraordinary and horrible accidents that ever happened on the Comstock, took place in the Savage carpenter shop. Here there was in use a steam auger, which points toward the workman and makes 1,000 revolutions per minute. It is a self-feeder, and anything that is laid up against the point is caught and thrown over its coils with lightning-like rapidity. William Carpenter, the unfortunate victim at the time mentioned, was boring a hole through a stick of hard-wood, about three inches thick and eight feet long, and was leaning his right against it, under the impression that there was a gauge attached to the machinery to prevent the block going further along the auger than the distance required. Suddenly a workman near Carpenter observed an indistinguishable look on his face as his body shot forward and doubled over the terrible machine. It had passed, like a feather's sword, through his stomach and was protruding at the back. He was literally impaled upon the auger, which was churning his intestines at the rate of

SPECIAL NOTICES. From a Distinguished Jurist. "I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a new man of me, infused into my system new vigor and energy. I am no longer tremulous and debilitated, as when you first saw me, but stronger, nearer, and with a larger capacity for labor—mental and physical—than at any time during the last five years. A Remarkable Cure. West Townsend, Vt., May 14, 1860. Messrs. W. & A. Leitch, I am a sufferer from a severe cold, which settled on my lungs, where it remained without relaxation.
