The Crops.

We have devoted some attention to investigating the present condition of the crops in Los Angeles county. First, we have ascertained, and it is a most gratifying circumstance, that the wheat crop of the San Fernando valley is in most capital trim.

There is absolutely no lodgment of wheat there. The kernels are filling out finely and the result can hardly fail to realize the anticipations of the farmers. The fact is that we have nowhere heard of any injury to the wheat crop.

Coming down to the barley crop, it is an undoubted fact that much mischief has resulted from the May rains. A good deal of barley has "lodged."

Some days ago we stated that Mr. E. J. Baldwin, on his Santa Anita ranch, had expected a crop of 125,000 sacks of grain, and would only harvest 25,000.

There was a good deal of the Convention style of thing in Los Angeles yesterday. First we had the Farmers' Convention in the County Court room.

SOME Democratic Governors, who are not characterized by the rare sagacity of Governor Robinson, of New York, are distinguishing themselves just now by deprecating the Potter Investigation.

with the verdict of the people. There is to be found on the docket of the Supreme Court of both of those States the details of the legal process by which they sought to impede the frauds, certain in one case and suspected in the other.
