UNITARIAN SERVICES - Union Hall, Spring street. Rev. John D. Wells, Minister. Services every Sunday at 11 A. M. and 7 P. M. Sunday School at 10 A. M. and 7:30 P. M. Sunday School at 10 A. M. and 7:30 P. M.

CHURCH OF CHRIST - Preaching in the Court House by the Pastor, John C. Hay, at 11 A. M. and 7 P. M. Sunday School at 10 A. M. and 7:30 P. M. Sunday School at 10 A. M. and 7:30 P. M.

EVANGELICAL LUTHERAN CHURCH - Union Hall, Spring street. Rev. J. M. Cunningham, Pastor. Services at 11 A. M. and 7 P. M. Sunday School at 10 A. M. and 7:30 P. M. Sunday School at 10 A. M. and 7:30 P. M.

LOCAL BREVITIES. Col. J. F. Godfrey returned from San Francisco by yesterday's overland train.

Mr. D. W. Gelwick arrived by yesterday's overland train from San Francisco.

A very pleasant moonlight picnic was given at Washington Gardens last night.

A number of the excursionists went down to Santa Monica last evening to take an ocean bath.

Mr. A. J. Hamilton is about to open a store in Santa Ana. He has the qualities to make it a success.

Prof. J. M. Munroe will preach at the Court House to-day at 11 A. M. and 5 P. M. All are invited to attend.

The total receipts of the late Jubilee, we learn, were about \$1,000, expenditures nearly \$800, leaving the net profits something over \$200.

A number of families who accompany the excursion party have made arrangements to spend the summer in this city and Santa Monica.

Hon. P. F. Colby, County Judge of Kern County, is one of the party which arrived from Bakersfield yesterday and is stopping at the St. Charles.

All persons who have claims against Mr. J. Lenoir are notified by advertisement in our New Today to present them at his store at Mr. Charles's.

We had a pleasant call from Hon. Geo. V. Smith, delegate at large from the Fourth Congressional District to the Constitutional Convention, last evening.

The scoldings gathered in the neighborhood of Wilmington are highly delicious. We wonder that more of them do not find their way to Los Angeles.

Our city was well inspected yesterday by the Bakersfield excursionists. They were evidently delighted with their reception and after experiences.

Quite a number of handsome ladies are amongst the Bakersfield excursionists. The climate of that section though warm is evidently favorable to a brilliant complexion.

The Bakersfield Excursionists.

The fifteen hundred acres of barley belonging to the Messrs. Nadeau and Frye, on the Brea ranch, is turning out well. The grain is very fine and the yield quite fair for such a season as the present. A little less than one-fourth of the crop has been threshed out, and the yield is upward of seven thousand sacks. Sixty men are employed in the threshing operations. The whole tract will probably yield thirty thousand sacks, giving an average of twenty sacks to the acre. Most of the barley sown by Mr. Nadeau on the Centinela rancho is turning out well, especially the later sown well. Much of that which was planted before the first rain lodged; but, taking the average, the crop will be a fair one.

The crop prospects of the Los Nietos valley are thus reviewed by the Downey Courier: "From an interview with many farmers of the valley, and other information we have been able to gather, we conclude that splendid crops of corn are assured, provided the water troubles are settled satisfactorily to the mass of farmers, so that the cornfields can be irrigated when they require it. Some fields have required replanting several times, on account of worms, and as a consequence the corn is rather small, though doing well now. We have seen some magnificent corn fields this year, as thrifty as were ever beheld even in this prolific valley. The worms have disappeared, and the genial sun hastens the growth of the corn. As we have said, the prospect for an abundant yield of corn is now promising."

Last night Col. A. E. Redstone, announced as President of the National Council of Workingmen, at Washington, D. C., addressed an audience of about one hundred persons from the steps of the Court House. Col. Redstone is an orator who is notably in many of our local speakers of the Workingmen's organization, and he failed either to hold or to enthrall his audience. The portion of his language heard by us was a feeble but incendiary character.

Mr. W. Saalberg, editor of the Hebrew Observer, of San Francisco, came down on yesterday's train. Mr. Saalberg, who is President of the District Grand Lodge No. 4, I. O. B. B., visits Los Angeles for the purpose of installing the recently elected officers of Orange Lodge No. 224, of this city, which interesting ceremony will take place at Masonic Hall this evening.

Mr. J. Lenoir having been called to San Francisco to attend to his business there, yesterday disposed of his large stock of furniture to Messrs. Dotter & Bradley, who will remove it to their extensive warehouses. Mr. Lenoir will remain in this city for a few days to close up his business, when he will go to San Francisco to give his personal supervision to his factory in that city.

Fitzgibbon, who was brought here from Mojave day before yesterday, was examined before Judge Peel on two separate charges of obtaining money under false pretenses and found guilty on both. As he would not waive time, his sentence was deferred until Monday morning. There is a charge of robbery still pending against him.

There were forty-five persons at Silverado on Wednesday evening. The mountains are swarming with people, and every man has a bonanza in possession or prospective. There is about twenty thousand dollars worth of ore lying on the ground at the Harvey & Thistlewater mine - Gazette.

At a meeting of the Board of Trustees of Anaheim School District, held on Monday last, the contract for the building of the new school house was awarded to Mr. G. F. Leonard, of Los Angeles, for \$9,100. The offer of Messrs. Perry, Woodworth & Co. to purchase the bonds of the School District at par, half gold and half silver, was accepted.

Mr. Charles E. Johnston who, for years, has carried on an insurance business in Los Angeles, is about to remove to San Francisco, to take charge of several agencies in that city. Mr. Johnston is an able business man and a cordial gentleman and we wish him success in his new field.

The attention of our readers is directed to the auction sale of household furniture to take place on the premises, No. 28 Ducommun street, next Wednesday. As our friend Noyes will wield the hammer, purchasers may rest assured of getting bargains.

Hon. Theron Reed, Judge of the Sixteenth District, Hon. George V. Smith, delegate elect to the Constitutional Convention, and General J. W. Freeman, District Attorney, accompany the excursionists from Bakersfield. They are registered at the United States.

Col. Wood's perambulatory show will be the most sensational thing in the theatrical line ever seen in Southern California. It will, when in motion, be a good deal on the order of the oriental caravan. The Colonel will soon set out.

Mr. Sol Jewett, President of the Kern County Bank, is registered at the United States Hotel. Mr. Jewett is one of the largest ranchers and breeders of thoroughbred sheep and fine stock generally, in San Joaquin valley.

In the match game of base ball between the Alerts of Pasadena and the Nameless of this city, played at Boyle Heights yesterday afternoon, the score stood: Nameless, 29; Alerts, 12.

Wm. McGarry was examined before Judge Peel yesterday on a charge of petit larceny, but the evidence being insufficient he has discharged. Felipe Lastra pleaded guilty to the charge of exhibiting a deadly weapon and was fined \$5.

Alexander Godoy, a noted scold and guide of Fremont, is one of the Bakersfield excursionists. Godoy is known by reputation at least to all old Californians and he is frequently mentioned in the Pathfinder's works.

A Railroad Ride Northward.

EDITOR HERALD: Among the first and most noticeable things in a ride by rail northward is the splendid condition of the road. The damages caused by the rains and severe cloudbursts in the Tohachapi mountains last winter have been fully repaired, and the road is now safer and better than at any previous time since its construction. This noticeable fact, and the everywhere visible care exercised by conductors and engineers, gives the traveler a sense of positive security, as the train glides smoothly round the twists and curves of the remarkable descent of the mountains, and one repeats involuntarily - "Bliss met this is pleasant - Riding on the rail!"

There has been little change in the towns along the route during the last twelve months, and there is yet but a small percentage of the country visible from the road under cultivation until we have made half the distance to San Francisco. But a noticeable feature is the fat, sleek condition of the sheep and cattle we pass, where last year the air was offensive from the festering carcasses of the thousands of dead animals.

An object worthy of observation, and from which great good may be expected, is the artesian well being sunk by the railroad company (two and a half miles south of the Tipton Station) in Tulare county. It is now down 275 feet, and a flow of one inch has been obtained. Work will be continued until big water is struck or its absence fully proven. Success there will lead to the rapid settlement of the section, as the climate and soil are favorable for the growth of everything. The railroad company has planted some fifteen acres of eucalyptus trees at the point where the artesian water is struck, and where sufficient water is obtained will have there a standing advertisement of the capabilities of the country.

Recently constructed irrigating ditches near King's river and Fresno have made some showing of development of the fine resources of the country. Further north, at Madera, is a flume of 50 miles in length, doing the double duty of bringing a fine quality of lumber from the mountains and a large volume of water for irrigating the thirsty plains. From this point a new road is being constructed for the

FAMOUS YOSEMITE VALLEY. And when completed the travel to that wonderful resort will be via Madera instead of by Merced, as now. The stage distance will be reduced some fifteen miles.

OF CROPS. Of which you desired me to be observant, very much could be said, but a flying visit by rail is not favorable for getting statistics, so you must rely upon generalities. The average statements made by traveling companions and others with whom I was brought in contact.

KERN COUNTY. Is revealing in rank alfalfa fields which last year proved a bonanza to its people, but this year, owing to the prevalence of other feed in abundance, are not considered a profitable investment. A heavy barley crop has been raised, and fifty cents per hundred is given as the market value of it. Corn is doing well.

TULARE COUNTY. Little growing crop is visible from the road, but I was advised that prosperity has generally attended the farmers about Visalia and the older settled portions of the county.

FRESNO COUNTY. Has not a big showing from the road, and I could not learn of any yields of grain that I could make a note of.

STANISLAUS COUNTY. My farthest northern point attained, has a fair crop, principally wheat. The rust has done some damage here, but not enough to cause any general depression of feeling. The lowest average we heard was twelve bushels per acre, and a large area sown. A way from the road and along the San Joaquin river - in the vicinities of Grayson and Hill's ferry - the crops are reported good and the land generally under cultivation.

THE GREAT WHEAT CENTRE. Is Merced. We could not hear of any rust, and the average yield per acre is set down at twenty-five bushels as the lowest. Many go higher than this even. The wheat is generally good. To tell you how much the country will produce would please me, but desiring to preserve whatever of a good reputation I may have in your community, I must let you have the benefit of the calculation of another, rather than hazard my reputation. Mr. Hoffman, a gentleman well acquainted with the country, is credited with the statement that the wheat shipment of Merced for this year of grain, will load

THIRTY CARS PER DAY FOR FIVE MONTHS.

Now these thirty cars would carry 300 tons per day, and the 130 working days in the five months would give us a sum to do as follows:

Table with columns: Tons per day, No. of days in 5 months, No. of tons, No. of pounds per ton, Total pounds.

Now, I am not prepared to express an opinion whether this statement is too big or too little. With an endeavor to learn what I could, I took the position of a second story brakeman on top of a freight car, and rode several miles. As far as could be seen, on either hand, were almost unbroken fields of grain, some of it already stacked in huge piles, in so close proximity as to look like villages, and others dotted with the headers and threshers busy in gathering in the harvest. The air was a glorious one, and prepared me to believe any

The Bakersfield Excursionists.

A number of our prominent citizens, accompanied by a band of music, went out to meet the excursionists from Bakersfield. On their arrival at the depot in this city the party were placed in carriages and coaches, nearly every available vehicle in the city having been brought into requisition, and driven to their hotels, preceded by the band and a carriage in which were seated Mayor MacDougal, Councilmen Cahm and Hollenbeck and City Attorney Godfrey.

The excursion party is composed of about 130 of the most prominent citizens of Kern county, who are quartered as follows: Hon. Geo. V. Smith, Hon. Alexander Godoy, J. B. Johnson, A. T. Hoffman and wife, W. A. Howell, W. H. Pope and wife, I. C. McIntosh, S. W. Hammond, S. N. Frander, Mrs. H. S. Bachman, P. N. White, W. B. Smith, Dr. J. Falls and wife, L. P. Gates and wife, H. C. Adams and wife, Bob Withington, J. Sullivan, A. O. Collins, wife and two daughters, J. O. Smith and family, S. Jewett and wife, Mrs. H. C. Smith, Mrs. L. H. Congdon and family, B. Brundage, Esq., A. J. Ritter, M. Garrett, Judge Theron Reed, M. Hane, C. Anderson, J. Henry Lee and wife, C. E. Page, and wife, Mrs. M. C. Page, Mrs. M. C. Page, Mrs. M. C. Page, Mrs. J. H. O'wenty and five children, Gen. Freeman, wife and child, Mrs. C. G. Fore, A. C. Maud, P. Lyons, T. Stiermer, Alex. Forsythe, G. H. Holland, J. Meacham and wife, H. A. Jastro and wife, Gus Saenger, Master Owensby, Miss Owensby, Miss Withington, Miss Slinker, John Hall and wife, Master Saenger, Wm. McFarland and wife, Geo. A. and wife.

ST. CHARLES HOTEL. Hon. P. T. Colby, H. C. Park and wife, H. A. Blodget and wife, S. B. Burkham and wife, Miss Burkham, J. Goldman, T. Buckley, Jas. Campbell and wife, Miss K. Said, Miss L. S. M. Perkins, Miss Yakes, T. H. Filiberto, J. M. Maul, George H. Carlock and wife, M. C. Carlock, Mrs. H. D. Robb, O. P. Henderson, Jr., W. E. Houghton, Alex. Mills, Jr., T. P. Smith, C. K. Donnell, E. P. Ball, L. Cruce, W. R. Macaud, B. Said, Paris Caruth.

It seems that the contested water case of Los Nietos is becoming a matter of the most vital interest to the farmers of that section. An adverse decision in the case now pending would be equivalent to their ruin. The Downey Courier says: "Three injunctions, issued out of the District Court, have been served upon the Board of Water Commissioners of this district, restraining them from interfering with vested rights. A motion to make permanent the injunctions was determined at the next term of the Court. The case really involves the legality of the law under which the Commissioners are acting. Able counsel are arrayed against the Commissioners, who have no regularly retained attorneys, we understand, and are rather reluctant to employ such, as, in case the law should be found illegal, payment might have to be made to the attorneys who have no means to employ able attorneys to defend the law, or will they let the matter go by default? We have heard it stated that it will be the ruin of farmers of this neighborhood if the case is not decided in their favor. It is not a pleasant spectacle to contemplate the ruin of a whole community that a few men may profit. The irrigators of this neighborhood desire, as we understand the matter, nothing but even-handed justice."

There are few institutions in Los Angeles which would conduce more to the health of this community than a liberal patronage of the Electric and Russian baths of Mr. Robert Hughes, located nearly opposite the Pico House, on Main street. If cleanliness is next to Godliness, these baths trench closely on religion, for they remove from the human cuticle every taint of bodily impurity. The process, with those who take the complete bath, is to remain for fifteen or twenty minutes in a temperature heated by steam to 115° or 125°, according to the preference of the bather. He is then treated to a warm bath, and a thoroughly rubbed. If desired, he is next thoroughly gone over with an electric sponge, after which the warm bath, heated electrically, is again resorted to. The result will be a winding up with a warm and cold shower. It is not too much to say that one emerges from this elaborate process rejuvenated physically.

Mrs. Hughes is on hand to attend to the ladies. We know nothing which is better worth the money than one of these baths.

The Horticultural Society met yesterday at 11 A. M. at Union Hall. As it was a busy day with our business men, and as it was moreover desirable to hold a meeting to consider the questions of raising funds to build the Pavilion and making arrangements to hold the approaching Fair, it was deemed best to adjourn to Wednesday next at 11 A. M. All those who are citizens interested in the success of this movement should devote a few hours next Wednesday to this enterprise.

The game of base ball which comes off at the Agricultural Park grounds, at 2 o'clock p. m. to-morrow, between the two Orphans Club of Bakersfield and the Nameless of this city, is expected to be the most exciting event of the kind that has ever taken place in Southern California. The following are the names of the gentlemen composing the Bakersfield club: H. C. Park, A. Mills, Jr., W. E. Houghton, H. A. Blodget, T. E. Smith, C. A. Maul, S. B. Burkham, B. K. Said, C. K. Bonestell, F. Bull.

statement of the wheat product of San Joaquin valley, provided it was a large story. And that is all I know about wheat, and from it I return.

A MOSQUITO STORY. Told me by the assistant landlord of the El Capitan Hotel. Being duly sworn he deposed and said: The mosquitoes which infest our fine houses show a remarkable degree of intelligence as well as of the inhuman blood-thirstiness characteristic of those pestiferous nuisances. They wait the arrival of the Yosemite stage line, and select the fairest, fattest and handsomest for their prey. They learn from the office register the numbers of the rooms of their visitors, and go for them! I had booked for 20, but on the way up bribed the porter to let me have 39 and say nothing! This little piece of strategy and four bits secured a first rate sleep in a first-class hotel, for the night.

COMODORE. Union Temperance Meeting. Mrs. Emily P. Stevens, General Superintendent Juvenile Temples: DEAR SISTER: Realizing the importance of the cause in which you are engaged, and having watched with interest your successful labors in this county, and being desirous of co-operating with you in this Christian temperance work in behalf of all, especially the youth of our land, we have pleasure in extending to you an invitation to join in a union temperance meeting prior to your departure from this county.

Yours fraternally, P. M. CUNNINGHAM, A. M. CAMPBELL, D. T. PACKARD, W. M. HILL, O. S. FRAMBERG, HENRY ANGELL. Los Angeles, July 11, 1878.
