Mrs. L. F. Baldy writes to the Express of yesterday evening complaining of Postmaster Dunkelberger. She says: "About six months ago I ordered a pair of corsets for a lady. They were sent from San Francisco by mail, but never reached me, and I have always had a great curiosity to know who was wearing those corsets, as they were rather peculiar. I did not know at that time that continual persistence could bring out that mysterious building what the Postmaster said was not there; and before I found it out I lost a twenty dollar portrait. I hope no Route Agent took it (as Mr. D. hinted that they might tamper with the mail)." Now we would like to know what has become of those corsets. We hope they are placed where they did the most good. Although we can't be persuaded to warm up to the baby carriage fund, we can be aroused to a laudable interest in the fate of corsets of a "peculiar" make. An investigation as to their disappearance is in order.

The Mechanics store elsewhere advertises for sale a superb range of clothing and furnishing goods. Mr. Meyerstein, during his late visit to San Francisco, ransacked that city for the latest and most fashionable styles and for bargains. The result is that the purchaser can obtain at the Mechanics' store nearly every article of wearing apparel, from a complete suit of clothes to a pair of suspenders, at a very low price.

Owing to the failure of the purchaser to pay up, M. D. Hare, Constable, will again sell the furniture, bar and bar fixtures of the Agricultural Park Club House to-day. The sale will take place at the race track at 11 A. M. Persons needing anything in the line of keeping line should not fail to be on hand, as rare bargains can be had.

A SENATE DOR - KEEPER'S SEARCH. The Chairs Once Filled by Clay, Calhoun, Webster, Benton and Cass. [From an interview with a World correspondent.] "Is it true, Mr. Bassett," asked the correspondent, "that the seats occupied by Webster, Clay, Calhoun, Benton, Cass, and the Senate generally of half a century ago, are now in use in the Senate Chamber?" "Perfectly true," was the reply. "I know the Senators who occupy the seats and desks of the statements you have named. I am the only person, I believe, who knows the history of the furniture of the Chamber, save certain marks on the desks and seats which Clay, Calhoun, Webster, Benton, Cass, and a dozen other prominent Senators of their time, occupied by which I can identify them. It costs me a great deal of trouble to keep the chairs and desks together during the session. The sweepers move the chairs about. Often I have found Webster's chair before Clay's desk, and the new chair of some member from a State recently admitted to the Union, before Calhoun's desk. You see every time a State is admitted, two new chairs and desks are made for the new Senators. Frequently I am asked by Senators to point out to them the seats of Webster and Clay, but I always refuse. If the history of the seats became known, curiosity-hunters would cut and deface them. Just about the time the seats were moved from the old Chamber, where the Supreme Court now is, to the new one, some one cut a few splinters from Webster's chair, but I had it repaired and changed the position of it, and it has not been marred since. It is not possible for me to be mistaken about the identity of the furniture. In an iron safe I keep a list of the seats and desks I have named with the names of the Senators who occupy them at present. Some of them are very able men I assure you. Others are not so able."

"Yes, and it has a history, too," said Mr. Bassett. "I opened the door of the Chamber to see what was doing in the Massachusetts regiment which was mobbed at Baltimore on its way South. The troops lodged in the chamber. The seats and desks had not been removed from the old Chamber, and I saw the splinters which I had repaired and changed the position of it, and it has not been marred since. It is not possible for me to be mistaken about the identity of the furniture. In an iron safe I keep a list of the seats and desks I have named with the names of the Senators who occupy them at present. Some of them are very able men I assure you. Others are not so able."
