A Testimonial to Beaconsfield from Pacific Coast Englishmen.

LONDON, Dec. 20th.—Lord Beaconsfield yesterday received a deputation from the Pacific Coast which presented a testimonial from British residents of California. In accepting the testimonial Beaconsfield said that, on his return from Berlin, he was much gratified at the recognition his efforts received from the Colonies, but this testimonial pleased him in an especial degree. He referred to the treaty of Berlin and believed that it would tend to the pacification of Europe. In that belief it was made, and though there might be those desiring its failure, that was not the feeling of the signatory Powers, who are determined to see the treaty executed. The address also referred to the acquisition of Cyprus. Lord Beaconsfield said that all the conditions under which that island had been secured, to enable the Sultan to carry out the regeneration of the most important part of his dominions, have been fulfilled. As a naval station Cyprus was not second in value to Malta. In conclusion he said that though he could not send an address and casket to California, he sent his gratitude and sympathy.

The Byzantine Disaster.

LONDON, Dec. 20.—A dispatch from Paris says that only four persons—the surgeon, first officer, chief engineer and one seaman—escaped from the wreck of the Byzantine. The disaster occurred on Wednesday night during a heavy gale. The Byzantine, on her way from Marseilles to Constantinople, was proceeding up the Dardanelles when she ran into the British steamer Rinaldo, of 1,660 tons burden at anchor off Latakia, bound for Hull. The Byzantine was a vessel of 900 tons burden and belonged to the Franchet Company of Marseilles. The Rinaldo returned to Bosphorus for repairs.

Russia and Her Students.

LONDON, Dec. 20.—The trouble continues in Russia between the Government and the students. At St. Petersburg, the students assembled before the Czar's palace to present a petition. The Czar, being at Sarskoe, Solo, the Prefect of Police ordered the palace to receive the petition and ordered the crowd to disperse, saying it was illegal to present the petition in such a manner. On the 14th instant the Agency Russia announced that, in consequence of the illegal demonstration by students of the School of Medicine, the authorities had adopted certain measures for securing public order. The Official Messenger of St. Petersburg, on the 18th instant, published a communication from the Government giving particulars of the agitation among the students of the Faculty of Medicine and Surgery, caused by the news from Charkoff that lectures at that University were temporarily suspended in consequence of some opposition on the part of the students to new class regulations. The agitation reached its climax on the 12th instant, when the students deputed some of their colleagues to explain to the authorities that the disturbances were due to the uncertainty whether a decision had been taken in regard to the petition presented to the Czar, and to the fact that if such a decision had been taken they had not been made aware of its nature. The deputation was further instructed to inform the Rector that the disturbances were partly owing to arrests made on the night of the 10th inst. The Prefect of St. Petersburg, who happened to be with the Rector, informed the students that their action was illegal and invited them

to disperse. The advice was not followed and a half squadron of Gens d'Arms were ordered and 142 students arrested and lodged in the barracks of the Life Guards of Moscow.
