

DAILY HERALD.
Herald Steam Printing House.
The Herald Steam Printing House is not surpassed by any job printing office in the Pacific Coast, outside of San Francisco, in facilities for doing job work. Low prices, good work and execution may be relied upon at this office.

Special Notice.
Inventive notices of companies, societies, churches, etc., will only be inserted in the Herald as paid advertisements. We reserve the right of warning a gratuitous directory which will appear every Sunday morning.

The Herald office is connected with the telephone system of Los Angeles city and county. Orders for advertisements or job work may be sent through this medium to number 134.

The Herald is the official paper of the city of Los Angeles. The city delinquent tax lists and all other municipal notices appear only in its columns.

Hos. W. W. Foots and Judge Walter H. Levy are visiting the southern country on a trip which will undoubtedly confirm their already ready-made theories. It is hardly to be assumed that any political sense-building concerns occupy any share of the thoughts of these distinguished Democrats. They are artists in that line of business, however, should they choose to turn their attention that way.

We have received a copy of the new City Directory. A cursory examination of it leads us to believe that the work has been done more completely than in the past, although that of course was to be expected, as Los Angeles has been taking on an metropolitan air to an extent that compels more thoroughness in a work of this kind. Typographically the book is a credit to its publishers, A. A. Byron & Co. We shall examine it in detail at our leisure.

Mr. J. De BARTH SHORR has returned from San Francisco after a splendid fight for the rights of irrigators which has attracted the attention of the people of the whole state. He has been a central figure in a struggle which will leave his impress upon the legislative and judicial annals of California. The Herald is pleased to know that he is home, and that he is now in Los Angeles, to the fore with all his old-time vigor and impetuosity.

Owing to his numerous votes of special Pension bills a misapprehension exists among many persons as to the precise scope of the President's action. They think that he has vetoed the general Pension bill itself, and people who have been in receipt of little reminders of their patriotic services have been greatly alarmed. There is no need for this. The general appropriation for pensions remains unaltered, and Mr. Cleveland has simply applied himself to checking an admitted evil. A very complete machinery has been supplied by law for passing upon the merits of individual pension cases.

Mr. Chas. W. Hicks, formerly of Hicks & Dupuy, No. 12 W. First street, has opened a new seed store at No. 2 S. Main street, where his old patrons can find a large stock of new and fresh seeds of all kinds, potatoes of every variety, grain, mill feed, and onions. Telephone No. 157.

Many Society Excursions.
Out of the city are contemplated for the coming picnic season. The San Gabriel Valley railroad invites attention to the delightful trip over its line to Lamanda Park. California will leave for the East today. It consists of sixteen carloads forwarded by W. K. Strong & Co. and Edwin T. Earl, members of the "and Edwin T. Earl's" Association.

Important to Consumptives.
The people of Australia and of the State of California have been astonished at the wonderful curative power of Keweenaw, or the green leaves, for all throat and lung diseases. A preparation called the "Green Leaves" has been prepared and is now on hand at our store, and is the only cure for all such ailments. It is a most valuable medicine, and is the only one that will make you stick at the end of the month in a healthy condition. C. F. Heinemann, sole agent, Los Angeles.

Our Eastern Visitors.
Every stranger, seemingly, intends visiting the Geysers, as hundreds are daily going and coming. The Geysers are unequalled for grandeur of scenery, and are of easy access—only sixteen miles from San Francisco. They are described by our geologist as "fearful, wonderful." The Geysers trip is the most popular in California. No one who has not seen them, or who has not seen them in person, should fail to visit them.

Dr. Deffen's.
Great Egyptian remedy can be had of F. H. Hanson, druggist, 77 and 79 North Spring street, opposite the Court House.

Medicated Inhalations.
No one can say enough against the use of medicated inhalations for lung diseases, and about to be inaugurated in that quarter of the city, which will have the effect of keeping the present business center substantially where it now is. A mistake can be made, on the understanding that the interests of the government are to be protected, in supposing any location within the bounds described by First street and the Plaza and Los Angeles and Main streets.

public weal. If the election of 1884 were to be held over again in the light of recent developments the Plumed Knight would scarcely have figured in the contest.

The leading aspects of the Riparian Bill controversy, as developed by a recent decision of the Supreme Court of California, are presented in the Herald this morning in the shape of two supplements, one pictorial and the other embodying thoughtful reviews of every phase of the matter.

Who are constantly nervous are, in nineteen cases out of twenty, dyspeptic. The twentieth case will be found upon investigation, to be a case of indigestion. This, nervous anxiety, perturbation in the stomach, a disposition to start on the sudden closing of a door, tremulousness of the hands—more particularly of the right—show that the nerves are weak and unsteady. Hostetter's Stomach Bitters strengthens and quiets the nerves. This effect is a speedy consequence of the invigorating and regulating action upon the organs of digestion and assimilation. It enriches the blood, restores the system to its normal condition, relieves sick and nervous headaches and regulates the bowels without giving them a more trustworthy defense against fever and ague than to rheumatism, kidney and bladder derangement. Taken before retiring it induces sound repose.

Prof. G. W. Arncliffe.

The Ventura Democrat names Hon. Jose G. Estadillo as a very eligible candidate for Railway Commissioner, and we reproduce elsewhere the items expressing his preference for that position. The truth is that his record as State Treasurer in the Irwin administration was one of the most creditable characteristics of the day. Mr. Estadillo is a gentleman of scrupulous honor and self-respect, and he would respond with the punctilio of a Chevalier Bayard to the obligations of any public trust. California had two State Treasurers of the National California race in the persons of Hon. M. F. Cornelius and Hon. Jose G. Estadillo, and their record was one of which they could be proud. The Herald does not know whether or no Mr. Estadillo has any further desire to serve the "dear people" but, if he has, he will find a host of devoted friends at his back.

While President Cleveland certainly does not please all Democrats, the evidences are multiplying that the masses of the party are in accord with him, and that a quite unusual number of Republicans have been attracted by his honest fulfillment of the duties perhaps unwisely exacted by the leaders of the Democratic party for "bum-bum" but, if they no longer care to adhere to their old party affiliations. There is by no means the jaunty assumption of success at the head of the Republican leaders six months ago. They realize that the Democratic national administration has impressed the country with its honesty of purpose and devotion to

The market closed lower than the last prices of the day. There was at no time more than a moderate business, but buying continued steadily throughout.

With this object, it is my intention to dissolve Parliament. I continue to happily maintain most friendly relations with foreign powers. In conclusion, the Queen says: "It is my earnest prayer that the Parliament about to be elected may be so guided as to promote the peace, happiness and contentment of my people and strengthen the union of the Kingdoms."

The Switchmen's Strike.
Chicago, June 25.—The Lake Shore Railroad Company attempted to send a freight train out of the city this morning with the assistance of some imported switchmen, brought here from other points on the road to take the place of those now on a strike. They turned the railroad switchmen and succeeded in running the train of the track, and caused other damage.
