The sympathy of a large circle of friends goes out to Mr. Frank McCoy in the death of his wife, which sad event occurred yesterday. The funeral will be private and will take place tomorrow from the family residence on York street.

The new dummy line of railway is now graded almost to the Devil's gate, which it passes at an elevation of about one hundred feet on a curve that carries the track onto the mesa of La Canada, in which it is to extend westerly to the new town of Lanterman just laid out by Dr. Lanterman and Mr. A. BRONCHITIS.

Acute Bronchitis.

This is an inflammation of the mucous membrane lining the bronchial tubes, and is one of the most common of all the pulmonary diseases.

Chronic Bronchitis.

Chronic Bronchitis is also an inflammation of the mucous membrane of bronchial tubes. But it is more often occurs later in life.

Humid bronchitis (from humors, to be moist) is so called from the profuse quantity of watery secretion which issues from the air passages of the lungs.

Very bronchitis. This disease, the very opposite of the above is a very common affection. Very many people who regard themselves as quite healthy are to day under its influence, and are slowly but surely becoming the victims of this treacherous complaint.

This will convince us of the necessity of fully understanding the system of medicated inhalations in the treatment of the various diseases of the pulmonary organs, for when properly applied, it is no system of medicine to be compared to any other.

Persons desiring treatment by this system of medicine can be consulted at my office, or at my residence, at 275 North Main Street, Los Angeles, Cal.

I have seen so many of these cases cured that I do not consider any case hopeless unless the disease has advanced to the point where both lungs are seriously involved.

These who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but, if impossible to do so, send for a copy of my medical treatise, containing a list of questions to address.
